

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Plumber

### Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

10+

### Welding Experience:

MIG - Some Knowledge, TIG - Some Knowledge, Flux Core- Skilled, Flux Core - Some Knowledge, Stick - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

Yes, when I worked in maintenance, I worked on removing large to small piping, no longer in use.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have a passion for carpentry, I recently just built a step stool for my daughter. I spend some of my down time looking at tutorials and tip and tricks in carpentry and building.

### Shift Availability:

1st Shift (Days), Weekends, Overtime, Full-time

### Post HS Education:

Some 2-year college, Other Relevant Courses &amp; Certifications

### Add'l Edu. Details:

OSHA 10, Certification Of Completion Residential Construction GRCC, Certification of Completion HVAC-R KCTC

### What trades-related courses did you take in school?

Building Trades / Construction, Welding, Woodworking / Woodshop, Math-Algebra, Math-Geometry

### What construction software or technologies do you have training in?

Robot software

### Any Safety Certificates:

OSHA 10

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

This would be a great opportunity to get familiar with the trade, in a immersive hands on way, and to learn the trade in and out, taking the next step in developing a career, to support my family

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Well, it all started 3 years ago, when I took a dynamic job position working as maintenance. This turned out to be;building maintenance, facilities maintenance, and preventative maintenance all in one.

The company bought a old foundry from the 1920's in Sparta Michigan. Essentially we gutted that whole place, old water lines, and gas pipes, no longer in use, was to be taken out and this is where i found my intrest to become a plumber. I have got my feet wet in different fields, and Plumbing is where I belong.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Working for my dad's construction company I learned how to do general construction work using various types of tools.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have built a few decorations around my house out of wood. I've also fixed my garage door when a piece of the motor broke.

Shift Availability:

Full-time, 1st Shift (Days), Overtime, Weekends, 2nd Shift (Nights)

Post HS Education:

Some 2-year college

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra

Why is an apprenticeship an attractive option to you?

I want a new career where I can work with my hands and in new environments. I'm also looking for a career where I can grow.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up working for my dad's construction company and plumbing was always something that I thought would be an interesting and rewarding career to get into.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Pipe Fabricator, Steamfitter (Pipefitter), HVAC/R Service Tech, Plumber

**Work Zones in Preference Order:**

Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:**

MIG - Some Knowledge, TIG - Some Knowledge

**Tell us about any jobs where you've learned pipetrades relevant skills:**

I work at Wald Wire in Oshkosh. We make mostly sheet metal and plate products. There is about a 50/50 mix of consistent products and new products. Last year I was put as a supervisor, so I've been doing a lot more problem solving and quality checks for all areas of the shop.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I like to build things to blueprints. It started with Legos. I enjoy fixing things for my friends and family.

**Shift Availability:**

Full-time, Weekends, Overtime, 1st Shift (Days), Part-time

**Post HS Education:**

Associate Degree

**Add'l Edu. Details:**

Industrial welding associates degree at FVTC

**What trades-related courses did you take in school?**

Electrical Trades / Electronics, Drafting and Design, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Robotics, Metals, Welding

**What construction software or technologies do you have training in?**

AutoCAD, Solidworks

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:**

Veteran

**Why is an apprenticeship an attractive option to you?**

The fair treatment of employees, and the benefits of working for a union are what have me intrigued.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I weld at a job shop, and I want to do better.

**Contact Information:**

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green), Green Bay Area (Yellow)

**Relevant Experience Level:**

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

**Years of Full-Time Work Experience:**

10+

**Welding Experience:**

MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

**Tell us about any jobs where you've learned pipetrades relevant skills:**

In my job experience, I assisted with setup and prepping job sites, handling tools and materials, assisting with installs and repairing pipes and fixtures, performing basic maintenance tasks, and cleaning up after work. I also transported equipment, followed safety procedures, and gained some hands-on experience from the master plumbers.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I am an avid fisherman and hunter. These hobbies have taught me to be patient, be aware of my surroundings, and to be able to work quickly and safely while under pressure. These skills can easily be transferred to the construction trade due to the nature of the unknown. It is important for workers in the trade to be able to adapt quickly, but also maintain safety. Patience is also important. Sometimes, job tasks may change which will result in downstream delays to the team. Understanding that there are things out of my control is important, and can help impact others.

**Shift Availability:**

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Some 2-year college

**Add'l Edu. Details:**

Auto Mechanic Certification

**What trades-related courses did you take in school?**

Automotive Technology, Welding

**Why is an apprenticeship an attractive option to you?**

I am 31, married, and have a 5 year old son. For the last decade, I put my education and career on hold to support my wife as she chased her career dreams. Now that she is there, it is my turn to figure things out. I have always been drawn to a hands on career, and I thrive in an environment that constantly challenges my brain. The pipetrades is just that. I am ready to commit to something that is going to provide me with a career rather than a job, and be rewarding in the long run. I am ready to put in the work, and be

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I've always been drawn to careers that involve hands-on work, problem-solving, and tangible results. The building trades offer a sense of pride and purpose in creating and maintaining essential infrastructure. I appreciate the teamwork, discipline, and continuous learning that comes with the trades. Specifically, the pipetrades caught my attention because of the critical role they play in both residential and industrial systems. Pipetrades professionals keep buildings safe, functional and efficient. While my work in the past was in a laboring function, I enjoyed learning from my mentors and would like to join a union and pursue the opportunity to become a journeyman myself.

**What construction software or technologies do you have training in?****Any Safety Certificates:**

OSHA 10

**Add'l Details:****Contact Information:**To speak with candidate #9296141, access your Candidate Request Tool at <https://pipetradecareers.com/contractors/candidates/WI400>**Additional Information:**If you have questions on candidates or the Pipefolio process, please contact: [Career@UA400.org](mailto:Career@UA400.org)

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech, Steamfitter (Pipefitter), Plumber

**Work Zones in Preference Order:**

Appleton Area (Green), Fond du Lac Area (Orange), Green Bay Area (Yellow)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

4-6

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

I have basic power tool skills from Menards but nothing crazy related. Then when I worked with my pops I was in trenches making connections for drain tile but it was very repetitive. That gave me some experience in piping but I'm sure I would need to learn much more.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I lift 5 times a week and play basketball. Im very coordinated which I use in work place and Im physically suitable for most situations. I cut hair on my free time as a little side gig I have good hand eye coordination and steady hands as well which I know will help. At nights I've been posting YouTube videos and editing them myself it's a newer hobby but I am a quick learner on electronics. I enjoy going on hikes which furthers my being physically apical for these positions. I've worked with my pops in fields doing drain tile for a year as well.

**Shift Availability:**

Full-time, Overtime, Weekends, 2nd Shift (Nights), 1st Shift (Days)

**Post HS Education:**

Some 4-year college

**Add'l Edu. Details:**

It was a year in business at Stevens point I was just taking gen eds and it wasn't much I got to take out of it.

**What trades-related courses did you take in school?**

Automotive Technology, Electrical Trades / Electronics, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Woodworking / Woodshop

**What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

I want to learn and get really good at a useful career such as the ones offered. I wish to buy a fixer uper house in the near future and I want to further my knowledge and skills to help me do that. I enjoy the pathway up in the trades and I am confident in my ability to work my way up.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I meet a lot of people who work in the field and they recommend me to get into it

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), Pipe Fabricator

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

4-6

Welding Experience:

MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I am currently employed as a tire technician. I use power tools on a daily basis.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I am a 2nd degree black belt in Taekwondo. This has helped me develop leadership skills. I am currently employed as a tire technician, so I have experience working with machines and power tools. I did two years of a youth welding camp in middle school. I have minimal experience welding, but it was something I really enjoyed.

Shift Availability:

Full-time

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

As someone who is always eager to learn something new an apprenticeship seems like a good alternative to a full four year degree since I can earn while I learn. It is a way to set myself up for future success, developing a useful skill that will always be needed in society. I enjoy helping people in my community and this would be a way of, one day, actively doing just that.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy working with my hands. I want to develop a useful skill that will take me far in life.

Why is an apprenticeship an attractive option to you?

I desire something more rewarding than the soulless logistical work I'm currently doing because it pays more. I'm finally in a position to pursue work that has meaning to me again and I want a union backing me because they care about me as a person beyond a valuation on a spreadsheet/P&L report.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've been some form of fabricator since I was in high-school doing wood/metal shop. I even went to the other side of it with drafting classes too. I enlisted as an army engineer and really enjoyed making something worthwhile with my labor ever since. After I got discharged I did a ton of metal fab and welding, but had to move jobs because of wages. I've missed actually doing something ever since. Pipetrades is of interest to me since it combines a lot of my amateur applicable skills like print reading, fabrication knowledge, welding, and troubleshooting.

Tell us about any jobs where you've learned pipetrades relevant skills:

The job i currently work at Russel metals Williams bacahl is hard work but i kind of like the work. I don't like that it's the excact same in the excact same warehouse everyday. But I operate a crane and pull orders for them, bundle them up, I load and I unload trucks and currently am on forced 12 hour shifts Monday-Friday. I learned at this job that I like hard work and taught me to work hard and learn some new skills and how to operate cranes.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I like to run, ride my bike, walk my dogs, hangout with loved ones, fish, drive atvs. I think these things can boost my skills needed for trades because I'm healthy and strong, and like to work

Shift Availability:

Overtime

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Metals

What construction software or technologies do you have training in?

Any Safety Certificates:

OSHA 10

Add'l Details:

Why is an apprenticeship an attractive option to you?

Because I don't want to pay to go sit in classroom at college. I learn by watching and doing things for the most part and that's why I like hands on diverse work. It's attractive because I can make a lot of money while training to make even more money later on and I don't have to pay money and go sit in a classroom to learn it.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I like to do hands on work and work hard and learn new things, and I like money a lot and it makes a lot of money. I don't enjoy sitting in a classroom I learn by watching and doing things.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked for IKM in greenbay for 5-6 months where I got to work with out pipe fitters a little bit not a ton of work but some small stuff, I also worked for Blackhaak for a little under a month where I learned to do gas piping and set up pvc but of course not all of the things the plumber would do.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I don't have a ton of hobbies that would benefit me in the trades but I definitely have experience that on the job when it comes to the trades. I have done a few different trades, I started off trying out concrete but didn't get any hands on experience doing that and later went to demolition. Overall when it did not peak my interest one of my friends pushed me towards HVAC. I ended up getting a lot of experience doing that and tried doing some residential plumbing for a company soon after but was dragged back towards HVAC when I was recently let go for no reason.

Shift Availability:

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I have always been interested in the trades because it's all hands on and hard work. I have tried working a white collar job in the past which lead me to complete boredom and no interest. I love the communication and people you get to meet in the trades.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I used to work for the Local 18 union and from there I seen a lot of plumbers do work and was a lot more interested in the plumbers work then the HVAC work

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Appleton Area (Green), Green Bay Area (Yellow)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

7-9

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked for a small plumbing company for 3 months as a green hand. We did residential and commercial jobs. I learned all of the basics. I started out learning all of the tools and ended up knowing enough to replace my mothers water valve when it started leaking.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Going to the gym is one of my favorite hobbies, I've always been strong and athletic. Other hobbies of mine are BBQ, hunting, and poker. My transferrable skills from my hobbies would be physical strength and attention to detail.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

Some 4-year college, Some 2-year college

Add'l Edu. Details:

I started at the Oakland Community College in Michigan to get general education. I transferred to Oakland University and

What trades-related courses did you take in school?

Math-Algebra

Why is an apprenticeship an attractive option to you?

As a former Appraisal Trainee, I understand the value of having my education and experience paid for. One of the reasons I am no longer an appraisal trainee is because I would have to go back to school and get an associates or bachelors degree. The apprenticeship program is a far superior career choice for me because I get most of the education paid for and get paid better from the start. I also would enjoy a more physical job.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The trades provide a rewarding, stable, and lucrative career. I've always been an active person and I don't enjoy sitting at a desk all day. I have experience in plumbing and I could not imagine choosing any other trade like electrical, roofing, or HVAC.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Why is an apprenticeship an attractive option to you?

It allows me to learn a job while still providing an income for my wife and son.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Originally I wanted to go into Finance. I am still actively working towards my degree. However, with AI evolving rapidly, I feel like a safe bet would to work in a job that will forever be needed. Technology is advancing rapidly, and I'd like to not have to worry about job security. I have a wife and son I need to actively provide for, and they are my top priority. I like working with my hands and providing a service that will leave my bosses and consumers satisfied.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber

**Work Zones in Preference Order:**

Fond du Lac Area (Orange), Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

10+

**Welding Experience:**

TIG - Skilled, MIG - Skilled, Flux Core - Some Knowledge, Stick - Skilled

**Tell us about any jobs where you've learned pipetrades relevant skills:**

During my time as a foreman for Osmose Utility Services, I learned how to manage employees to be able to get weekly goals accomplished through specific metrics. More in depth we had to make sure we got out units everyday by treating and chipping utility poles. This has helped my critical thinking, repetition, and supervisory skills. I worked as a welder for several years so I have knowledge of the pipetrades through that.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

Doing leather work or small wood projects are some hobbies that I have. I dabble in a bit of everything, the basics fishing and hunting are some of my favorite hobbies. All of these have definitely helped my problem solving and focus.

**Shift Availability:**

Full-time, Part-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Other Relevant Courses &amp; Certifications

**Add'l Edu. Details:**

Welding Certificate, CPR Certificate

**What trades-related courses did you take in school?**

Welding

**Why is an apprenticeship an attractive option to you?**

This is because I have a family to support and the opportunity to be able to learn and get paid while doing it is the best option for us. I am eager to learn and ready to intake as much information as I can.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I am very interested in this position based off past experience doing welding specifically food grade/plumbing. It introduced me to this type of world and I am looking for the opportunity to start a lifelong career.

**What construction software or technologies do you have training in?****Any Safety Certificates:**

First Aid / CPR, OSHA 10, OSHA 30

**Add'l Details:****Contact Information:**To speak with candidate #10208045, access your Candidate Request Tool at <https://pipetradecareers.com/contractors/candidates/WI400>**Additional Information:**If you have questions on candidates or the Pipefolio process, please contact: [Career@UA400.org](mailto:Career@UA400.org)

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I have worked doing maintenance for a senior living community for about 5 years and learned a lot of skills with that job not just for the pipe trades but also in general. The current job that I have we work doing repairs on appliances and also install of appliances specifically dishwashers. We have to make alterations to some of the fittings in order for us to install so that's also giving me some knowledge of the pipe trades.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I try to do all my house repairs myself whether it's watching videos or previous knowledge that I have. I feel like I've gained a lot of knowledge just by doing that and also at previous jobs I learned a lot from the plumbers and HVAC techs that came in to my workplace at that time.

Shift Availability:

Full-time, 1st Shift (Days), Overtime

Post HS Education:

Some 4-year college

Add'l Edu. Details:

What trades-related courses did you take in school?

Building Trades / Construction, Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

It's attractive for me because it is a way of learning a skill that is very useful not only for a job but in everyday life. I want to have a career that I can be proud of and also one that I can work in until I retire. I know I'm not overly young but it's something that I want to have for the rest of my career until the day I retire.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always done maintenance in the past and plumbing and HVAC have always been something I've wanted to get into as a career and not just something that I do here and there. I have family members that have been plumbers and they've always told me what a great career it was and I've just been trying to look into the right situation and this seems like the perfect situation for me.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

**Work Zones in Preference Order:**

Green Bay Area (Yellow), Appleton Area (Green)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:**
**Tell us about any jobs where you've learned pipetrades relevant skills:**

I haven't worked in the construction field outside of attending the carpentry program at NWTC. I'd have a lot to learn but through my work experience I have a good track record of being responsible and punctual.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I frequently help family with home renovation projects so I'm no stranger around some power tools. I've been through the carpentry program at NWTC but didn't pursue it out of the classroom. My work experience is primarily in restaurant industry so that could transfer to the skills of needing to be attentive and organized in a fast pace environment. Through that I've also become very attentive to detail to make sure service is up to standard. I believe these are qualities important in any job I take on to ensure all work is done to the best and fullest of my abilities.

**Shift Availability:**

Full-time, Overtime, Weekends, Part-time, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

**What construction software or technologies do you have training in?**
**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:**
**Why is an apprenticeship an attractive option to you?**

I've always been a hands on learner because I very much prefer to see the work being done in front of me in order to understand it better. Books only teach you so much when you can't visualize the way their information is applied. Not only is it the way I learn best but I also have a situation in which I need to keep making money as I go to survive. Without a steady income bills would fall through which I can't let happen when my baby girl is being born this March. Developing skills and career while being payed is the best

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I had gone to NWTC after a year of college and joined the carpentry program. Through experience in that I realized I didn't really enjoy doing it for work but while there I was able to visit various other trade programs to get more insight about the work they do. Plumbing and Electrician programs seemed a much better fit to me and I was much more interested. I've been hesitant to start and looking for an apprenticeship in the past due to frequently moving around Wisconsin for the past 3-4 years. Now things have changed and I have a child on the way this March. I won't be traveling as frequently and would like to build my career in pursuit of supporting that family along with my own self interest in the trade. It would mean the world to secure a future in plumbing.

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

Honestly I cannot say my past jobs have had any skills directly related to the pipe trades. Working Security at Disney for the last 8 years has given me a very high level of customer service ability. I assume customer service skills can be beneficial when working with customers on various jobs.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I enjoy doing an assortment of outdoor activities. So working in a variety of environments does not bother me.

I prefer trying to figure out how to fix things myself. Even if I don't know how to do something, I generally know where to look for guidance.

I enjoy working out which keeps me physically capable for the requirements needed

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Associate Degree

**Add'l Edu. Details:**

Criminal Justice degree (associates)

**What trades-related courses did you take in school?**

Woodworking / Woodshop, Metals, Welding, Math-Precalculus / Trigonometry, Math-Algebra

**What construction software or technologies do you have training in?****Any Safety Certificates:**

First Aid / CPR

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I've never done well in a classroom only environment. In high school my favorite classes were machine tool, welding, and wood working. I learn so much better in a hands-on setting.

I'm also tired of just working "jobs". I want a career. And the "earn as you learn" format of a apprenticeship work perfectly for my family and I. I don't have the knowledge or

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

Throughout my years working for Disney I've spoken to many individuals in the Engineering department that work for a variety of trades. My current job can be very monotonous and unfulfilling. I've been interested in pursuing an apprenticeship in the pipetrades because I would prefer to have a more hands-on career. Unfortunately with the low union pay in Florida and extremely high cost of living, I cannot afford to lose my current job.

My wife and I are planning to move to Wisconsin next year. My goal is to start a career journey that allows me to provide a comfortable life for my family.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Fond du Lac Area (Orange), Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:

MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked for an explosive company and learned measurements and how to work as a team, so everyone is productive and safe. I also learned how to be a hard worker as some days aren't the easiest, but I kept myself going. This translates to the pipe trades because it shows my passion for teamwork and working together and having good work ethic.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I am and was into sports since I was a kid, and I played baseball, basketball, and football all since I was a kid. I valued my sports and was always my favorite thing about school. I worked as hard as I could in each sport and got a letter in both basketball and baseball. I also valued the friendships I made and valued teammates a lot because me and all my teammates valued the same thing which was having fun and winning.

Add'l Details:

Why is an apprenticeship an attractive option to you?

I think it is a very good option for me because of being able to work hands on while learning instead of just schooling. I believe I learn better with hands on, which is why I believe that an apprenticeship is the best option for me.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I always seemed interested in plumber trades, since I was a kid. Mainly because when I was younger, we would have plumbers come to our house to work on things we'd need done and I was always intrigued by the many different skills they have and the many good things they do for people.

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship is a cool thing to go for because you wont get into a whole lotta debt. I have seen vidoes of people hard at work while learning at the same time and i very much enjoy learning. Learning is what makes the job fun and makes me strive to become better.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

working in customer service jobs has always struggling to learn new things but it was pretty much the same thing at every job ive ever had. Ive talked with my dad who works in carpentry and thats what brought me into it. Its been popping up on my computer and its been intresting to research and watch other people do these things that ive never even thought of doing. Ive always felt like I never knew how to do anything and always having to rely on someone else. I wanted to make a change by researching all of this and finally gained enough courage to start applying.

Add'l Details:

Why is an apprenticeship an attractive option to you?

Because you are paid as you learn. I have a family and could never just quit my job to go back to school as much as I'd like to. There are people who depend on me for more than just financial reasons. I am in at a stage of my life where I can afford to take a substantial pay cut while learning a new trade. I would like to take advantage while I am still young and healthy enough to learn a good trade that my kids can look up to me for.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am searching for a career that rewards hard work. And also has high growth potential. I enjoy working with my hands and other people as well. I am a family man who likes to be home on a daily basis.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Steamfitter (Pipefitter), Plumber, Pipe Fabricator

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

1-3

### Welding Experience:

Stick - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, Flux Core - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

My current job I have now is production welding. I have learned many things such as power tool use, blue print reading, and adaptability to different welding methods. These skills I use on a daily basis to be able to do my job and are similar skills needed for pipe trades.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

An activity that would be transferable to construction trades would be time management on production and quality. I do a lot of time management at my current workplace now due to there being a set rate on parts. I also do a lot of reworking on parts that don't meet standards. I would consider these two to be activities at work as I do them on a consist basis, and uphold my own standards that go above company standards for I believe in only giving the best work at all times.

### Shift Availability:

Overtime, 2nd Shift (Nights), Weekends

### Post HS Education:

Associate Degree, Other Relevant Courses &amp; Certifications

### Add'l Edu. Details:

Associates in Arts &amp; Science, Welding Industrial Technical Diploma

### What trades-related courses did you take in school?

Welding, Math-Precalculus / Trigonometry, Math-Algebra

### Why is an apprenticeship an attractive option to you?

An apprenticeship is a good opportunity to learn from someone who has more knowledge and skills. Their skills and knowledge would be an absolute asset to being a successful welder and being able to problem solve in a different mindset. It gives opportunities to improve my skills and what I may be lacking in and needing more help. With an apprenticeship I will have the skills and knowledge to further my career and one day lend it to another who may follow my steps.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

When I was in high school, I took a class for metal working and we did a bit of welding in the course. I had an interest in welding from that point on and continued to LTC for a Welding Industrial Technical Diploma to gain more exposure to welding. I have always heard about pipe fitting and did not find a job in that field nearby at the time of my graduation. I've always found pipe fitting and iron works to be a unique way learn to be a better welder overall. As these two types of welding are ones that never have exactly the same thing happening day to day. Keeping the workday more enjoyable and challenging.

### What construction software or technologies do you have training in?

### Any Safety Certificates:

HVAC/R Service Tech, Plumber, Pipe Fabricator, Steamfitter (Pipefitter)

**Work Zones in Preference Order:**

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

As a truck driver for five years, I developed skills that apply to the pipe trades, including attention to detail, problem-solving, and working with tools. I maintained equipment, followed safety protocols, and managed logistics, all of which are essential in pipe work. My DIY projects have also given me hands-on experience with basic plumbing and home maintenance, further building my technical skills. These experiences have prepared me to learn and succeed in the pipe trades.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I enjoy weightlifting, DIY projects, golfing, and deer hunting, all of which have built skills useful in construction. Weightlifting improves my strength and endurance for physical work, while DIY projects sharpen my problem-solving and hands-on skills. Golf teaches patience and precision, and hunting requires discipline and adaptability, both important on a job site. These activities have helped me develop the physical and mental skills needed for construction work.

**Shift Availability:**

Full-time, Overtime

**Post HS Education:**

No

**Add'l Edu. Details:****What trades-related courses did you take in school?****What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship is attractive because it provides hands-on experience while teaching property management and maintenance skills. After five years as a truck driver, I want a structured way to transition into a career with long-term growth. Learning construction and property maintenance will help me build skills for investment real estate while earning as I learn. This opportunity offers the perfect balance of education and real world application to reach my goals.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

Looking to get into property management and want to learn all the skills associated with that.

No

**Add'l Edu. Details:**
**What trades-related courses did you take in school?**

Welding

**What construction software or technologies do you have training in?**

None

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:**
**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

As far as hobbies go I enjoy working on my personal vehicle wether it's small repairs or modifications. Through out my time working on cars I've learned alot of problem solving skills and how to be creative and innovative on the fly. I've also learned mechanical skills from working on my car and from past jobs. I enjoy playing sports and weight lifting. Sports have definitely taught me how to work efficiently with others and especially with people with clashing personality's. Through weight lifting I've definitely learned patients and that some things just can't be rushed

**Why is an apprenticeship an attractive option to you?**

I like the idea of learning from someone who has been in the field and in the career. I know ide get more out of it if I can learn first hand vs reading how to do a job in a book or just being thrown into something not knowing anything about it

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I enjoy working with my hands, I also like having variety within a job because I'm not a fan of of the same monotonous day to day tasks. I also like problem solving. I am also looking for a career where I can grow my skills and as a person. I also want the possibility to move up and grow within a company. I am also looking for a career that is stable and that teachers my skills of a trade that I can use any where in the world and be successful

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am a hands on learner. It makes me learn a little faster than watching someone else do it.  
Being at a job for years and not being able to advance was depressing. I am ready to learn new things everyday and advance my career to better my family.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I like to learn hands on stuff. I was actually going to go for heavy equipment operating but decided i may like plumbing.

I would be interested in any apprenticeship. Learning things while getting paid for it is better than not being able to advance in a company. It's more rewarding and motivates me to wanna go to work everyday instead of being miserable at a job you can't advance in.

### Why is an apprenticeship an attractive option to you?

An apprenticeship is an ideal option for me because of a few reasons. I am a hands on learner and learning on the job is the best way for me to become skilled. The job security is also a big positive because leaving a secure career like the military and going back to civilian work where company's can downsize is a stress I would like not to have. Providing for my family is the most important thing to me and getting an apprenticeship and being able to join a union is an amazing privilege. I also would like to grow with a company and

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I prefer jobs that are hands on. I want to provide for my family as best as I can and this looks like one of the best ways for me to do that. I found out about UA through Transition Readiness Seminar as I am getting out of the Marine Corps soon and once I looked into UA and the pipe trades and the apprenticeships it seemed perfect for me.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech, Plumber

Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

4-6

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I haven't had direct experience in the pipe trades, but I have worked on roofing jobs and for a drywall company, gaining hands-on construction experience. Roofing taught me physical endurance, safety awareness, and problem-solving, while drywall work helped me develop measuring, cutting, and installation skills. These jobs reinforced my work ethic, teamwork, and ability to learn on the job, which will help me succeed in a plumbing or HVAC apprenticeship.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I practice Jiu-Jitsu, go to the gym, and participate in various team sports. These activities have helped me develop physical and mental skills that are highly transferrable to the construction trades. Jiu-Jitsu has taught me discipline, patience, and problem-solving under pressure. It requires strategic thinking, adaptability, and attention to detail—just like working in plumbing or HVAC, where you need to assess situations, troubleshoot problems, and apply technical skills effectively.

Shift Availability:

1st Shift (Days), Overtime, Full-time

Post HS Education:

Some 2-year college

Add'l Edu. Details:

Human Services Substance Abuse Counselor in Training Certificate

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option for me because it provides hands-on training, allowing me to learn directly from experienced professionals while earning a living. I thrive in environments where I can apply skills in real-world settings rather than just learning in a classroom. The combination of structured education and on-the-job experience makes an apprenticeship the ideal path for gaining the technical knowledge and problem-solving skills needed in the HVAC or plumbing trade.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on work and problem-solving, which is why I'm interested in a career in the building trades. I enjoy working with my hands, learning new skills, and seeing the direct impact of my work. The trades offer a career path where I can develop specialized skills, work in a high-demand industry, and have opportunities for long-term growth and stability.

Specifically, I'm interested in plumbing and HVAC because they are essential trades that keep homes, businesses, and industries running smoothly. The idea of working on complex systems, troubleshooting issues, and providing solutions excites me. Even though I don't have direct experience, I'm a hard worker, eager to learn, and committed to developing the skills needed to be successful in this field.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green), Green Bay Area (Yellow), Fond du Lac Area (Orange)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

10+

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

I can't say I've worked any construction trades. The closest thing I can say is butchery. I worked with plenty of meat processing tools like Band saws, grinders, industrial tenderizers, cleavers, and knives.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I'm a big hardware guy. Mostly I build computers and rebuild classic speakers and receivers. I also ride motorcycles and perform my own regular standard maintenance on them. I'm not certain if these would be considered transferable, but when I'm practicing and learning these skills I tend to absorb the relevant information on how to do them and I really enjoy it.

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Some 2-year college

**Add'l Edu. Details:**

I'm currently enrolled in the Software Development program at FVTC in Appleton. The courses I've taken so far are Pre algebra,

**What trades-related courses did you take in school?**

Math-Algebra, Math-Geometry

**Why is an apprenticeship an attractive option to you?**

I've been through one before as a butcher and trained my own apprentices. I enjoy the culture of the trades in particular. And I've always been a better hands on learner than a book learner.

I think that working in a butchers union, and with the culture, was essential for acquiring the skills I needed to succeed.

**What construction software or technologies do you have training in?**

C++, C#, HTML, SQL, JSON, CSS, a little Python and a little JAVA

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:****What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I'm a journeyman butcher and have been for sometime. I've always had friends and family in construction trades and have much respect for them. For a long time now I've wanted to switch trades. In 2017 I attempted to join the local Chicago plumbers union but my math skills at the time were lacking. A few years later, I moved to Appleton and started attending Fox Valley Technical College. I retok pre algebra, college mathematics, a math & logic class for software engineering, and even tutored my girlfriend in business applications of math for her degree. I studied hard and aced those classes and am now much more confident in my skills in mathematics.

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

4-6

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

I've worked as an Operator Assembler at Sub-Zero Group, Inc. since March 2022, gaining hands-on experience in manufacturing, machine operation, and troubleshooting—skills directly applicable to the pipe trades.

Previously, as a Maintenance and Utility Assistant at Ahlstrom-Munksjö (Thilmany Mill), I assisted with equipment maintenance and repairs, building a strong foundation in problem-solving and industrial work.

### Shift Availability:

Full-time, 1st Shift (Days)

### Post HS Education:

Some 4-year college

### Add'l Edu. Details:

Certifications: Machine operation training, including experience with various assembly equipment, safety protocols, and

### What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Woodworking / Woodshop, Math-Precalculus / Trigonometry, Engineering, Electrical Trades / Electronics, Drafting and Design, Robotics

### What construction software or technologies do you have training in?

AutoCAD, Solidworks

### Any Safety Certificates:

First Aid / CPR

### Add'l Details:

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy hands-on projects like coding and designing software tools, which have strengthened my problem-solving and troubleshooting skills—valuable for the construction trades. I also have experience operating machines and quickly learning new tools, thanks to my curiosity and adaptability.

Outside of technical activities, I enjoy being outdoors and playing team sports, which have taught me the importance of hard work, communication, and collaboration—skills

### Why is an apprenticeship an attractive option to you?

An apprenticeship is a great option for me because I learn best by doing. It gives me the chance to work hands-on, learn from experienced professionals, and build real skills while on the job. I also like that I can earn money while I'm learning, which makes it a practical choice as I work toward supporting my family. I'm looking for a rewarding, long-term career, and an apprenticeship is the perfect way to gain the experience and knowledge I need to build a strong foundation in the trades.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on, problem-solving work, which is why I initially pursued electrical engineering and gained experience in circuit analysis and machine operation. Over time, I've realized that I thrive in environments where I can see the immediate, tangible impact of my work, which is why I've become interested in the building trades.

Specifically, plumbing appeals to me because it combines critical thinking and physical work to solve essential problems that affect people's daily lives. I enjoy the challenge of troubleshooting and finding practical solutions, and plumbing offers a career path where I can continue learning, build expertise, and make a meaningful contribution to communities.

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

Because you learn your profession at a high level. And instead of paying for a good education, you get paid for it. It is also very hands on with not nearly as much classroom work as alternative options.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I really enjoy hands on work, and building trades are a good way to contribute to the world. I took construction classes along with welding classes when I was in high school and I really enjoyed them all, so I want to strive towards working a trade job because I know I enjoy the work. Additionally I help build rental houses with some guys and I really enjoy that work as well. I would like to do pipe trades specifically because I prefer the work they offer over other trade jobs, and I also have family that work as plumbers. Also the pipe work I did in those construction classes have further proven to me that's the trade I would like to do.

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

It's a wonderful way to get into the trades and learn along the way to build my skill set and quality of work, to learn from someone who's really good at what they do to ensure the best learning experience and skill set improvement

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I love working with my hands and building anything I can, I'm not afraid of dirty work, although I currently do not have any welding or pipe fitting experience. I have some general construction experience, which lead me to a recommendation from my uncle who I believe is going through this program. He loves and enjoys what he does, seeing as I love construction I am adamant that I would enjoy this as well, I'm unsure of what the pipe trades entirely entails, but it is very intriguing.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Plumber

### Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange)

### Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

### Years of Full-Time Work Experience:

1-3

### Welding Experience:

MIG - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

I work in Landscaping so I put in water features, paver patios, and retaining walls. I have done some plumbing work when putting in water features such as pump installations and pipe maintenance.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I was a 3 sport athlete throughout high school and that has taught me how to work with other people. It also taught me how to be a leader whether it be on the basketball court or baseball field. I think that working with other people is the biggest trait in the trades because you're not completing a job site by yourself, you're completing it with carpenters, plumbers, electricians, and many other tradesmen. Another hobby I have is I hunt which that has taught me patience. Patience is another important trade because every job site isn't going to go exactly how it should go.

### Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

### Post HS Education:

Some 2-year college

### Add'l Edu. Details:

I went to Lakeshore Technical College after high school for 1 year for Nuclear Technology. Some of the courses I took was

### What trades-related courses did you take in school?

Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Welding, Metals, Engineering, Automotive Technology, Construction Technology

### What construction software or technologies do you have training in?

CNC

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

An apprenticeship is a great way to learn a specific trade while being hands on in the working environment. It also allows you to be taught in the classroom without having the large amounts of debt if you went to a 4-year college.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My father is a carpenter so I have been familiar with the trades all of my life. I know that careers in the trades are needed to keep Americas infrastructure running and are considered the most important jobs to society. I am very interested in the pipe trades because I have talked to people who are plumbers and they love their jobs and have recommended working in the pipe trades. I also know that union jobs have great benefits whether it be healthcare or pension. I think that having a job as a trade, especially being a plumber, is a great way to live.

### Contractor Notes:

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

4-6

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked at Drexel building supply building pre fab homes. While at Drexel I gained the skills working with power tools and hand tools, I also gains a sense of community and team work. I have also worked at Jake's plumbing. While working with Jake I gained skills related to service work plumbing.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My two main hobbies are hunting and fishing. Theses hobbies boost my transferable skills wich are problem solving and decision making.

While hunting and fishing I use my problem solving and critical thinking skills to adapt to changing problems and challenges while also finding creative solutions to overcome challenges.

I use my decision making skills while fishing and hunting to make quick informed decisions similar to when I navigate difficult situations in the work place.

Shift Availability:

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

My wife and I just bought our first house and had our first child and my previous job required a lot of travel. I wanted a new opportunity that was not in sales and that could keep me active and bring me the satisfaction at the end of every day.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I worked for my uncle who is an electrician after i graduated high school and liked the trades. I ended up doing sales for awhile but after buying my first house and having our first kid I wanted to find a career path that required less travel and to feel satisfied with my work at the end of the day. I also have a friend who is a plumber and we have talked a lot about his career and it sounds like something I would really like to do.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Steamfitter (Pipefitter), Plumber

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

7-9

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

In my current role at a small manufacturing shop, I work with tooling and die, where I've developed several skills that are directly applicable to the pipe trades. While the work may not directly overlap, many of the core skills are transferable. I regularly use a variety of tools and work with metals, which has given me hands-on experience that is crucial in the pipe trades. Additionally, creating parts within very tight tolerances has honed my attention to detail and precision, qualities that are essential when working with piping systems.

### Shift Availability:

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights), Weekends

### Post HS Education:

Some 4-year college

### Add'l Edu. Details:

I attended the University of Wisconsin-Platteville for one year, studying Agronomy and completing two full semesters.

### What trades-related courses did you take in school?

Math-Algebra, Drafting and Design, Automotive Technology, Math-Geometry

### What construction software or technologies do you have training in?

AutoCAD

### Any Safety Certificates:

### Add'l Details:

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my current role in manufacturing, I've gained valuable experience working with various tools and machinery, which has helped me develop a solid foundation in hands-on tasks that are directly transferable to the construction trades. I am accustomed to troubleshooting equipment, following safety protocols, and ensuring precision in all aspects of my work, skills that are essential in any trade. Additionally, my experience in a team-oriented environment has taught me the importance of communication, collaboration, and efficiency—qualities that are critical in construction.

### Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me because it offers the opportunity to learn a skilled trade while gaining hands-on experience in a real-world setting. After several years working in manufacturing, I'm eager to develop technical expertise in the building trades, and an apprenticeship provides the perfect balance of structured learning and practical application. The ability to earn while I learn, along with the chance to work alongside experienced professionals, is a valuable opportunity to build a stable, long-term

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

After spending several years working in manufacturing, I've developed a strong appreciation for the value of hands-on work and the satisfaction of creating something tangible. While my experience in manufacturing has been valuable, I'm now seeking a career that offers both more specialized skill development and the opportunity to work on projects that directly impact the community. The building trades, and particularly the pipe trades, caught my attention because of the combination of technical skill, problem-solving, and the ability to see a project through from start to finish. I'm drawn to the idea of being part of a team that builds and maintains essential infrastructure, providing a tangible service that benefits society.

Add'l Edu. Details:

In Fall of 2022 I started at Moraine Park Technical College for a dual degree program as a Network Support Specialist and a

What trades-related courses did you take in school?

Math-Algebra

Why is an apprenticeship an attractive option to you?

I got to where I am in the IT field not through books or classes. I achieved the position through sheer on the job experience. Work experience is the most important aspect of success and an apprenticeship would allow me this opportunity in the trades.

An apprenticeship provides the opportunity to show your worth and motivation. It's your chance to show others that you are driven and ready to learn.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am currently working in the IT field as an IT Systems Engineer and have worked in IT for 7 years. The thought of spending my career behind a desk and computer monitor does not satisfy me. It bores me. I desire to spend my life being more active and doing stuff with my hands. And so I've turned to the trades in hopes of more fulfillment.

I'd like to do something that makes a tangible difference in society. Plumbers and HVAC/R technicians are integral to modern society. If your heat goes out in the winter, you freeze. Their knowledge has a serious impact on the lives of other people.

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

My previous job at Galloway was related because I had to set up flow paths for dairy products from tanks, to tanks, through a homogenizer, through various packaging machines, etc. I also had to diagnose any problems that could occur with loss of flow or no flow and use my knowledge of the machines and flow paths to find where the problem was occurring and fix it in an attempt to minimize or prevent loss of product.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My biggest hobby over the past 5 years has been weight lifting which could be very transferrable to construction because of my ability to carry heavy objects. Also an enjoyment of taking care of my body that will lead to longevity and less wear and tear on my body over the course of my career. Its also helped me to become more detail oriented in focusing on the little things to collectively achieve something bigger.

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Engineering

Why is an apprenticeship an attractive option to you?

I really like the idea of an apprenticeship because I tried college but it just wasn't for me, I can do sit down learning but really prefer to learn hands on. It's really nice to be payed to learn and not accumulate debt as well as have a secure job at the end of it. I also have a lot of family members in the trades who really recommend it including my uncle John Davidson who is a Local 400 pipe fitter, which is how i was introduced to the opportunity.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The building trades interested me because Im someone who likes working with their hands and not just sitting behind a desk. On top of that i like a job where I can see progress being made over the course of the day and take pride in the work I've done. Pipe trades specifically interested me because I also enjoy problem solving and with different pipe systems theres a more clear path to finding those problems by following the pipes. Another reason I am interested in the pipe trades is because my previous job was working at Galloway which is a dairy product plant so there is piping all around the building and I had to follow the flow of product as well as diagnose any problems that occurred.

What construction software or technologies do you have training in?

Why is an apprenticeship an attractive option to you?

It's a chance to be better in my community, help people, and have a chance to find my forever career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've been in the customer service business for most of my work experience and I've grown to like it. I have a knack for helping and assisting people and I feel like it would help me in the trades field. I feel this would be a good fit for me as a long term career since I really haven't settled on a set career yet.

I love creating stuff. It could be something like a tree house for my siblings, a cool thing in a video game, even little contraptions that have no use but it was fun to build. I like to fix things at my current job to improve the function of it. And I like puzzles which require me to problem solve to find an answer/solution.

Why is an apprenticeship an attractive option to you?

I view this as college with caring elders. I been considering a higher education for a while. And with an apprenticeship I could learn skills to make me an efficient worker, not have to worry about "college life". And also have a job lined up for when I am able to start my occupation!

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm a man who graduated high school less than a year ago. During my schooling I have had a hand full of careers I have been interested in. Every career has been rejected by me due to issues I found with them. All besides the trades.

Speaking with people who been in the trades I learned that it is one of the most rewarding careers with a phenomenal average wage meaning I can enjoy my job and enjoy my life when I am away from work.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Plumber

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

4-6

### Welding Experience:

MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge, Flux Core - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

I think the job I currently have has given me the most beneficial skills to be applied to trades. That being the ability to use measuring tools and the capability of reading blue prints. The only other job off the top of my head would be the apartment maintenance I used to do and the general building upkeep with my father but that was more knowing what I needed to purchase to replace what was broken.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

My hobbies are working on cars/motorcycles right now as I don't own any property to work on. I have the skills to do the bare minimum maintenance on homes and am looking to own one within the next 5 years if possible. With my hobby I'm always working with my hands and using an assortment of tools. My hobby has made me capable of using measuring tools, able to solder and weld, and understand how to fabricate in situations that need it. My job at Pierce has given me the skills to read fabrication blue prints to form parts for the job.

### Shift Availability:

### Post HS Education:

Some 4-year college

### Add'l Edu. Details:

I have no degrees or certifications just dabbled in some college to figure out whether or not it would be an avenue I'd be willing

### What trades-related courses did you take in school?

Drafting and Design, Math-Algebra, Welding, Woodworking / Woodshop, Math-Precalculus / Trigonometry, Metals, Engineering, Math-Geometry, Automotive Technology

### What construction software or technologies do you have training in?

AutoCAD, Inventor, Revit

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

It's a new experience and change in pace for me and the projection for where I'm currently at vs in a plumbing apprenticeship shows that in 5 years I will be better off in that apprenticeship than manufacturing parts at pierce. The apprenticeship opens up opportunities for me that I know I would enjoy and have wanted to get into even before I started working at Pierce.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Growing up I'd help my father with the building maintenance at our home and other family's properties and that was something I truly enjoyed. My favorite part of it all was when we would do plumbing work. I did work for a contractor doing generic building jobs from siding to framing, drywalling, and mudding walls. Working for the contractor I learned I don't care for drywall. I left that job to go to Pierce and make firetrucks and learned that I don't particularly care for how they operate there fabrication side of the firetruck process. Partly why I'm looking to the trades again.

I'm looking to get into plumbing because it's something I know I can do. It's something I know I can enjoy and has a lot of variety to the job. I'd like to further my limited knowledge of building construction and use the new knowledge to help those in need.

Building Trades / Construction, Math-Algebra, Math-Geometry, Woodworking / Woodshop

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am particularly drawn to an apprenticeship because it offers the opportunity to engage in hands-on learning, allowing me to acquire practical skills rather than being confined to a desk. The prospect of gaining valuable, real-world experience through this path is highly appealing. Additionally, I find reassurance in knowing that upon completing my apprenticeship, I will enter a field where I have built a solid foundation of knowledge and skills, and where my hard work and dedication will be recognized and rewarded.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am particularly drawn to the trades because they offer a unique opportunity to build a solid career foundation while gaining a deep understanding of how buildings and interiors are constructed and function. After several years of exploring different job opportunities, I believe that acquiring skills in the trades will not only provide me with valuable, hands-on experience but also serve as a strong asset when it comes time to buy and maintain my own home in the future.

### Post HS Education:

Some 2-year college

### Add'l Edu. Details:

I was enrolled in the Electro-Mechanical Automation program at LTC.

### What trades-related courses did you take in school?

Math-Algebra, Robotics, Electrical Trades / Electronics

### What construction software or technologies do you have training in?

Acorn, CNC, AutoCAD, Bluebeam

### Any Safety Certificates:

First Aid / CPR, OSHA 10

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

Just the option to be exposed directly to the things you're learning about in the classroom and being immediately able to apply those concepts to what you're doing every day. It also exposed you to multiple tradesmen and how they do things giving you the opportunity to efficiently tinker with how you do things making it quicker and easier to come into your own with the skills you're being shown. Lastly, there's just something special about knowing you did the time to earn something, and journey and master cards

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've been working in skilled labor positions in an industrial setting for most of my career, I'm looking to transition my skills and work ethic out of manufacturing and into construction. As I've progressed in my career, I find myself wanting to do more with my skillset other than practicing it inside the same four walls. What specifically attracts me to the pipetrades is my past experience having worked with pneumatic and hydraulic systems and the complexity of them. I have always enjoyed and found it to be more demanding/rewarding to work on those systems as opposed to purely electrical ones. There's also a sort of grittiness to the position that I find personally attractive as the work can be hard and dirty and there's a certain allure to your body telling you that you earned your paycheck.

Add'l Details:

Why is an apprenticeship an attractive option to you?

Getting an early start to an industry is what I've always wanted to do. I want to grow in a place where I can see a future in it and where it will always be there and take off to bigger growth. I enjoy seeing growth for myself in a place where I enjoy being and working at full capacity without any regrets. Learning new basis and skills is always a plus for me as I like to take on new opportunities and challenges.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Growing up I worked with my father a lot of the time doing just about anything with construction. He taught me various things about construction but what really caught my attention was plumbing. When I moved to Iowa I found a job opportunity to work as a plumber which I took on for a couple months. I then moved to Wisconsin which then I got into the tower industry.

Now that I have more time I want to take on plumbing school and get into the industry as I see more growth in it. Becoming a plumber is what I've always dreamed of and I wanna complete that dream as I can see myself owning my own business one day just like my father. With my hard work ethic and skills I can achieve just about anything that I set my mind to. I strongly believe that plumbing is the right career for me as I enjoy the work.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked at a construction company called parsons brothers, there we build big metal buildings, and I would say I have learned a lot in a little amount of time pretty much understanding the compntes of every trade and how they work and function.

I used to also work at Dairy queen for a little under three years. I think here I learned the biggest skill which is communication and how to work as a team to get a task done, also working there I delt with a lot of customer service and I know how they can be.

Shift Availability:

Overtime, 1st Shift (Days), Full-time, Part-time

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I like to play and watch sports, although my favorite sport is probably basketball, it uses a lot of teamwork though the whole game. I like to work on cars and always be doing something with my hands. I like to fish Aswell, fishing you have to be patent about it and know when to set the hook.

I think all of these hobbies or activities I like to do, can help in pipe fitting and in the trades. Even when I am at work right now, I can tell, But I think the biggest skill I have

Why is an apprenticeship an attractive option to you?

It will pay for my college education; my family has always been big on me and has always wanted me to go to college, but if I get accepted into a program it would not be all for them it would be for me too and to prove myself that I can do it Aswell.

The income is also a big deal and why I'm interested in the apprenticeship and in the trades in general. And when I am older and have a family and children I can support them.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What got me interested in the trades where how and why they work together. My grandpa always knew that I didn't like school as much as everyone else did so he would tell me to go right into the trades right away after high school and I did I think it was the best decisions I made.

What got me interested in plumbing was how it functions in are everyday life and sometimes you don't even know you using it. Pipe fitting sticks out to me more than any other trade. I think it is a good fit for me to I would definitely be interested in going to school for it too.

Why is an apprenticeship an attractive option to you?

From my understanding, it is the only way to enter the plumbing world.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I currently work full time as a design engineer. I recently purchased a duplex and had some plumbing issues. Upon receiving some quotes, I decided to perform the work myself. Not only saving money was great, but the accomplishment of completing the job and everything working was a great feeling. I really enjoyed doing the project and thought it would be a great trade to learn. I would like to keep my full-time job but also learn/ do plumbing on the side. I am not apposed to doing full time plumbing either as I work a desk job but really enjoy being on my feet and active. I am applying here to see what kind of options I may have. Thanks

**Disciplines of Interest:**

Steamfitter (Pipefitter), Plumber

**Work Zones in Preference Order:**

Fond du Lac Area (Orange), Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

0

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

My most recent job renovating a warehouse involved working with pipes/conduit. I would modify and install pipes. Part of the job involved pulling heavy pipes from the ceiling and walls. I learned a bit about rigging to safely move heavy pipes.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I am an operator, engineer and technician at heart. I've spent my life riding dirtbikes, and more recently wrenching on cars and motorcycles, as well as bicycles. All of my hobbies rely on my precise motor functions and quick thinking - qualities I believe transfer smoothly into the trades. Other hobbies of mine that don't involve machines include running, climbing and boxing to keep in shape so that I can have a long, healthy life. This mindset may help me be a safer tradesman over the long-term.

**Shift Availability:**

Full-time, Overtime, Weekends

**Post HS Education:**

Associate Degree

**Add'l Edu. Details:**

I majored in mechanical engineering

**What trades-related courses did you take in school?**

Drafting and Design, Math-Algebra, Math-Calculus, Math-Geometry, Woodworking / Woodshop, Engineering

**What construction software or technologies do you have training in?**

Revit, AutoCAD

**Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship is attractive to me because it allows me to immerse myself in a safe learning environment while simultaneously getting paid. As a plus, the instructors/curriculum in such an environment are likely more structured than solely on-the-job knowledge gained from starting at an entry-level position in any construction job.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I have always had an interest in building - my dad was a stonemason his whole life and many others in my family have made careers out of building. After 4 years in college, I finally couldn't resist any longer and moved out of town to pursue a career in the trades. After a short stint in Michigan working on a warehouse, my desire to work with my hands was solidified.

Here in Michigan, I have been presented a career in the pipetrades as a good option and am excited to learn more about them! I hope to gain skills that will serve me and my family for generations to come.

Why is an apprenticeship an attractive option to you?

It is an attractive option to me because it will allow me to learn a skilled trade through hands on experience while earning income. I value working with experienced professionals and gaining knowledge from them. An apprenticeship also offers a path for career growth and opportunities to advance. Its a stable and rewarding way to enter.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What interested me is that you work in different environments and learn your craft. Slowly get better as you gain more experience. I feel like there's also pride in it just to see the impact of your work. I get to help people and fix their problems. There is a huge satisfaction in that. I picked the pipetrades because I believe it will be rewarding and its an important role in supporting the infrastructure people rely on everyday. I also think the pipe trades will offer a chance for me to build a stable career with room for growth. You always learn and improve.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech, Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

0

Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge, Flux Core - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked at Manitowoc Heating for 5 months.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have built hunting blinds before, and framed out walls. I also use tools all the time at home to work on my truck and four wheeler. I have a lot of mechanical knowledge at a young age.

Shift Availability:

2nd Shift (Nights)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry, Metals, Welding, Woodworking / Woodshop, Engineering, Electrical Trades / Electronics

What construction software or technologies do you have training in?

Solidworks

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I very curious in knowing how things work and to understand more in the trades. I have a good work ethic and I enjoy putting in long hours during the week. I think an apprenticeship would be nice because I can work full-time, go to school, and get paid at the same time.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up wrenching on trucks, four wheelers, and tractors. My dad was a maintenance technician and he taught me how to work on things and fix them. I have helped a couple people demo homes while I was in high school. I also have built many projects working with wood. I have a lot of interest in learning more in the trades.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I have shadowed my uncle that works in sewers

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Some hobbies I have are hunting, fishing, and baseball and they all include lots of patients and learning they all included a lot of work and learning to get good at and I feel like I meet every standard to learn anything new I am a very fast learner and I have a lot of patience and with construction you need a lot of patience so you make sure that everything is done correctly because you wanna make sure you do everything right or you can really screw a lot up so that is why I think I would make a good fit for construction.

Shift Availability:

Full-time

Post HS Education:

Some 2-year college

Add'l Edu. Details:

Business major

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

It's a great long term job

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Some things that interested me in the career of trades such as pipe trades is I have family that works in this type of trade. Also I heard great things about working in this type of career such as it being a great stable job and the businesses take good care of their employees. I am so going into pipe trades for a career so I think this job would make a great long term fit for me because this is what I am going to school for and I have a lot of passion and gratitude for this career. I want to expand my knowledge for it so then this will make a great long term job for me. I think I will be a good fit for plumbing because as I stated before I have family that is experienced in it already so it should be easy for me to catch on with all the knowledge I've been told from them. So that is why I think I would be a great fit.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech, Steamfitter (Pipefitter), Plumber

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

4-6

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I've done roofing for about 2 years and carpentry for less than one year. I'd say those taught me how to be a part of a crew, how to work on my own when needed, and how to meet the expectations that are put upon me.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I like to work out often and play basketball at my local YMCA. Think that helps with the strength and endurance needed to get through a work day. I also enjoy reading and learning about traditional techniques in construction or in life. Which I also think would help develop a skill set in whatever kind of work I do.

Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Woodworking / Woodshop, Math-Algebra, Math-Geometry, Building Trades / Construction

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I have a family that I am the main provider for, so it's very important to me to be able to do so. I think a union apprenticeship is a perfect opportunity to do that. I also would like to pick a career that I think I'd enjoy doing and continue throughout my lifetime.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've worked multiple different trades, such as roofing and carpentry. I love to work with my hands and that's how learn the best as well is hands on. I like to build things and find a great enjoyment in the satisfaction of seeing what I've made.

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry, Metals

What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:

OSHA 10

Add'l Details:

Why is an apprenticeship an attractive option to you?

I was very unhappy in my prior career path and have had a strong attraction to plumbing for its hands-on, physical approach. An apprenticeship is an attractive opportunity as it would allow me to develop my skills in the field while learning in the classroom. This would be significantly beneficial in preparation for my career in plumbing.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have experience working in HVAC and home maintenance and have found that I enjoy work that is hands-on as well as being able to visibly see the result of your hard work. With that, I enjoy continued learning and the challenge of change in the day-to-day.

**Add'l Details:****Tell us about any hobbies that have boosted pipetrade-relevant skills:**

The most pertinent would be blacksmithing. I make anything but knives. I specialize in 17th, 18th, and 19th century recreations...purely hand forged items such as: hinges, hasps, door/drawer pulls, shelf brackets, cooking utensils, jewelry, tables, shelving, war hammers, etc. My wife and I own a 124 year old farm house that I have completely remodeled myself including, the entire kitchen, cabinets, plumbing and electrical, two bathrooms, etc.

**Why is an apprenticeship an attractive option to you?**

An apprenticeship locks me into a learning path with guidelines and benchmarks with measurable results and/or failures from which to grow. It also helps to ensure a structured path of improvement, promotion, monetary compensation, benefits and predictable future.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

It began when I took every "industrial Arts" class my high school offered. I love to work with my hands and solve problems and see challenges from an unconventional perspective. As an adult I continued my quest for knowledge, working briefly as an electrician in my early twenties. Fast forward to several years ago I worked two years working in residential HVAC and currently manage Festival Foods internal equipment warehousing and logistics in the support of our eleven maintenance teams.

What currently returns my interest to a more hands on trade is a job that challenges me in using my knowledge in the realms physics and the multitude of building and fabricating skills I've acquired on my own throughout the years.

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

Traditional college wasn't an option for me and I honestly didnt want to continue to go to school when I didn't have to. I take pride in everything that I do and I learn by doing and asking questions while watching other people. I always say if you want me to dig you a ditch it'll be the best ditch you've ever seen, I have a super strong desire to learn and am very humble and a good listener. Traditional college wasn't the correct option for me and all the jobs Ive had since have been

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My father was in IBEW my whole life and he was able to provide an amazing life for my siblings and I. He was always so proud of being a part of something bigger than himself. Now that I am a father I want to provide well for my family and also be a part of something bigger. Plumbing is specifically interesting to me because it has a lot of sub sects you can get into giving you options for work and always something new to learn., My wife is from Appleton so our family is moving to the area in from Milwaukee in January 2025. Ive been working in General Services at The Medical College of WI for the last 4 years and while we dabble in all kinds of different maintenance work I know I am capable of more and have the desire to have a career not just a good job. My father was in IBEW my whole life and provided us an awesome life because of it, I want to do the same for my family.

Plumhino has always been an interest of mine while doing maintenance in my own home

**Why is an apprenticeship an attractive option to you?**

It is a paid learning experience that I would greatly appreciate and would enjoy working in, Because it would start me on a career I know I would love

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I've always loved the idea of working a trade job. In high school I took a welding class and I loved it and had a lot of fun, I got the hang of it pretty quickly. Working in a community like this would be amazing, I loved welding class in high school and I have been looking for some good experience opportunities

**What trades-related courses did you take in school?****Why is an apprenticeship an attractive option to you?**

An apprenticeship is an attractive option to me because not only am I choosing this job option, but it gives my employer the opportunity to choose me as well. Rather than me solely putting in the work, my employer will be putting work into me.

I am a growth orientated person. An apprenticeship gives me the chance to learn as I go and grow in this area of work., An apprenticeship is an attractive option to me because I am eager to learn and develop my skills along side others who are experienced in the

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I am interested in a career in the trades because there is always ample opportunity to grow and further my career to better myself and my family. Having family members that have work experience in the trades, specifically in the pipetrades, I have been encouraged to explore this option more as I have time to develop my career.

I look forward to the personal growth and experience the trades has to offer.

Being bilingual has also opened more doors for more relationships in my community and showed me that I have the ability to work with and communicate with a group of people that others are not able to. I have always enjoyed serving others. The trades provide me with the opportunity to serve others, have personal growth, and grow in a career for myself as well as be able to support my family the best I can., I have been interested in the trades, specifically a career in the pipe trades ever since my wife's cousin peaked my interest

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Building Trades / Construction, Math-Geometry, Electrical Trades / Electronics, Building Trades / Construction, Woodworking / Woodshop

What construction software or technologies do you have training in?

AutoCAD, Inventor, AutoCAD, Revit, Inventor

Any Safety Certificates:

First Aid / CPR, First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

I believe that its the perfect option for me because I can learn the requirements and make money from a young age., I would like to do hands on work because it helps me learn better and understand it more. Also working my way up learning and progressing to become a journeyman to understand everything and maybe someday teach someone as I would have been taught.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have learned that I am a hands on worker and that Whenever something needs fixing even if I've never done it before I can find a way to fix it. I have taken plumbing into consideration because products can stop working or leak and I want to have the ability to fix them., Have worked in factories and on farms so I have learned some basic skills like welding and wiring. I believe that plumbing may come easy to me once I learn it also will have the skills to help others.

### Add'l Details:

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy hunting, fishing, and all types of outdoor sports and activities. I think this transfers over because I learn a lot of responsibility and dedication to them things while doing them all the time., I love hunting, fishing, and lots of sports. I think these things boost my skills because I learn teamwork in sports and hunting and fishing helps me to try and think of things to do that i normally wouldn't, I enjoy hunting, fishing, and any outdoor activities. I played multiple sports in high school and was captain of my football and baseball team both junior and senior year so that I feel gives me some good

### Why is an apprenticeship an attractive option to you?

To start it off I thought long and hard about my decision after highschool . I knew first that a 4 year was not for me. So that was out of the question right away. I knew I loved being outside and learning hands on, so I looked into a paid apprenticeship. I think it attracts me because you get to learn a lot in school but mostly in the work field. I think that is the best way for me to learn so that is why it attracted me., Because I would love to learn more about the trade other than just the on job things. I love learning new things

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

To start off I enjoy working hands on and doing manual labor rather than sitting at a desk or in a factory/foundry. I've always loved working hands on since I was young I would always help my dad with certain projects around the house and other places. What interested me in this specific trade is that I just want to learn new things and plumbing happens to be one of them. I have a couple of friends that are in the plumbing trade and I've only heard good things. These reasons are why I am interested in this trade., I've always loved working hands on and working in the trades no matter which one it was. I currently work for a local plumber in peshtigo and I love it., I've always loved working hands on and learning on the job. I enjoyed taking shop classes and other woodworking and hands on things in school. I enjoy the pipe trades because I have worked for a local plumber for the last 9 months and just am looking to build a better future for myself., I enjoy working hands on and would love to further my knowledge in this trade
