

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter), Plumber

**Work Zones in Preference Order:**

Fond du Lac Area (Orange)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

1-3

**Welding Experience:**
**Tell us about any jobs where you've learned pipetradese relevant skills:**

I can't say ive worked a job that holds valuable hands on skills for trades. However,In my past jobs, I've learned to swork hard and stay focused, skills that are essential in the pipe trades. I've worked in fast-paced environments where teamwork and communication were key to getting the job done right.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

In my free time, I enjoy playing chess, staying active through sports and running, and working on basic car maintenance. Chess helps me stay sharp and think critically, planning several steps ahead, which is useful for problem-solving on the job. Sports and running keep me physically fit and teach discipline and teamwork, which are important in construction environments. Working on cars has given me hands-on experience with tools, mechanics, and how systems work, which all happen to be skills related to construction trades.

**Shift Availability:**

Full-time, 1st Shift (Days)

**Post HS Education:**

Some 4-year college

**Add'l Edu. Details:**

So upon my college career I've majored in Geograhpy then switched to a Math Education major. I'm more drawn to classes

**What trades-related courses did you take in school?**

Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry

**What construction software or technologies do you have training in?**
**Any Safety Certificates:**
**Add'l Details:**
**Why is an apprenticeship an attractive option to you?**

An apprenticeship is attractive to me because it lets me learn by doing. I prefer hands-on work over sitting in a classroom all day, and an apprenticeship gives me the chance to earn while I learn a valuable trade. I like that I can build real skills. It's a practical, rewarding path that fits the way I learn and work best.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetradese?**

I'm interested in the pipe trades because I enjoy hands-on work, problem-solving, and using my math skills in real-world situations. I'm drawn to the stability, high earning potential, and the chance to learn a valuable skill that's always in demand.

**Contact Information:**

**Contractor Notes:**

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

**Work Zones in Preference Order:**

Fond du Lac Area (Orange)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

1-3

**Welding Experience:**
**Tell us about any jobs where you've learned pipetrades relevant skills:**

I had a job working at a convenience store, where I had to stay focused in a fast-paced environment, work as part of a team, and handle tasks quickly and correctly. I learned the importance of being dependable, staying organized, and communicating clearly with coworkers and customers.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I've worked in a fast-paced convenience store, which helped me build strong communication and teamwork skills. I learned how to stay focused under pressure, manage time well, and work safely in a busy environment, just like you need to do on a construction site.

**Shift Availability:**

Full-time, Part-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Some 4-year college

**Add'l Edu. Details:**
**What trades-related courses did you take in school?**

Drafting and Design, Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry

**What construction software or technologies do you have training in?**

AutoCAD

**Any Safety Certificates:**
**Add'l Details:**
**Why is an apprenticeship an attractive option to you?**

I like the idea of learning by doing, not just sitting in a classroom. With an apprenticeship, I can build real experience on the job while also getting formal training from experienced professionals.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I first became interested in the pipe trades when a friend told me about steamfitting. I looked it up and thought it sounded like a great fit for me. Steamfitters work on important systems that keep buildings running, like heating and cooling. It's a job that takes skill, hard work, and teamwork, and I want to be part of something that makes a difference.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

### Work Zones in Preference Order:

Green Bay Area (Yellow)

### Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience: 10+

### Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

As an adult seeking a new career path, I am highly motivated to learn the field of pipefitting and committed to making a successful transition. I bring a strong work ethic, reliability, and the maturity that comes with life experience, all of which I believe are valuable assets in a hands-on, detail-oriented trade like pipefitting. I'm eager to develop the technical skills required, from reading blueprints to installing and maintaining piping systems, and I'm not afraid to start at the ground level to build a solid foundation.

### Shift Availability:

Full-time, 1st Shift (Days), 2nd Shift (Nights)

### Post HS Education:

No

### Add'l Edu. Details:

### What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Metals, Building Trades / Construction

### What construction software or technologies do you have training in?

### Any Safety Certificates:

### Add'l Details:

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy working on hands-on projects like fixing things around the house, assembling furniture, and helping with basic plumbing repairs, which all relate directly to the skills needed in pipefitting. I've always had an interest in figuring out how things work and finding efficient ways to put things together, which has strengthened my attention to detail and mechanical thinking.

### Why is an apprenticeship an attractive option to you?

An apprenticeship is important to me as an adult because it gives me the opportunity to learn a skilled trade through real-world experience while earning a paycheck. This practical, on-the-job learning approach is ideal for me because I'm ready to work hard, grow my skills, and move forward in a career that offers long-term stability and advancement.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I want to become a pipefitter because I enjoy working with my hands and solving problems in a way that produces real, visible results. The pipefitting trade offers a unique mix of physical labor, technical skill, and precision, all of which align with my strengths and interests. I'm drawn to the idea of building and installing systems that are essential to the function of buildings, factories, and infrastructure.

Another reason I want to pursue a career as a pipefitter is the opportunity for long-term growth and stability. The trade offers strong job security, excellent wages, and the chance to continue learning through on-the-job experience.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

7-9

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I have not worked any jobs that could be related to the apprenticeship. Since High school i worked at a iron castings foundry, food production and a papermill.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Cars are my big hobbies. I understand it's not related to the apprenticeship. Working on them though taught me how to diagnosis the issue, how to solve it, and execute a plan of action fixing it. Doing my own car work tool I've become familiar and comfortable on how to use handtools, power tools, minor fabrication, and attention to small details. The reason I'm not pursuing an automotive career is that I worry if I work on cars for my job I won't be passionate on working on my own car or my friends and family.

Shift Availability:

Full-time, Overtime, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

With living in an apartment with my fiancée i have bills each month including a car loan. Taking time off or working part time is not an option for me. Being an apprentice is my best route for starting a career because then I learn on the job and do not have to worry about missing paychecks or short paychecks.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Since high school I've just been working factory production jobs. I'm turning 27 this year and it is time I invest in a career where I can advance in. I am also getting married and have major life goals I would like to meet as in purchasing my first house with my future wife and live comfortably while doing so. I am a DYler and like to fix things my self, like my car. My main example related to this apprenticeship is the bathroom sink in my apartment was backing up. So I went underling the sink and removed the drain plug and the U Piper I believe it's called and cleaned out the hair and gunk in the sink, ever since it's been draining like normal.

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am living in my own apartment with my fiancé. So that means bills, and a car loan payment. Apprenticeships is, what I believe, a very good option for someone in my situation. I will be working while being trained and not having to worry about missing paychecks while pursuing my career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've been working production jobs since high school. As I'm approaching 30 years old in a few years, getting married, and have major life goals as in purchasing a house it is time for me to invest in a career. I've always liked working with my hands. As a kid I'd help my dad work on cars, different carpentry projects around the house, and with my apartment I've taken it up to fixing minor things. Example, our bathroom sink was backing up so I took out the drain stop and U Pipe I believe it's called and unclogged all the hair and other gunk in it, now it runs like new. That is what I believe made me think I'd enjoy plumbing. I also crave an interactive job that challenges me and leaves me satisfied.

**What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

an apprenticeship would give me the opportunity to dive headfirst into a brand new opportunity that would bring me, steady work, financial stability, more responsibility, and accountability, and the chance to work really hard, An apprenticeship attracts my interest for many reasons. The main reason being stability, and an opportunity to grow and work hard. I'm very fond of the idea of constantly learning, and in a different environment. Working towards financial stability, in a career path that gives me options.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

My interest in this career comes from the main point of stability. I am a hands-on, personable, confident, young man, looking to place oneself where I can find stability, structure, and hard work. I have always made it a point to work more than one job at a time. But I would love to work in a Career., A career in the trades would allow me an opportunity to dive headfirst into stability, structure, hard work, and financial stability. Made it a point to have more than one job at a time, but it would be amazing to have one solid career.

**What construction software or technologies do you have training in?**

CNC

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I want to continue my education for a better career and don't mind going back to school to further my education for a greater future

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I've always been interested in the trades because I grew up around them—my dad worked as a finished carpenter, and from a young age, I was exposed to the satisfaction that comes from working with your hands and seeing a project come together from start to finish. That early exposure sparked a respect for skilled labor and the pride that comes with doing a job well. More recently, I've developed a strong interest in the pipetrades through my work cleaning and servicing storm and sanitary sewers. That hands-on experience opened my eyes to how critical plumbing systems are to public health and infrastructure, and it gave me a real passion for the trade. I enjoy problem-solving, working in a physically active job, and being part of a team that keeps essential systems running safely and efficiently.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

I haven't held any jobs relating to the pipe trades, but I do have experience working with hand tools and spent time with my dad as a kid in his work shop while he would weld.

He owned a trucking company and did the maintenance and as many repairs as he could on his own trucks.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I train jiu-jitsu when time allows and lift weights a few times a week, I like to keep my body working as best it can.

I enjoy learning the ins and outs of the work that I am doing so any chance to get more information, especially if that will help me while working, I like to jump on.

**Shift Availability:**

Full-time, Overtime, 1st Shift (Days), Weekends

**Post HS Education:**

Bachelor Degree

**Add'l Edu. Details:**

Bachelors in Engineering Management

**What trades-related courses did you take in school?**

Drafting and Design, Math-Algebra, Math-Calculus, Math-Geometry, Woodworking / Woodshop, Engineering, Math-Precalculus / Trigonometry, Metals

**What construction software or technologies do you have training in?**

AutoCAD

**Any Safety Certificates:**

First Aid / CPR, OSHA 10

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

Pay while I learn, wages that increase as I become more experienced, and comradery with the other members of the organization

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I have been laid off several times working in office settings, having the work I was doing outsourced overseas and I am looking for something that is more stable that will allow me to learn "real" skills.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech

Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

The only skill I think I have learned that is related is problem solving for a third party company. When I worked at Amazon I use to work with a third party company and help them solve problems so they could continue to be operational for amazon's bussiness.

Problem solving is a huge component to most issues in trades from what I understand and it is something that I have always had an ability of being able to do. Working doing mind numbing labor would be the only other skill.

Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Bachelor Degree

Add'l Edu. Details:

Social Science Education major

What trades-related courses did you take in school?

Math-Algebra

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My hobbies mainly include golfing and picking up skills on the technology side (Video game design, Animation) The ability to learn new skills is something I have always desired. I have always been the type of person that likes to learn.

My goals as far as the hobbies and this job are to learn the skills enough to eventually teach them. I would love to learn enough the pipefitting trade to teach it your classrooms. I also would like to eventually educate people in my hobbies via online

Why is an apprenticeship an attractive option to you?

I already have a 4 year degree that I don't really use, because I prefer to work with my hands rather than behind a desk. This apprenticeship would allow me to invest in myself and still be able to work with my hands.

I have always wanted to try the trades. I just thought I wanted to teach more. When I began teaching I realized that I do love it, but prefer teaching adults rather than kids. In

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I received my degree in education. While working in the school environment I realized I preferred working with my hands and learning new skills. I stayed in the warehouse sector after graduating because of this and the covid-19 pandemic. I regret not trying trades out as I always figured it was good skills to have and know.

I want to be in a union again. Where there is standardized everything. Where there is support in finding work if a lay off happens. Where skills are built from the ground up with a good foundation. A Career in the pipe trades seems to correlate with these goals.

I debated about going back to school, but already have a degree I don't use. Would rather work at this point in my life than take on more debt.

TIG - Some Knowledge

**Tell us about any jobs where you've learned pipetrades relevant skills:**

Welded stainless steel pipe for seagrave fire apparatus in clintonville.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I build little projects and repair cars with my stick welder at home. Lately I've been making furniture out of wood.

**Shift Availability:**

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Other Relevant Courses & Certifications

**Add'l Edu. Details:**

Welding certificate

**What trades-related courses did you take in school?**

Welding

**What construction software or technologies do you have training in?**

AutoCAD, CNC

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:**

**Why is an apprenticeship an attractive option to you?**

An older class mate from highschool graduated welding school with me a went on to join the steamfitters union and told me to check it out.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I enjoy Tig welding and the skill it takes to do it right and the competitive nature among fellow welders is great motivation to help them become the best they can be. Can't be the best if your not working with the best.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), HVAC/R Service Tech

Work Zones in Preference Order:

Fond du Lac Area (Orange), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

0

Welding Experience:

MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I was a Roofing laborer for a summer job.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Some 4-year college

Add'l Edu. Details:

I attend the University of Wisconsin Milwaukee for a year for Business

Why is an apprenticeship an attractive option to you?

Getting hands on experience but still getting schooling to better my knowledge.

What trades-related courses did you take in school?

Math-Algebra, Automotive Technology, Math-Geometry, Metals, Welding, Woodworking / Woodshop, Math-Precalculus / Trigonometry, Building Trades / Construction

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

A lot of my family has been in the trades and seeing them build a career for themselves interested me. Both of my uncles are union members and have encouraged me to work towards finding a fit for myself.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech, Plumber

**Work Zones in Preference Order:**

Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

1-3

**Welding Experience:**
**Tell us about any jobs where you've learned pipetrades relevant skills:**

I've Had no applicable jobs that directly translate to the pipe trades other than direct manual labor and some house keeping. I just got a decent head on my shoulders and am willing to learn anything.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I'm very into weighted calisthenics making me very comfortable in my own body weight as well as added weight on it. I see body capability as a huge aspect of all trades in construction.

I am also very into video games, and Fishing in recreation allowing for good hand eye coordination as well as "critical thinking" situations to be more common. I believe that these give me a edge on coming up with solutions. solutions that will become a tendency to me after I've affirmed I know

**Shift Availability:**

Full-time, Overtime, 1st Shift (Days), Weekends, 2nd Shift (Nights)

**Post HS Education:**

No

**Add'l Edu. Details:**
**What trades-related courses did you take in school?**
**Why is an apprenticeship an attractive option to you?**

Apprenticeships offer hands-on learning which I excel in, as well as making money while learning. I'll stay out of debt while making lots of money and learn the way I'd always enjoyed.

I also take pride in my work. I'm gonna be the best at whatever I do, Working with journeyman workers every day all allows you to learn the tricks of the trade and fast. Being Fast and Consistent adds to a quality career .

**What construction software or technologies do you have training in?**

AutoCAD, Revit

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

Job security, In my eyes everybody needs plumbers and HVAC technicians. If an HVAC unit goes out, people need you there and quick. Controlled environments are a large part of our society that go unnoticed. Following that idea I also think that Plumbers are a keystone of the everyday life as well. Everybody wants to take a shower when they get home from work. Restrooms are mandatory from big business to the everyday home, Making these workers needed everyday. Job Security is one of those big goals I have in life, that's my favorite idea when I think of a career in HVAC or Plumbing.

Job versatility. Everyday is an adventure, and no two situations are the same keeping my mind busy and hungry for information, I am very eager to hopefully explore that aspect of the HVAC and/or the plumbing world.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

HVAC/R Service Tech

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

### Years of Full-Time Work Experience:

1-3

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

I currently work at Black-Haak Heating and Cooling. I've learned a lot in the 6 months I've been here but I know I want to propell myself beyond the residential scene. Here they've had me do Furnace/AC installs, gas piping, ductwork, and service work when needed. Prior to my job at Black-Haak, I worked for a small electrical contractor down in Oshkosh, WI but felt like there was more I could learn elsewhere.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

On the side, I do a lot of mechanic work. I build cars and modify them for fun. I also have experience with building computers which I have found is very similar to most HVAC systems. Working with my hands has always left me with a great feeling of satisfaction being able to stand back after everything is done and see the hard work that has paid off.

### Shift Availability:

Full-time

### Post HS Education:

No

### Add'l Edu. Details:

### What trades-related courses did you take in school?

Math-Precalculus / Trigonometry, Math-Geometry, Math-Algebra, Automotive Technology, Welding, Metals

### What construction software or technologies do you have training in?

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

The idea of an apprenticeship to me is a chance to prove myself has a working individual. I believe that as long as I put in the work and dedication that the apprenticeship will benefit me greatly. It opens up a large network of people to me and I can choose to stand out by working hard and continually learning.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been a hands on learner. I did a bit of electrical work for a small contractor before I tried HVAC/R and fell in love with it. Everything from the low voltage system controls to ductwork it involved had me hooked. I especially love the system controls part of it because it reminded me a lot about building computers which is a hobby of mine. I feel that with my young age and committment to the quickly advancing HVAC field, now is the prime time for me to strengthen my career in it.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

0

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

N/A

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My hobbies don't directly correlate to construction trades, but some may be applicable still. I'm very into fitness and weightlifting so endurance on a job site won't be a problem and I should be able to keep up well. Being into fitness has also taught me discipline and dedication and I think that will help with my career.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry

Why is an apprenticeship an attractive option to you?

An apprenticeship would be perfect for me. This is because I will be not only learning, but also applying what I learned to actually get a grasp of what's going on. I think an apprenticeship is a great balance between work and learning and that's exactly what I need.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I feel as if a hands on hard working environment is best for me. I feel like I grow the most when I have others around me to correct me and teach me, rather than solo stuff where I'm on my own. I also feel like I'll be surrounded with like minded people who will help me grow a lot in my career and personal life. I also think it would be fun in general to be able to learn something completely new and different compared to other things in my life.

What construction software or technologies do you have training in?

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry, Metals, Woodworking / Woodshop

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me because I find school not very interesting, and I also find it much easier to just learn by doing things instead of reading books and studying for tests.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have seen many videos on YouTube by people such as HVACR Videos, which demonstrate what it is like to work as a refrigeration technician or a plumber. To me the work looks very interesting and fun, and I am looking for a new job that I can take seriously and work hard every day at.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech, Pipe Fabricator

**Work Zones in Preference Order:**

Appleton Area (Green)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

4-6

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

While I haven't worked in the pipe trades yet, I've had jobs where I developed skills that I know will be useful. In past work, I've learned the importance of showing up on time, working hard, and staying focused until the job is done. I've also had to follow directions closely, work as part of a team, and adapt to different tasks throughout the day.

Those experiences taught me to be reliable, take pride in my work, and keep learning—qualities I know are important in the pipe trades.

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Some 2-year college

**Add'l Edu. Details:****What trades-related courses did you take in school?****What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Tell us about any hobbies that have boosted pipetrade-relevant skills:**

Two of my main hobbies are playing soccer and tattooing, both have helped me build skills that I think will transfer well into the construction and pipe trades. Soccer has taught me the importance of teamwork, communication, and staying disciplined—especially when things get tough. It's also helped me stay physically fit and mentally focused, which are important for a hands-on, physically demanding career like this. Tattooing has helped me develop a steady hand, attention to detail, and patience. It's also taught me how to work with precision and take pride with the process.

**Why is an apprenticeship an attractive option to you?**

An apprenticeship is enhancing to me because it gives me the chance to earn while I learn. I like the idea of getting real hands-on experience while being taught by experienced professionals.

It also gives me a clear path toward a steady career. I'm motivated to start something long-term, and I respect the structure and support that comes with a union apprenticeship. It's a great opportunity to work hard, grow, and eventually become a

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I'm interested in a career in the building trades because I'm ready to start a stable, hands-on career where I can learn, grow, and build something meaningful. I may not have experience yet, but I'm a hard worker who enjoys learning new skills and pushing myself to improve. What really sparked my interest is seeing friends and family succeed in union trades. Hearing about the opportunities they've had and the pride they take in their work made me want to pursue something similar.

Specifically, the pipe trades stood out to me because of how essential and respected the work is. I want to be part of something that keeps communities running—whether it's plumbing, heating, or piping systems. My goal is to build a steady, reliable career I can be proud of and eventually work my way up to becoming a skilled professional in the field.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

HVAC Helper with Nicolet Heating and Cooling. 5+ years working in concrete breaking in the Wisconsin army National guard

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I am a blue belt in BJJ. BJJ is a great way to figure out problems while remaining calm in high stress situations.

Shift Availability:

Full-time, 1st Shift (Days), Overtime

Post HS Education:

Some 2-year college

Add'l Edu. Details:

Currently enrolled in NWTC for communications.

Why is an apprenticeship an attractive option to you?

Looking to further my career and knowledge in HVAC.

What trades-related courses did you take in school?

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have previously HVAC experience. Worked for Nicolet Heating and cooling.

What construction software or technologies do you have training in?

Acorn, Laser Scanning

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Veteran

Add'l Details:

Why is an apprenticeship an attractive option to you?

I want to pursue an HVAC apprenticeship with a union because it offers the perfect combination of hands-on learning and structured education to help me build a stable and rewarding career. I'm drawn to the opportunity to earn a wage while gaining valuable experience under the guidance of professionals. The chance to acquire industry-recognized certifications, like EPA Section 608.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy working with my hands as well as my brain. HVAC/R is a trade that requires both. Additionally, there is a high demand, and good pay, and no matter where you are on the planet, there will always be a need for climate control.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech

Work Zones in Preference Order:

Fond du Lac Area (Orange)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Working Security and Law Enforcement in the Military, I developed many skills like attention to detail, problem solving, critical thinking, communication, and a strong work ethic. All of these skills were further honed and polished working as a dog trainer since separating in 2022.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy learning new things. Reading, watching videos, and practicing new skills is something that I would consider a hobby or activity of mine. The last 3 years I have worked primarily as a dog trainer, the growth in knowledge and skillset I've acquired in that time is what drove my passion for the career. I believe that same passion for learning will transfer to the construction trades as well.

Shift Availability:

Full-time, 1st Shift (Days), 2nd Shift (Nights), Weekends, Overtime

Post HS Education:

Some 4-year college

Add'l Edu. Details:

I am currently 3 years in to a Bachelors Degree majoring in Business Administration.

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Veteran

Why is an apprenticeship an attractive option to you?

I learned significantly more from my mentor when learning to be a dog trainer than from several years of watching videos and reading books alone. I don't have several years of experience reading books or watching videos on any trade, and so an apprenticeship is very appealing. Being paid to learn rather than paying to learn is also attractive. I want to learn how to do things right, in the right setting, and ensure that I am fully capable of doing the job correctly. An apprenticeship seems to be the best way to go on all counts.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

After leaving the military, I found myself in the same rut that prompted me to join in the first place. Taking entry-level jobs and trying to find side-hustles just to make ends meet. My wife and I had our first child and I decided I needed to do better than my parents did for me. Stability, opportunity for growth, and the opportunity to learn a new skillset that will last me for the rest of my life are what made me become interested in a career in the pipetrades.

Automotive Technology, Welding

**Why is an apprenticeship an attractive option to you?**

I am 31, married, and have a 5 year old son. For the last decade, I put my education and career on hold to support my wife as she chased her career dreams. Now that she is there, it is my turn to figure things out. I have always been drawn to a hands on career, and I thrive in an environment that constantly challenges my brain. The pipetrades is just that. I am ready to commit to something that is going to provide me with a career rather than a job, and be rewarding in the long run. I am ready to put in the work, and be

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I've always been drawn to careers that involve hands-on work, problem-solving, and tangible results. The building trades offer a sense of pride and purpose in creating and maintaining essential infrastructure. I appreciate the teamwork, discipline, and continuous learning that comes with the trades. Specifically, the pipetrades caught my attention because of the critical role they play in both residential and industrial systems. Pipetrades professionals keep buildings safe, functional and efficient. While my work in the past was in a laboring function, I enjoyed learning from my mentors and would like to join a union and pursue the opportunity to become a journeyman myself.

**What construction software or technologies do you have training in?****Any Safety Certificates:**

OSHA 10

### What trades-related courses did you take in school?

### What construction software or technologies do you have training in?

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

I've always enjoyed learning and working with my hands, I did 4 summers with a small construction company. I like the fact that when you finish your project you can say you did that, there's skills to learn and master., The ability to learn new skills but also being in a job that I'm not necessarily doing the exact same thing every day that has no skill to it. I want to learn new things and be able to apply those new skills to my job and Life.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My first job was a summer construction job, I love working with my hands and learning new skills., I used to work in construction for my first job, I've always loved working with my hands and learning new skills. My Uncle is also a big inspiration to wanting to work in trade, he works welding now and my brother is an electrician as well. I worked factory for 5 and 1/2 years not really learning any new skills and that's my other biggest push to learn new skills that cannot only be used at work but applied to in real life.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:**

Flux Core - Some Knowledge, Flux Core- Skilled, MIG - Skilled, TIG - Some Knowledge, Stick - Some Knowledge

**Tell us about any jobs where you've learned pipetrades relevant skills:**

I started my career as a welder, specifically flux core and hard wire welding with the occasional TIG and Stick as needed. After two years I learned how to fabricate, some pipe but mainly large structural steel. I was a welder/ fitter for about three years before I accepted a production foreman job. Although I did focus heavily on thin wall stainless TIG in welding school, I may be out of practice now.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I am an avid outdoorsman, which keeps me active and healthy. I am also doing some remodeling to my home, which encompasses some electrical work, plumbing and carpentry. I have been learning along the way with the plumbing and electrical, but I would much rather learn on the job instead of YouTube.

**Shift Availability:**

Full-time, Overtime, 2nd Shift (Nights)

**Post HS Education:**

Other Relevant Courses &amp; Certifications

**Add'l Edu. Details:**

Advanced Welding Institute Structural and Pipe welding program Wisconsin School of Business Executive Development

**What trades-related courses did you take in school?**

Building Trades / Construction, Automotive Technology, Math-Algebra, Math-Geometry, Metals, Welding

**What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

I would love to have the opportunity to learn a new trade while being paid to do it. I would also much rather learn from guys with field experience and on the job instead of at a tech school and out of a book. I have come to realize that there is no replacement for real world experience and knowledge.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

After purchasing a house with a 20 year old furnace, I have become friendly with the local HVAC companies. Seeing the guys work to troubleshoot issues left me feeling pretty impressed at all of the knowledge they have of various systems from AC, to electrical to plumbing. I am currently a foreman of a welding, fabrication and machining shop and seeing this has really peaked my interest in the trade. I like to be challenged at work, and diagnosing issues or even doing new installs seems to be right up my alley.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

HVAC/R Service Tech

### Work Zones in Preference Order:

Fond du Lac Area (Orange), Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

1-3

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

I can't say that I have true job experience, directly correlated with the pipe trades. My past work experience includes fast food & retail work. These jobs, however, do help develop customer service & communication skills which connect to HVAC/R repair services.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I am big into staying physically active. I like to play basketball with my friends or locals at the YMCA. I also go to the gym to get stronger, I understand that can help with heavy labor.

When Wisconsin isn't frozen, I love to get outside and hike. I always make my way around the state during the summer.

### Shift Availability:

1st Shift (Days), Full-time

### Post HS Education:

No

### Add'l Edu. Details:

### What trades-related courses did you take in school?

Automotive Technology, Building Trades / Construction, Woodworking / Woodshop, Math-Calculus, Math-Algebra, Math-Geometry, Robotics

### What construction software or technologies do you have training in?

### Any Safety Certificates:

OSHA 10

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

I think the opportunity to become an apprentice is far and away the best option for me at the current point of my life. I just bought a house, and am in search of a new job that I have clear growth in. The fact that I could learn a valuable skill while also getting paid on the job experience, it's a very attractive option.

I was also very eager to learn as a kid in school. I got good grades and asked questions.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

In high school, I took several construction classes & instantly realized it was very rewarding to see a project through start to finish. Specifically, I remember when we built a storage garage for my high school. I got to drive past it almost everyday & I took pride in my work.

The reason I want to get involved in the pipe trades (specifically HVAC/R service technician) is that I am in search of a long term career, and know this a place I can find it. I recently had to connect a Common wire to my furnaces circuit board to power a new thermostat, and have been very curious about the whole system since. I love the idea of being able to provide a service that helps keep my community safe also.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience: 10+

Welding Experience:

Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

Car details / construction / farms

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I been doing car detailing for ten years in my current job, but before I work doing construction work

Shift Availability:

Full-time, Weekends, 1st Shift (Days), Overtime, 2nd Shift (Nights)

Post HS Education:

Other Relevant Courses & Certifications

Add'l Edu. Details:

high school degree

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I need all the experience for this job

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I used to help a friend do plumbing work and since then I'm interested in this project

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Appleton Area (Green), Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

7-9

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I was an industrial maintenance apprentice about 7 years ago that I had finished. It consisted of working with steam pipes. Rebuilding mac valves, replacing and fabricating small braided steel hose. And diagnostic work. Unfortunately this was with a private company so I received no credit towards apprenticeship outside of the company.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I do the maintenance on my vehicles as well as my home. I enjoy building, and fixing things.

Shift Availability:

Full-time, 1st Shift (Days), Weekends, Overtime

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I would like to get straight to work while learning a trade. I have found I pick up skills the best while active applying them.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy working with my hands and using my knowledge, to achieve results. I have been a truck driver for the last 5 years and haven't found it as fulfilling as when I had positions where I was working with tools. I have experience as a industrial maintenance technician, and found that the steam work was my favorite part.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech

**Work Zones in Preference Order:**

Green Bay Area (Yellow)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

4-6

**Welding Experience:**

Flux Core - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, MIG - Skilled, Flux Core- Skilled

**Tell us about any jobs where you've learned pipetrades relevant skills:**

I've worked in fabrication shops for my entire career so far and have done welding and other processes that mix with fabrication

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I've always been a do it myself kinda person, either by watching someone else do it and learning or from watching videos and retaining knowledge.  
I've been a Fabricator for the past 5 years and there's nothing more satisfying than learning how to make something and applying that knowledge into something real.

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights), Part-time

**Post HS Education:**

Other Relevant Courses &amp; Certifications

**Add'l Edu. Details:**

Metal Fabrication

**What trades-related courses did you take in school?**

Building Trades / Construction, Math-Algebra, Metals, Welding, Woodworking / Woodshop, Math-Geometry

**What construction software or technologies do you have training in?**

AutoCAD

**Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

I want to learn from the best and feel accomplished when I'm working on something that I can see I'm getting progressively better at doing. I hope to one day be able to teach what I've learned and continue the chain of great working people.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

Growing up I've always wanted to work blue collar, started off as a metal fabricator since I was 18 years old and now decided to make a transition to a different trade after a year of debating whether to do it or not.  
After countless research and asking around I've decided to join the union and wish to become a valuable member of local 400.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Plumber, HVAC/R Service Tech

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

### Years of Full-Time Work Experience:

10+

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

I have worked doing maintenance for a senior living community for about 5 years and learned a lot of skills with that job not just for the pipe trades but also in general. The current job that I have we work doing repairs on appliances and also install of appliances specifically dishwashers. We have to make alterations to some of the fittings in order for us to install so that's also giving me some knowledge of the pipe trades.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I try to do all my house repairs myself whether it's watching videos or previous knowledge that I have. I feel like I've gained a lot of knowledge just by doing that and also at previous jobs I learned a lot from the plumbers and HVAC techs that came in to my workplace at that time.

### Shift Availability:

Full-time, 1st Shift (Days), Overtime

### Post HS Education:

Some 4-year college

### Add'l Edu. Details:

### What trades-related courses did you take in school?

Building Trades / Construction, Math-Algebra, Math-Geometry

### What construction software or technologies do you have training in?

### Any Safety Certificates:

First Aid / CPR

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

It's attractive for me because it is a way of learning a skill that is very useful not only for a job but in everyday life. I want to have a career that I can be proud of and also one that I can work in until I retire. I know I'm not overly young but it's something that I want to have for the rest of my career until the day I retire.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always done maintenance in the past and plumbing and HVAC have always been something I've wanted to get into as a career and not just something that I do here and there. I have family members that have been plumbers and they've always told me what a great career it was and I've just been trying to look into the right situation and this seems like the perfect situation for me.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

**Work Zones in Preference Order:**

Green Bay Area (Yellow), Appleton Area (Green)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:**
**Tell us about any jobs where you've learned pipetrades relevant skills:**

I haven't worked in the construction field outside of attending the carpentry program at NWTC. I'd have a lot to learn but through my work experience I have a good track record of being responsible and punctual.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I frequently help family with home renovation projects so I'm no stranger around some power tools. I've been through the carpentry program at NWTC but didn't pursue it out of the classroom. My work experience is primarily in restaurant industry so that could transfer to the skills of needing to be attentive and organized in a fast pace environment. Through that I've also become very attentive to detail to make sure service is up to standard. I believe these are qualities important in any job I take on to ensure all work is done to the best and fullest of my abilities.

**Shift Availability:**

Full-time, Overtime, Weekends, Part-time, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Other Relevant Courses &amp; Certifications, Some 2-year college

**Add'l Edu. Details:**

NWTC Carpentry course, One year of college (basic credits)

**What trades-related courses did you take in school?**
**What construction software or technologies do you have training in?**
**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:**
**Why is an apprenticeship an attractive option to you?**

I've always been a hands on learner because I very much prefer to see the work being done in front of me in order to understand it better. Books only teach you so much when you can't visualize the way their information is applied. Not only is it the way I learn best but I also have a situation in which I need to keep making money as I go to survive. Without a steady income bills would fall through which I can't let happen when my baby girl is being born this March. Developing skills and career while being payed is the best

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I had gone to NWTC after a year of college and joined the carpentry program. Through experience in that I realized I didn't really enjoy doing it for work but while there I was able to visit various other trade programs to get more insight about the work they do. Plumbing and Electrician programs seemed a much better fit to me and I was much more interested. I've been hesitant to start and looking for an apprenticeship in the past due to frequently moving around Wisconsin for the past 3-4 years. Now things have changed and I have a child on the way this March. I won't be traveling as frequently and would like to build my career in pursuit of supporting that family along with my own self interest in the trade. It would mean the world to secure a future in plumbing.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green), Fond du Lac Area (Orange), Green Bay Area (Yellow)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

10+

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

Honestly I cannot say my past jobs have had any skills directly related to the pipe trades. Working Security at Disney for the last 8 years has given me a very high level of customer service ability. I assume customer service skills can be beneficial when working with customers on various jobs.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I enjoy doing an assortment of outdoor activities. So working in a variety of environments does not bother me.

I prefer trying to figure out how to fix things myself. Even if I don't know how to do something, I generally know where to look for guidance.

I enjoy working out which keeps me physically capable for the requirements needed

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Associate Degree

**Add'l Edu. Details:**

Criminal Justice degree (associates)

**What trades-related courses did you take in school?**

Woodworking / Woodshop, Metals, Welding, Math-Precalculus / Trigonometry, Math-Algebra

**What construction software or technologies do you have training in?****Any Safety Certificates:**

First Aid / CPR

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I've never done well in a classroom only environment. In high school my favorite classes were machine tool, welding, and wood working. I learn so much better in a hands-on setting.

I'm also tired of just working "jobs". I want a career. And the "earn as you learn" format of a apprenticeship work perfectly for my family and I. I don't have the knowledge or

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

Throughout my years working for Disney I've spoken to many individuals in the Engineering department that work for a variety of trades. My current job can be very monotonous and unfulfilling. I've been interested in pursuing an apprenticeship in the pipetrades because I would prefer to have a more hands-on career. Unfortunately with the low union pay in Florida and extremely high cost of living, I cannot afford to lose my current job.

My wife and I are planning to move to Wisconsin next year. My goal is to start a career journey that allows me to provide a comfortable life for my family.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

HVAC/R Service Tech

### Work Zones in Preference Order:

Appleton Area (Green)

### Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

### Years of Full-Time Work Experience:

10+

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

Although I've never had any jobs directly related to pipe trades, I used to manage a non-ferrous metal buying/recycling facility. I learned a lot about different types of metals and their uses. It also exposed me to a variety of tools and equipment that helped process those metals.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have always been an athletic and competitive person, so my favorite hobbies are the ones that keep me active that also involve strategy. I like playing any and all sports, with golf being my favorite. Even if it's something new I've never done before, I'm a quick learner and usually excel after a little practice.

On the professional side, I always enjoyed activities that involve problem solving. I have always been a hands on learner, and my calm demeanor has always served me well under

### Shift Availability:

Full-time, Overtime, 1st Shift (Days), Weekends

### Post HS Education:

Bachelor Degree

### Add'l Edu. Details:

Bachelor's Degree in Business Administration - Marketing.  
Previously certified as a forklift driver but I believe it's expired

### What trades-related courses did you take in school?

Math-Algebra, Math-Precalculus / Trigonometry, Math-Calculus, Math-Geometry,  
Woodworking / Woodshop, Metals

### What construction software or technologies do you have training in?

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

First and foremost it would give me the ability to use my brain and my body, something I have always strongly valued. An apprenticeship also gives me the ability for hands on learning, which is how I learn best.

I am newly married with my first child on the way, so an apprenticeship is also great because I can earn an income while I get the education I need.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have a close friend who is currently working a HVAC Service Technician apprenticeship. He loves it, and was telling me what it entails and the benefits of this career. My dad worked construction most of his life, and I helped him growing up a few times. So I have always enjoyed the blue collar mentality and have never been afraid of hard work.

I have a bachelors degree in business administration, and have had a handful of jobs in a few different industries. One thing I've learned about myself is that I want a job that utilizes my mind, but also keeps me active. I am confident I would enjoy a career in this trade.

Welding, Metals

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

My apprenticeship I'm working towards is my future for my family, I have no room to fail and everything rests on my shoulders financially.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had a child at a young age which pushed me to get into a trade with good money, and welding used to be a side hobby.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech

Work Zones in Preference Order:

Fond du Lac Area (Orange)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience:

7-9

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

The only experience I have is from working with my dad consistently from the ages of 5-15. After that, I tried to figure out my own life and so far it has not been as successful as I would have imagined. I've helped him on and off since then on various HVACR repairs and installs, but much less frequently as I've gotten older and moved away from home.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Currently, I'm remodeling my house. My dad had me following wiring diagrams for furnaces as early as 7 years old. He had me trying to figure out what the problem was on air conditioners and boilers by age 10. I truly learned a lot from him and now feel very self-sufficient for any problems a household could encounter as far as comfort goes. I use those experiences to remodel the house I'm living in. I've installed quite a few light fixtures, ceiling fans, and diagnosed/repared our air conditioner as well.

Shift Availability:

Full-time, Part-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Some 4-year college

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

It's the route my dad recommended I should go a few years ago. My brother did it and is doing pretty well for himself and I find working with my hands and head to be very satisfying, so I would like to follow suit.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Some of my earliest memories are of my father and I working on the job. He runs a self-employed, non-union business and I really look up to him. I didn't listen to him when I was a bit younger, and in have come to regret it. I learned so much from him already and really want to build on that for the little family that I'm trying to build.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship is a cool thing to go for because you wont get into a whole lotta debt. I have seen vidoes of people hard at work while learning at the same time and i very much enjoy learning. Learning is what makes the job fun and makes me strive to become better.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

working in customer service jobs has always struggling to learn new things but it was pretty much the same thing at every job ive ever had. Ive talked with my dad who works in carpentry and thats what brought me into it. Its been popping up on my computer and its been intresting to research and watch other people do these things that ive never even thought of doing. Ive always felt like I never knew how to do anything and always having to rely on someone else. I wanted to make a change by researching all of this and finally gained enough courage to start applying.

## Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

10+

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I was in sales for about 8 years. The skills that I believe are transferable from that would be tenacity and persistence to achieve a goal.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy tinkering and working on vehicles, particularly older vehicles. I believe that the skills I have acquired with this hobby are transferable because it utilizes problem solving skills to correct issues at hand. It also takes persistence to overcome challenges that arise.

Another activity that I do often is DIY projects and home repairs. This boosts skills because I am continuing to educate myself on how to do different projects/repairs to improve my skill set.

Shift Availability:

Full-time, Part-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Associate Degree

Add'l Edu. Details:

Business management and marketing

What trades-related courses did you take in school?

Why is an apprenticeship an attractive option to you?

Apprenticeship is an attractive options for me because I like the idea of getting paid to learn the skill. I do not want to sign up for any school loans, so this seems to be the best option for me. I am also a hands on learner. I feel that working with experienced tradespeople is the best way to learn.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am currently interested in making a career change. I have a background in sales. In particular, selling industrial and construction supplies. I was successful at what I did, however it was unfulfilling.

What interests me in the building trades is working with my hands, building/doing something I can be proud of and learning life longs skills.

There are many reasons I am interested in the pipetrades (particularly HVAC). One of the most important is job security. In the winter people need heat, in the summer people need AC. With the rise of AI and automation, it will never replace skilled labor. Another reason I am particularly interested in HVAC is for the challenge and problem solving. I like the idea of continuous learning and growing a skill set that I can be proud of and have for life.

What construction software or technologies do you have training in?

**Years of Full-Time Work Experience:**

7-9

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

As a truck driver for five years, I developed skills that apply to the pipe trades, including attention to detail, problem-solving, and working with tools. I maintained equipment, followed safety protocols, and managed logistics, all of which are essential in pipe work. My DIY projects have also given me hands-on experience with basic plumbing and home maintenance, further building my technical skills. These experiences have prepared me to learn and succeed in the pipe trades.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I enjoy weightlifting, DIY projects, golfing, and deer hunting, all of which have built skills useful in construction. Weightlifting improves my strength and endurance for physical work, while DIY projects sharpen my problem-solving and hands-on skills. Golf teaches patience and precision, and hunting requires discipline and adaptability, both important on a job site. These activities have helped me develop the physical and mental skills needed for construction work.

**Shift Availability:**

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

HVAC/R Service Tech, Plumber

**Work Zones in Preference Order:**

Appleton Area (Green), Fond du Lac Area (Orange)

**Relevant Experience Level:**

A little. No specific trade experience, but I have general skills in construction or welding.

**Years of Full-Time Work Experience:**

4-6

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

I haven't had direct experience in the pipe trades, but I have worked on roofing jobs and for a drywall company, gaining hands-on construction experience. Roofing taught me physical endurance, safety awareness, and problem-solving, while drywall work helped me develop measuring, cutting, and installation skills. These jobs reinforced my work ethic, teamwork, and ability to learn on the job, which will help me succeed in a plumbing or HVAC apprenticeship.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

In my free time, I practice Jiu-Jitsu, go to the gym, and participate in various team sports. These activities have helped me develop physical and mental skills that are highly transferrable to the construction trades. Jiu-Jitsu has taught me discipline, patience, and problem-solving under pressure. It requires strategic thinking, adaptability, and attention to detail—just like working in plumbing or HVAC, where you need to assess situations, troubleshoot problems, and apply technical skills effectively.

**Add'l Edu. Details:**

Human Services Substance Abuse Counselor in Training Certificate

**What trades-related courses did you take in school?****What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship is an attractive option for me because it provides hands-on training, allowing me to learn directly from experienced professionals while earning a living. I thrive in environments where I can apply skills in real-world settings rather than just learning in a classroom. The combination of structured education and on-the-job experience makes an apprenticeship the ideal path for gaining the technical knowledge and problem-solving skills needed in the HVAC or plumbing trade.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I've always been drawn to hands-on work and problem-solving, which is why I'm interested in a career in the building trades. I enjoy working with my hands, learning new skills, and seeing the direct impact of my work. The trades offer a career path where I can develop specialized skills, work in a high-demand industry, and have opportunities for long-term growth and stability.

Specifically, I'm interested in plumbing and HVAC because they are essential trades that keep homes, businesses, and industries running smoothly. The idea of working on complex systems, troubleshooting issues, and providing solutions excites me. Even though I don't have direct experience, I'm a hard worker, eager to learn, and committed to developing the skills needed to be successful in this field.

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**

Plumber, HVAC/R Service Tech

**Work Zones in Preference Order:**

Appleton Area (Green), Green Bay Area (Yellow), Fond du Lac Area (Orange)

**Relevant Experience Level:**

None. Nothing even close-but I'm a hard worker and willing to learn!

**Years of Full-Time Work Experience:**

10+

**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

I can't say I've worked any construction trades. The closest thing I can say is butchery. I worked with plenty of meat processing tools like Band saws, grinders, industrial tenderizers, cleavers, and knives.

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I'm a big hardware guy. Mostly I build computers and rebuild classic speakers and receivers. I also ride motorcycles and perform my own regular standard maintenance on them. I'm not certain if these would be considered transferable, but when I'm practicing and learning these skills I tend to absorb the relevant information on how to do them and I really enjoy it.

**Shift Availability:**

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

**Post HS Education:**

Some 2-year college

**Add'l Edu. Details:**

I'm currently enrolled in the Software Development program at FVTC in Appleton. The courses I've taken so far are Pre algebra,

**What trades-related courses did you take in school?**

Math-Algebra, Math-Geometry

**What construction software or technologies do you have training in?**

C++, C#, HTML, SQL, JSON, CSS, a little Python and a little JAVA

**Any Safety Certificates:**

First Aid / CPR

**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I've been through one before as a butcher and trained my own apprentices. I enjoy the culture of the trades in particular. And I've always been a better hands on learner than a book learner.

I think that working in a butchers union, and with the culture, was essential for acquiring the skills I needed to succeed.

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I'm a journeyman butcher and have been for sometime. I've always had friends and family in construction trades and have much respect for them. For a long time now I've wanted to switch trades. In 2017 I attempted to join the local Chicago plumbers union but my math skills at the time were lacking. A few years later, I moved to Appleton and started attending Fox Valley Technical College. I retok pre algebra, college mathematics, a math & logic class for software engineering, and even tutored my girlfriend in business applications of math for her degree. I studied hard and aced those classes and am now much more confident in my skills in mathematics.

## Pre-Apprentice Candidate Pipefolio

### Disciplines of Interest:

Steamfitter (Pipefitter), Pipe Fabricator, HVAC/R Service Tech

### Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange), Green Bay Area (Yellow)

### Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

### Years of Full-Time Work Experience:

7-9

### Welding Experience:

MIG - Some Knowledge, Stick - Some Knowledge

### Tell us about any jobs where you've learned pipetrades relevant skills:

The foundation of everything I know came from working in residential construction. Using hand tools and machinery every day left me with a solid skill-base and taught me awareness on a job sight.

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

Sports have always been a love of mine. After my formal competing ended, I have been coaching where and when I can for the past 5 years. I have coached Pole Vault at both Fond Du Lac High School and UW Oshkosh. Through sports, I learned that accomplishing goals with others is very rewarding and enjoyable. I have also learned that working with others can be challenging at times, but it's important to see the big picture and understand that the goal you are working towards is what's most important. I also learned how to receive instruction and impart my knowledge to others.

### Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights), Part-time

### Post HS Education:

Associate Degree, Other Relevant Courses &amp; Certifications,

### Add'l Edu. Details:

Welding/Maintenance and Fabrication Technical Diploma Completed 12/24. GTAW, SMAW, GMAW Associates of Arts and

### What trades-related courses did you take in school?

Drafting and Design, Math-Algebra, Math-Calculus, Welding, Math-Geometry, Math-Precalculus / Trigonometry, Metals, Robotics, Woodworking / Woodshop

### What construction software or technologies do you have training in?

AutoCAD, Inventor

Fuzion 360, Cura, SketchUp

### Any Safety Certificates:

### Add'l Details:

Veteran

### Why is an apprenticeship an attractive option to you?

An apprenticeship is what I want because it leads to a lifelong career of learning and becoming a professional in your field. I believe that my aptitudes are best suited for the trades because of the way I was raised and the skills I gathered and as a young man.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My background is primarily in residential construction. I learned a lot of valuable skills over the years and enjoyed that time greatly. My mid-twenties have been spent trying my hand at sales and seeing where that could take me. While it has been productive, I don't believe that it's really who I am and where my aptitudes are best suited. I want to get back to building real trade skills and becoming a professional. I have been working full-time while I completed a Welding and Fabrication Certificate from Gateway Technical College in Racine. I was immediately drawn to working with metals and after discussing with my instructors, we came to the conclusion that the pipe trades are the best place for me to grow.

### Years of Full-Time Work Experience:

4-6

### Welding Experience:

### Tell us about any jobs where you've learned pipetrades relevant skills:

I've worked as an Operator Assembler at Sub-Zero Group, Inc. since March 2022, gaining hands-on experience in manufacturing, machine operation, and troubleshooting—skills directly applicable to the pipe trades.

Previously, as a Maintenance and Utility Assistant at Ahlstrom-Munksjö (Thilmany Mill), I assisted with equipment maintenance and repairs, building a strong foundation in problem-solving and industrial work.

### Shift Availability:

Full-time, 1st Shift (Days)

### Post HS Education:

Some 4-year college

### Add'l Edu. Details:

Certifications: Machine operation training, including experience with various assembly equipment, safety protocols, and

### What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Woodworking / Woodshop, Math-Precalculus / Trigonometry, Engineering, Electrical Trades / Electronics, Drafting and Design, Robotics

### What construction software or technologies do you have training in?

AutoCAD, Solidworks

### Any Safety Certificates:

First Aid / CPR

### Add'l Details:

### Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy hands-on projects like coding and designing software tools, which have strengthened my problem-solving and troubleshooting skills—valuable for the construction trades. I also have experience operating machines and quickly learning new tools, thanks to my curiosity and adaptability.

Outside of technical activities, I enjoy being outdoors and playing team sports, which have taught me the importance of hard work, communication, and collaboration—skills

### Why is an apprenticeship an attractive option to you?

An apprenticeship is a great option for me because I learn best by doing. It gives me the chance to work hands-on, learn from experienced professionals, and build real skills while on the job. I also like that I can earn money while I'm learning, which makes it a practical choice as I work toward supporting my family. I'm looking for a rewarding, long-term career, and an apprenticeship is the perfect way to gain the experience and knowledge I need to build a strong foundation in the trades.

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on, problem-solving work, which is why I initially pursued electrical engineering and gained experience in circuit analysis and machine operation. Over time, I've realized that I thrive in environments where I can see the immediate, tangible impact of my work, which is why I've become interested in the building trades.

Specifically, plumbing appeals to me because it combines critical thinking and physical work to solve essential problems that affect people's daily lives. I enjoy the challenge of troubleshooting and finding practical solutions, and plumbing offers a career path where I can continue learning, build expertise, and make a meaningful contribution to communities.

### Post HS Education:

Some 2-year college, Some 2-year college, Some 2-year college

### Add'l Edu. Details:

Attended NWTC for the welding program., Went to NWTC for the welding program, Went to NWTC for the welding program

### What trades-related courses did you take in school?

Welding, Math-Precalculus / Trigonometry, Math-Algebra, Math-Geometry, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Metals, Welding, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Metals, Welding

### What construction software or technologies do you have training in?

### Any Safety Certificates:

### Add'l Details:

### Why is an apprenticeship an attractive option to you?

There is always a high demand in jobs. There is a lot of room to grow and learn. I like hands on work and being active aswell as problem solving to get the job done right., There is always room to grow and learn, There's always room to grow and learn new things aswell and traveling while working and I want to go back to school but don't have the funds for it

### What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always enjoyed welding and theirs always room for improvement in this field. Theirs a lot of room to grow in this career and become successful. I have been reffered to join the union by mutuals. I like how there is a high demand in this field and I like the thought of always having work., I went to school for welding have currently been working at a shipyard in sturgeon bay doing flux core. Local 400 is also up there working HMI pipe welders I have talked to a couple guys and I would like to learn more about this field., Currently working at bayship and was talking to a couple of the guys from HMI w local 400 and seem really interested in making the switch from mig to tig

## Pre-Apprentice Candidate Pipefolio

**Disciplines of Interest:**Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter),  
HVAC/R Service Tech, Plumber**Work Zones in Preference Order:**

Fond du Lac Area (Orange), Appleton Area (Green), Fond du Lac Area (Orange)

**Relevant Experience Level:**A little. No specific trade experience, but I have general skills in construction or welding., A little.  
No specific trade experience, but I have general skills in construction or welding**Years of Full-Time Work Experience:** 1-3, 1-3**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

Mudjacking it's far fetched from pipe trades, but it was still construction., n/A

**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I've worked a construction job before (Mudjacking), & I learned a lot about working with people- customers & co workers. I'm a very good people's person so I know how to get along & get work done. I'm familiar with power tools, hand tools, ladders, etc. AND I AM A SPONGE WITH INFORMATION. But as hobbies, I don't do it as much as I'd like, but building things is fun & seeing things come along is interesting., I like to put together whatever I can. I like brainstorming with a team and getting a task done.

**Shift Availability:**

Full-time, 1st Shift (Days), Overtime, Full-time, 1st Shift (Days), Overtime

**Post HS Education:**

No, No

**Add'l Edu. Details:****What trades-related courses did you take in school?**

Math-Geometry, Math-Algebra, Metals, Welding, Automotive Technology

**Why is an apprenticeship an attractive option to you?**

Stability & growth!! Get paid to learn & this is the type of work & knowledge that I can take outside of work.

**What construction software or technologies do you have training in?****What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I am currently a correctional officer. The work is stressful as is the schedule & hours. I want something stable & a place I can make good money whilst working & enjoy my work. I come from a family that have been in trades & they were always so eager to get me to get into one. And I wish I would have sooner. I'm looking to build a career & skyrocket from there & the pipe trade, plumbers & steamfitters trade is where I'd do it., I need a career & I've always considered doing an apprenticeship.

**What construction software or technologies do you have training in?**

Laser Scanning

**Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

The apprenticeship program attracted me because I have many family members and relatives that have done and finished the apprenticeship program and I hear nothing but good things about it. Since freshmen year of high school I knew that I wanted to become a electrician or HVAC and the apprenticeship program has just that, the HVAC program caught my eye because they pay me to learn in what I want to do and something that I will enjoy doing., The apprenticeship program is an attractive option to me because it's

**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

What Interested me in the trades was actually my brother and myself at the same time. My brother is currently a welder and I see that he enjoys his job but he also has friends who work for the local 400 currently and they are hvac and they actually recommended me the job. The HVAC Trade was very interesting to me because it caught my eye knowing it does a little bit of everything, now I wanted to become a electrician at first but I did my research and figured that HVAC has better benefits then a electrician and you actually work with electrical work as well. I also worked with a plumber last summer who worked for the school district and he showed me many tips and tricks on pipe fitting and trades and I really enjoyed what he did as a job., What interests me more about building a career in the trades, but more specifically The trade, HVAC is not just the trade but also the union, The union is a great place to start and build your career at a young age, I've been recommended by many people that have started there career here and fast forward 3-4 years later they are doing amazing with their careers I really want to start
