Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

7-9

Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, Flux Core - Some Knowledge, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

None. Mostly just welding

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My hobbies is i usually do side work on cars and work around my house

Shift Availability:

Full-time, 1st Shift (Days), Weekends, Overtime, 2nd Shift (Nights)

Post HS Education:

Some 2-year college

Add'l Edu. Details:

Diesel technician

What trades-related courses did you take in school?

Automotive Technology

Why is an apprenticeship an attractive option to you?

Well ive been working in the auto/Diesel trade my whole carrier and I thought it was my calling but everytime i weld i can't seem to see myself continuing my carreir any further.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The reason is my background is in diesel. But Ive always have had great joy when ever I weld.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter), Plumber

Work Zones in Preference Order:

Fond du Lac Area (Orange)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:
Tell us about any jobs where you've learned pipetradese relevant skills:

I can't say ive worked a job that holds valuable hands on skills for trades. However,In my past jobs, I've learned to swork hard and stay focused, skills that are essential in the pipe trades. I've worked in fast-paced environments where teamwork and communication were key to getting the job done right.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy playing chess, staying active through sports and running, and working on basic car maintenance. Chess helps me stay sharp and think critically, planning several steps ahead, which is useful for problem-solving on the job. Sports and running keep me physically fit and teach discipline and teamwork, which are important in construction environments. Working on cars has given me hands-on experience with tools, mechanics, and how systems work, which all happen to be skills related to construction trades.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

Some 4-year college

Add'l Edu. Details:

So upon my college career I've majored in Geograhpy then switched to a Math Education major. I'm more drawn to classes

What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry

What construction software or technologies do you have training in?
Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it lets me learn by doing. I prefer hands-on work over sitting in a classroom all day, and an apprenticeship gives me the chance to earn while I learn a valuable trade. I like that I can build real skills. It's a practical, rewarding path that fits the way I learn and work best.

What interested you in a career in the building trades in general, and specifically, a career in the pipetradese?

I'm interested in the pipe trades because I enjoy hands-on work, problem-solving, and using my math skills in real-world situations. I'm drawn to the stability, high earning potential, and the chance to learn a valuable skill that's always in demand.

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

MIG - Skilled, Flux Core - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I'm currently working as a welder, and I've learned a lot that connects to the pipe trades. I'm used to working with different metals, reading blueprints, and making sure my welds are strong and clean.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

my free time I'm usually golfing, fishing, or snowboarding. I've noticed that these hobbies actually help with stuff that applies to the trades. Golf teaches me patience and how to stay focused when things get frustrating — kind of like when you're trying to get a weld just right. Fishing's helped me stay steady and pay attention to small details. Snowboarding keeps me active and has taught me to think on my feet and stay balanced, especially when things change fast, like on a job site. All in all, these things have helped me build good habits when working

Add'l Details:
Why is an apprenticeship an attractive option to you?

An apprenticeship sounds like a great fit for me because I'd rather learn by doing than sitting in a classroom all day. I like working with my hands and being active, so getting real on-the-job experience while learning the trade makes a lot of sense. It's also a solid way to build a career — you're earning while learning, and there's a clear path to move up.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in joining the pipefitter workforce because of my strong background in metal work and general welding. Over the years, I have gained hands-on experience with various welding techniques and working with different types of metals, which has given me a solid foundation in fabrication, precision work, and safety protocols. I believe these skills directly align with the demands of pipefitting, and I'm confident that my experience will allow me to contribute effectively while continuing to grow and learn within the trade.

AutoCAD

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I like the idea of learning by doing, not just sitting in a classroom. With an apprenticeship, I can build real experience on the job while also getting formal training from experienced professionals.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I first became interested in the pipe trades when a friend told me about steamfitting. I looked it up and thought it sounded like a great fit for me. Steamfitters work on important systems that keep buildings running, like heating and cooling. It's a job that takes skill, hard work, and teamwork, and I want to be part of something that makes a difference.

don't have any hobbies directly related to the trades, but I've worked hands-on jobs that have taught me a lot of useful skills. Right now, I work at a metal finishing company doing racking and unranking, which takes focus, physical effort, and attention to detail. It's also helped me get used to working in a fast-paced, industrial environment where safety and consistency matter every day.

Before that, I spent several years working in construction doing drywall finishing. That

Why is an apprenticeship an attractive option to you?

An apprenticeship is a great way to learn a trade while earning a paycheck. I'm a fast learner and do best with hands-on training, so this kind of program fits me well.

It's also a clear path to a steady, good-paying career. I want to build something long-term, and an apprenticeship helps me grow my skills the right way from day one.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always liked working with my hands and figuring out how things work, so the building trades really caught my attention. I'm looking for a career that's hands-on, stable, and pays well—but also something I can enjoy doing every day. I like the idea of building and fixing things that people rely on, and being part of something that actually matters in the real world.

The pipe trades stood out to me because welding looks like something I'd really enjoy learning. It takes skill, focus, and a good work ethic—qualities I know I have or am ready to develop. I want to get trained the right way so I can build a solid career for myself doing something I'm actually interested in. I'm ready to put in the work and grow in this field.

It means consistency. Honing a skill and learning through accountability. Being able to travel and staying in demand. Having a choice.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My dad is a foreman pipe fitter. I want a trade that's respectable, hands on, and pays well. I want better for my family. Working in a custom fab shop is becoming dull and monotonous with promises undelivered. I want to make it happen for myself and not depend on political promises

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), Pipe Fabricator

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Stick - Some Knowledge, MIG - Skilled, TIG - Skilled

Tell us about any jobs where you've learned pipetrades relevant skills:

I am currently a welder at D&S Machines I have been there for 3 total years, 2 years part time while I was in high school and one year full time after I graduated.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I am currently a welder and do mig and tig welding every day.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Building Trades / Construction, Metals, Welding, Woodworking / Woodshop, Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

It is attractive to me because it gives me the opportunity to learn and earn money at the same time.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy welding, fabricating and being able to build things and working with my hands.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience: 10+

Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

As an adult seeking a new career path, I am highly motivated to learn the field of pipefitting and committed to making a successful transition. I bring a strong work ethic, reliability, and the maturity that comes with life experience, all of which I believe are valuable assets in a hands-on, detail-oriented trade like pipefitting. I'm eager to develop the technical skills required, from reading blueprints to installing and maintaining piping systems, and I'm not afraid to start at the ground level to build a solid foundation.

Shift Availability:

Full-time, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Metals, Building Trades / Construction

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy working on hands-on projects like fixing things around the house, assembling furniture, and helping with basic plumbing repairs, which all relate directly to the skills needed in pipefitting. I've always had an interest in figuring out how things work and finding efficient ways to put things together, which has strengthened my attention to detail and mechanical thinking.

Why is an apprenticeship an attractive option to you?

An apprenticeship is important to me as an adult because it gives me the opportunity to learn a skilled trade through real-world experience while earning a paycheck. This practical, on-the-job learning approach is ideal for me because I'm ready to work hard, grow my skills, and move forward in a career that offers long-term stability and advancement.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I want to become a pipefitter because I enjoy working with my hands and solving problems in a way that produces real, visible results. The pipefitting trade offers a unique mix of physical labor, technical skill, and precision, all of which align with my strengths and interests. I'm drawn to the idea of building and installing systems that are essential to the function of buildings, factories, and infrastructure.

Another reason I want to pursue a career as a pipefitter is the opportunity for long-term growth and stability. The trade offers strong job security, excellent wages, and the chance to continue learning through on-the-job experience.

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Welding, Metals

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

One of my main hobbies is woodworking, which I got into at a young age thanks to my dad. I grew up spending time in his shop, helping him with different projects and learning how to use tools safely and effectively. That experience taught me the importance of precision, patience, and attention to detail

Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it allows me to learn the trade hands-on while earning a paycheck. I like the idea of gaining real-world experience under the guidance of skilled professionals instead of sitting in a classroom all day.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on work where I can see the real-world results of what I do. The building trades appealed to me because they offer a chance to work on essential projects that have a lasting impact. Specifically, the pipe trades stood out to me because of the combination of technical skill, problem-solving, and the critical role they play in making systems function safely and efficiently.

I've had a high school meeting with local 400 and the benefits sounds really good.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I started catching on more about welding during my high school years. I've always liked the idea of building or creating something tangible and lasting through hands-on work. I'm drawn to the physical nature of the work, the problem solving on the job site and doing it with a team.

Additionally, I feel as if the building trades offer a strong sense of purpose and stability. These careers are essential to every community, providing structure we depend on daily. Roads, homes, and lots more. Hands on work is something I've love doing because it shows personal pride in craftsmen, and the ability to make a meaningful contribution to society.

The apprenticeship program at the local 400 was attractive to me for the opportunity to grow and learn more as the years go. I like to feel like I'm always improving my life as the years go. I don't like to feel like I'm wasting my life away and with this program I feel like it's a good career path that leads me to where I want to be in life. I can see there is an abundance of opportunity here. What really had me considering this as well was my brother who also works for the local 400. I can see how he is able to live a good life

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been a more hands on worker. I have also been looking for something where I can grow more so as soon as my brother told me about the local 400 and how it's a paid to learn program. It intrigued me a whole lot he brought over a folder with more information and from what I've read and seen I feel like the local 400 would be a good fit for me. Pipe trades is something completely new to me but I've always been a fast learner and I like to do things fast and the right way. I feel as long as there is someone willing to teach me the right way I will make a good part of any team. My managers and past foremen would also always say how I was a good worker and pick things up quick. I'm excited and ready to work and learn about the pipe trades.

Add'l Details:

Why is an apprenticeship an attractive option to you?

I find this the route too go because I'll be learning on the job and not be going into debt. Instead I'll be working and communicating with coworkers and getting to know them. It also allows me to work full time and have a livable wage while learning. Instead of going into debt at college I'll be able to learn real hands on experience while on the job. I'll be able to communicate and work with fellow coworkers and build bonds with them while making a livable wage. It will also allow me to continue my education and learn new skills

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I found out how expensive college was and started working for with my dad's company who've recently taught me how to read blue prints and do MIG welding. I am a fabricator building conveyors and enjoy welding and want to pursue a career in it. My grandpa was an electrician for many years and motivated me to go out and become an apprentice because of the valuable experience you learn from it. I wanted to go to college until I found out how much it cost for me. I recently started welding MIG at my job and found a passion for it, which made me want to learn more and gain knowledge. My grandpa was an electrician and motivated me to pursue pipe trades if I had a passion for welding.

Add'l Details:

Why is an apprenticeship an attractive option to you?

It appeals to me since I've already gone through and apprenticeship during high school at Fox Valley Tool and Die and I learned a lot of skills and lessons from the let's say old timers at work that I can use anytime

And as an apprentice you can get the most experience working in every field getting skills in every process making yourself more valuable to your company until you get

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I got interested in the pipetrades because I like to work long hours and be able to travel to do work on site. I've always liked to do the work nobody else wants to do. My first job when I was 14 working on a farm also helped steer me in the direction of the trades. I have coworkers at my current apprenticeship that used to be pipefitters and I've heard a lot from them about the job that I said I'd love to do

One thing I like about working in the building trades is you get to learn a lot of skills and lessons from the veteran workers. The most important thing I've learned from being in the trades is to slow down, don't slow down the speed you're getting the work done but slow down your thinking. Make sure everything is done right before you do it so the company doesn't have to spend money that doesn't need to be spent redoing your mistake

Why is an apprenticeship an attractive option to you?

The additional education, and career opportunities have a large appeal to me. In industry a journymens license in skilled professionals "Batchelor degree" demonstrating the time and dedication a person has put into to master a craft. I believe it's the highest honor, for someone who prides themselves on working with their hands, can obtain.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

A instructor I had at fox valley tech recommended me to go into the field of pipe welding. I felt this was a good option for me because of my attention to detail, eagerness to learn, and love for personal challenge and growth. Not all welders have what it takes to be pipe welders, but I believe I do. The benefits, opportunity, and education potential was too much for me to ignore, and I wish to explore pipe welding as a career.

SSL Industries - I assisted in welding food grade stainless steel tables and chairs for food Industry companies

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I've always enjoyed working with my hands, whether it's building, fixing, or creating something tangible. There's a deep satisfaction that comes from seeing the immediate results of your efforts, especially when solving practical problems or assembling something complex. This hands-on mindset naturally aligns with a career as a steamfitter, where precision, physical skill, and problem-solving are essential every day. The ability to work with tools, read blueprints, and install or repair piping systems requires a strong attention to detail and a passion for craftsmanship—, I've always enjoyed working with

Inventor

Creo Parametric

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I enjoy the concept of learning and getting compensated for it. I enjoy proving to employers that I can perform for them.

I was a youth apprentice when in high school, and although I didn't enjoy what company I worked for, I realized the value of an apprenticeship. I knew at some point in the future I would explore other apprenticeship opportunities.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I began my trade career working for an independent contractor doing home remodeling. I found satisfaction in the finer details, and looking back to see a job well done.

I do car exhaust work as a hobby, and enjoy welding. I believe a career in the pipe trades would be something I find rewarding and enjoyable.

Welding, Building Trades / Construction, Metals, Math-Geometry, Math-Algebra, Woodworking / Woodshop

What construction software or technologies do you have training in?**Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

The reason why an apprenticeship is an attractive option to me is because I want to open my mind to learning more on the pipe trades and possibly get a job working in the pipe trades.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up working in a shop learning how to build things with wood. Later on, specifically in high school, I got into welding. I used to do some welding on my family's farm on the side but, got very into welding in high school. I started to do more with stick (SMAW), MIG (GMAW), and TIG (GTAW). As I got more into welding, I decided that I wanted to do it as a job. I started talking to people who came to the trades fair we held at school and came to the conclusion that welding was the way I wanted to go.

In college, I asked my instructor if I could try pipe after I got done with pipe to plate with TIG. He said yes so, I did it and thought, "This is something I could really do for a job." I started to practice more and more as time went on. I really got into it when we went to the Local 400 for a tour.

Apprenticeships weren't very possible for me in TN. I would've had to basically move to another part of TN just to make it somewhat affordable. Here I will be able to give it me all. I love to learn new skills being able to get paid while I learn is a blessing. Not to mention, all the great people I'll be able to meet along the way. The way the unions are set up here in Wisconsin is an amazing opportunity and I will take full advantage of it if yall will let me., In TN I would've had to drive a couple hours each day to be able to get a

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

When I first got out of high-school I was going to go to college for engineering, however, my parents urged me to give the trades a try. I found that working with my hands and back was what made me happy. And like granddaddy always said, "if you can find a job you enjoy, you'll never work a day in your life.", When I first graduated high school, I was going to go into engineering and computer science. However, my parents urged me to go into the trades. I started working at HatPonics and found that building, working with my hands and back, is what made me happy. As granddaddy always said, "Son, if you can find something you enjoy and get paid for it, you'll never work a day in your life." I felt like it was time to move on from HatPonics and get started working in more traditional trades like welding. I know that if I put my back into welding like I did as an erector or as I did in school I will be able to achieve all my goals.

What construction software or technologies do you have training in?**Any Safety Certificates:**

OSHA 10, OSHA 30, First Aid / CPR

Add'l Details:**Why is an apprenticeship an attractive option to you?**

I think the apprenticeship is a great opportunity for me to expand my skills and work towards a job that pays good and can go all across the country, instead of just being dedicated to one place that can slow down and lay people off.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What first interested in the building trades was my dad, as a child I would always help with his construction projects, and mechanical projects. Which lead me to finding a local contractor and helping out for my first job. What brought me to welding was at home I started building go karts, mini bikes, etc. I currently do have a job at marinette Marine as a welder. I would like to expand my skills on pipe, whether it's pipe fitting or welding I would prefer welding over the two but I like both. I've also done some fitting so I can read a blueprint pretty well. I think I would be a great addition to your crew.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

4-6

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

While I haven't worked in the pipe trades yet, I've had jobs where I developed skills that I know will be useful. In past work, I've learned the importance of showing up on time, working hard, and staying focused until the job is done. I've also had to follow directions closely, work as part of a team, and adapt to different tasks throughout the day.

Those experiences taught me to be reliable, take pride in my work, and keep learning—qualities I know are important in the pipe trades.

Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Some 2-year college

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Two of my main hobbies are playing soccer and tattooing, both have helped me build skills that I think will transfer well into the construction and pipe trades. Soccer has taught me the importance of teamwork, communication, and staying disciplined—especially when things get tough. It's also helped me stay physically fit and mentally focused, which are important for a hands-on, physically demanding career like this. Tattooing has helped me develop a steady hand, attention to detail, and patience. It's also taught me how to work with precision and take pride with the process.

Why is an apprenticeship an attractive option to you?

An apprenticeship is enhancing to me because it gives me the chance to earn while I learn. I like the idea of getting real hands-on experience while being taught by experienced professionals.

It also gives me a clear path toward a steady career. I'm motivated to start something long-term, and I respect the structure and support that comes with a union apprenticeship. It's a great opportunity to work hard, grow, and eventually become a

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in a career in the building trades because I'm ready to start a stable, hands-on career where I can learn, grow, and build something meaningful. I may not have experience yet, but I'm a hard worker who enjoys learning new skills and pushing myself to improve. What really sparked my interest is seeing friends and family succeed in union trades. Hearing about the opportunities they've had and the pride they take in their work made me want to pursue something similar.

Specifically, the pipe trades stood out to me because of how essential and respected the work is. I want to be part of something that keeps communities running—whether it's plumbing, heating, or piping systems. My goal is to build a steady, reliable career I can be proud of and eventually work my way up to becoming a skilled professional in the field.

What construction software or technologies do you have training in?

CNC, AutoCAD

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I really like the idea of learning on the job with training involved as well. It truly has open my eyes to this industry and what I can become eventually. The apprenticeship would be a great way for me to get my foot in the door and learn as much as possible from the old timers.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I love the idea of making something from scratch. It just gives me the itch to go out and learn it. I love welding and am currently in tech school for it and just absolutely love it. Wanting to get into the pipe trades is a big itch of mine.

Why is an apprenticeship an attractive option to you?

I would like to gain experience with my new skills, and learn to be the best. The UA apprenticeship puts out top tradesmen while maintaining a pro worker mentality. Those are both great reasons to pursue an apprenticeship.

What trades-related courses did you take in school?

Woodworking / Woodshop, Building Trades / Construction

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up in a blue collar household where working with your hands was a prerequisite for adulthood. I was raised to not shy away from, but to value a good days work.

I grew disillusioned with management, and looked for a new trade that I could enjoy while making a good wage. My cousin recommended that I look into Pipefitting or welding as he is out of the Augusta local as a traveler.

I signed up for the Industrial Pipefitting course at the local technical college, and was hooked.

This is a fascinating line of work with so much opportunity. I'm excited to learn more and to possibly be a part of the brotherhood.

What trades-related courses did you take in school?

Why is an apprenticeship an attractive option to you?

I've never been a part of any union or apprenticeship but I've always thought that it would be a great thing to be a part of. I've heard that being in a union is a great thing and an awesome experience. I think that the experience from the apprenticeship that I could gain is amazing and the people I could meet is really cool.

What construction software or technologies do you have training in?

CNC

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm currently a welder and have been a welder for about 5 years now. I'd like to expand on my professional experience and have a wider variety of fabrication experience. I think pipe welding/fabrication is the most sought after welding role that there is, I think it looks super cool and fun to be a huge part of that industry. I've welding some pipe already but I want to learn everything I can about it. I got interested in the trades from just wanting to know the ins and outs of how stuff is made and wanting to be a part of that whole process.

Add'l Details:
Why is an apprenticeship an attractive option to you?

Seems like a good opportunity to get hands on training, that's the best way I learn, showing me what to do is a lot easier than sitting me down and telling me what to do. If you show me how you want it done that's the way I'm going to do it.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I started welding in high school had intentions to go to college for it , but sadly I didn't I took an opportunity to work for a farmer because I needed the money at the time and never looked back at it, I worked there for 6 years before I came to realize that it wasn't a good life decision and they were not going to help me succeed and thrive. moved on and tried otr highway construction pouring concrete for a few months but got a sour taste put on my toung due to non consistent work and having to pay out of pocket for somewhere to sleep. I currently am employed as a media blast technician and I don't for see a good future with the amount of effort I put in , I feel not respected where I'm at. So I started looking at other options I'm looking at ether you or nwtc for a 2 year class.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

7-9

Welding Experience:

Flux Core - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

As stated before, I don't have any job site experience but helping my grandfather and his neighbors with small projects and repairs gave me a practical sense of where my welding skills are at

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Amongst my favorite hobbies is woodworking, and anyone who knows woodworking knows that if you're going to make something, make it right. Something as basic as a small shelf will require time and precision. Taking your time and completing a task thoroughly will pay off in the long term, much like skilled trades.

Shift Availability:

Full-time, Part-time, Overtime, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:
What trades-related courses did you take in school?
What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

The apprenticeship route is an attractive option for me because I now have a family of my own and being able to learn and provide for them at the same time and be able to spend time with them is important to me.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

In high school I heard about beginner welding classes that were offered at my school byway of some of my friends and tried it out. After a few weeks of classes it turned out that I had a knack for welding and took an interest in it immediately. Although I didn't have formal training, I would help my novice welder-slash-handyman grandfather and his neighbors with small welding projects and repairs to his tractor and trailers. I knew I loved working with my hands but I didn't know what I wanted to do for a career until these experiences led me to the conclusion that welding was a good fit for me.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

7-9

Welding Experience:
Tell us about any jobs where you've learned pipetrades relevant skills:

I haven't worked in the construction field outside of attending the carpentry program at NWTC. I'd have a lot to learn but through my work experience I have a good track record of being responsible and punctual.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I frequently help family with home renovation projects so I'm no stranger around some power tools. I've been through the carpentry program at NWTC but didn't pursue it out of the classroom. My work experience is primarily in restaurant industry so that could transfer to the skills of needing to be attentive and organized in a fast pace environment. Through that I've also become very attentive to detail to make sure service is up to standard. I believe these are qualities important in any job I take on to ensure all work is done to the best and fullest of my abilities.

NWTC Carpentry course, One year of college (basic credits)

What trades-related courses did you take in school?
What construction software or technologies do you have training in?
Any Safety Certificates:

First Aid / CPR

Add'l Details:
Why is an apprenticeship an attractive option to you?

I've always been a hands on learner because I very much prefer to see the work being done in front of me in order to understand it better. Books only teach you so much when you can't visualize the way their information is applied. Not only is it the way I learn best but I also have a situation in which I need to keep making money as I go to survive. Without a steady income bills would fall through which I can't let happen when my baby girl is being born this March. Developing skills and career while being payed is the best

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had gone to NWTC after a year of college and joined the carpentry program. Through experience in that I realized I didn't really enjoy doing it for work but while there I was able to visit various other trade programs to get more insight about the work they do. Plumbing and Electrician programs seemed a much better fit to me and I was much more interested. I've been hesitant to start and looking for an apprenticeship in the past due to frequently moving around Wisconsin for the past 3-4 years. Now things have changed and I have a child on the way this March. I won't be traveling as frequently and would like to build my career in pursuit of supporting that family along with my own self interest in the trade. It would mean the world to secure a future in plumbing.

Math-Algebra, Math-Geometry, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

Why an apprenticeship is a attractive option for me is how you get to work alongside with people who've been in the industry for 20 plus years. That is something I take pride in, having the opportunity to work with people with so much skill is such a fortune. You get to learn so much from them on how there are different ways to overcome obstacles while learning new techniques to overcome them. Opportunities like that don't come very often so getting front seats is the one of the best ways, for me, to learn different welding tips

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What interested me in a career of pipetrades was how fascinating it was, it was something that I've never heard of while being in high school and trying to figure out what I wanted to do after high school. 6 months in, and taking the NWTC welding classes definitely has drawn me in more and my involved to learn more and more about what type of welds are out there and the different techniques out on the field the people use to overcome problems that I wish to learn and to overcome as well.

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Stick - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, Flux Core - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

My current job I have now is production welding. I have learned many things such as power tool use, blue print reading, and adaptability to different welding methods. These skills I use on a daily basis to be able to do my job and are similar skills needed for pipe trades.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

An activity that would be transferable to construction trades would be time management on production and quality. I do a lot of time management at my current workplace now due to there being a set rate on parts. I also do a lot of reworking on parts that don't meet standards. I would consider these two to be activities at work as I do them on a consist basis, and uphold my own standards that go above company standards for I believe in only giving the best work at all times.

Add'l Edu. Details:

Associates in Arts & Science, Welding Industrial Technical Diploma

What trades-related courses did you take in school?

Welding, Math-Precalculus / Trigonometry, Math-Algebra

Why is an apprenticeship an attractive option to you?

An apprenticeship is a good opportunity to learn from someone who has more knowledge and skills. Their skills and knowledge would be an absolute asset to being a successful welder and being able to problem solve in a different mindset. It gives opportunities to improve my skills and what I may be lacking in and needing more help. With an apprenticeship I will have the skills and knowledge to further my career and one day lend it to another who may follow my steps.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

When I was in high school, I took a class for metal working and we did a bit of welding in the course. I had an interest in welding from that point on and continued to LTC for a Welding Industrial Technical Diploma to gain more exposure to welding. I have always heard about pipe fitting and did not find a job in that field nearby at the time of my graduation. I've always found pipe fitting and iron works to be a unique way learn to be a better welder overall. As these two types of welding are ones that never have exactly the same thing happening day to day. Keeping the workday more enjoyable and challenging.

What construction software or technologies do you have training in?

Any Safety Certificates:

Currently I build race cars both as a profession and as a hobby with that you face many obstacles to make sure your vehicle does exactly what you want it to do. It requires a lot of time and thought into planning and blueprinting what you need to achieve different outcomes and to overcome different hurdles and how to move past them in the best most effective way possible

Why is an apprenticeship an attractive option to you?

I feel as though an apprenticeship is the best possible way to really learn what it is to be successful in my career. I've always learned best hands on under the guidance of someone with actual how to and hands on experience vs the typical classroom setting. I feel like it's a much better way to set yourself up for success as often in trades the classroom application is much different than in reality or actual applications.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always had a drive towards fabrication. I have now spent the last year and a half working for a performance automotive shop and fabrication is one of the more involved and enjoyable tasks I do anything from even preplanning to fit around all sorts of objects in an engine bay to actual pie cutting and fit up all the way to actually burning it all together. It gets your mind going for hours to overcome obstacles.

Years of Full-Time Work Experience:

7-9

Welding Experience:**Tell us about any jobs where you've learned pipetrades relevant skills:**

As a truck driver for five years, I developed skills that apply to the pipe trades, including attention to detail, problem-solving, and working with tools. I maintained equipment, followed safety protocols, and managed logistics, all of which are essential in pipe work. My DIY projects have also given me hands-on experience with basic plumbing and home maintenance, further building my technical skills. These experiences have prepared me to learn and succeed in the pipe trades.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy weightlifting, DIY projects, golfing, and deer hunting, all of which have built skills useful in construction. Weightlifting improves my strength and endurance for physical work, while DIY projects sharpen my problem-solving and hands-on skills. Golf teaches patience and precision, and hunting requires discipline and adaptability, both important on a job site. These activities have helped me develop the physical and mental skills needed for construction work.

Add'l Edu. Details:**What trades-related courses did you take in school?****What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship is attractive because it provides hands-on experience while teaching property management and maintenance skills. After five years as a truck driver, I want a structured way to transition into a career with long-term growth. Learning construction and property maintenance will help me build skills for investment real estate while earning as I learn. This opportunity offers the perfect balance of education and real world application to reach my goals.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Looking to get into property management and want to learn all the skills associated with that.

Add'l Details:

Why is an apprenticeship an attractive option to you?

I want to learn on the job and achieve my goals through learning my skills. At my current job, I feel in my current position I could be much more valuable. I read blueprints and tell my guys what to do, yet my work has not been well recognized. I know in the Local 400, I will be put in positions that I can be better valued in. I also loved welding in high school. I took a lot of FVTC certified classes in 2D drafting, 3D drafting, welding symbols, and machining that I got tech credits for and I loved every minute of them.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

In high school, I was an apprentice for the Local 400 and now I'm wanting to get back into it because I miss the work. I worked at PSI in Hortanville and I loved the environment and my coworkers. I have friends in the Local 400 and they are very successful. I'm looking for a long-lasting and great career choice outside of concrete.

Why is an apprenticeship an attractive option to you?

An apprenticeship is what I want because it leads to a lifelong career of learning and becoming a professional in your field. I believe that my aptitudes are best suited for the trades because of the way I was raised and the skills I gathered and as a young man.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My background is primarily in residential construction. I learned a lot of valuable skills over the years and enjoyed that time greatly. My mid-twenties have been spent trying my hand at sales and seeing where that could take me. While it has been productive, I don't believe that it's really who I am and where my aptitudes are best suited. I want to get back to building real trade skills and becoming a professional. I have been working full-time while I completed a Welding and Fabrication Certificate from Gateway Technical College in Racine. I was immediately drawn to working with metals and after discussing with my instructors, we came to the conclusion that the pipe trades are the best place for me to grow.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), Plumber, Pipe Fabricator, Pipe Fabricator, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange), Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding., A little. No specific trade experience, but I have general skills in construction or welding

Years of Full-Time Work Experience: 4-6, 4-6**Welding Experience:**

STICK - Some knowledge, MIG - Some knowledge, MIG - Some knowledge, Flux Core - Some knowledge, STICK - Some knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

Most of my jobs I have worked never challenged me the way i believe the apprentice would only in the sense where I have always been put up against challenges and I work my way through them it has taught me to have good attention to detail, None

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have always been a hands on learner with a high drive to want to know what I'm tasked to do I enjoy a challenge where it requires me to use either myself or skill to get it done my high attention to detail with help me excel in the work place I always been hand on with all the mechanical challenges that came across me witch gives me a good sense of how to figure things out, I do small welding at home and work on various projects I put myself to at home

Shift Availability:

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights), Overtime, Full-time

Post HS Education:

No, No

Add'l Edu. Details:**What trades-related courses did you take in school?**

Math-Algebra, Math-Geometry, Welding, Metals, Woodworking / Woodshop, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?**Any Safety Certificates:**

First Aid / CPR, First Aid / CPR

Add'l Details:**Why is an apprenticeship an attractive option to you?**

It provides me a very good vision of a future and the drive I have I can see myself excelling to be a great addition to any team I'm up with, It will teach me skills required to become a skilled welder

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have been going from job to job finding myself stuck wondering if it would get me anywhere I get to any of the jobs I worked and give it my all and hold pride in the work I do but I feel the employers have not been providing me with the sense of future with them and I want to use my hard working ethic and drive to get things done to work for a place that provides high value to their employees, To have a career rather than a job

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Geometry, Math-Algebra, Welding, Woodworking / Woodshop, Drafting and Design, Building Trades / Construction, Welding

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am interested in pursuing and building a career in welding! My girlfriend suggested I look into an apprenticeship program because her grandfather, dad and brother all started their electrical careers through apprenticeship in the union! I want to build my skill and knowledge and be able to work well doing it!, I want to learn and gain experience.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I worked in Bay Shipping Marina in Sturgeon Bay doing basic welding. I am interested in Pursing a career in welding., I've worked for agency called PDS in Green Bay, WI that gave me work for Fincantieri Bay Shipbuilding (FBS). For the times I've worked for the shipyard I did some steel fitting work like torching and welding parts and I enjoyed. Only thing I didn't like about it was that it's a temporary job since it's through an agency. I'd like to take the next step and to try to make it a career.

I have my high school diploma from Preble High School in Green Bay, WI. If I can have a opportunity to get an apprenticeship I will make the most of it to make a good career as a steamfitter or pipe fabrication. Thank you.

Disciplines of Interest:

Pipe Fabricator, Steamfitter (Pipefitter), Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding., A little. No specific trade experience, but I have general skills in construction or welding

Years of Full-Time Work Experience: 10+, 7-9

Welding Experience:

Flux Core - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I did CNC work for about 8 years so I'm a little familiar with different metals., I've done a little bit of electrical and iron working, both are physically demanding and can be a hassle but learning to stay organized and on task.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I'm currently in tech school for welding and fabrication. Well just welding at school has improved my skills and knowledge for the trade., I usually just try and stay busy whether that's fishing or helping up around the house. Doing any type of work around the house helps with just understanding layouts of building.

Shift Availability:

Full-time, Weekends, 1st Shift (Days), 2nd Shift (Nights), Overtime, Full-time, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Other Relevant Courses & Certifications, Other Relevant

Add'l Edu. Details:

Currently attending FVTC in the welding / Fabrication program., I did a semester of welding introduction but couldn't finish do

What trades-related courses did you take in school?

Welding, Metals, Welding

What construction software or technologies do you have training in?

CNC, CNC

Any Safety Certificates:

First Aid / CPR, OSHA 10, First Aid / CPR, OSHA 10

Add'l Details:

Why is an apprenticeship an attractive option to you?

Because I can continue to learn for the best on the job and in the class work while also being able to afford my everyday life., Because I get to learn from people who have been doing it, being hands on and getting tips and tricks in the field where it counts most.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I love the welding aspect of the pipe trades. Definitely what I envision as my career., I love welding and did some tech schooling on welding.

Why is an apprenticeship an attractive option to you?

I would like to learn and make money at the same time given the fact I live on my own.

I also have a friend who is an apprentice through you guys and likes it., I'm a hands on learner, never did like learning everything straight from a textbook or online, so learning hands on and making money while doing so is the right thing for me

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Have been a painter, and did masonry since high school, and have seen many trades online that I would like to learn/ work, and wanted to find a career that I enjoy and can work in for many years to come.

I have a friend that has gone through this company and has an apprenticeship and talked highly of it as well., I've done, masonry, painting, worked in paper mills, always been interested in finding a career that I can rely on and find stability in with always having work.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter),
HVAC/R Service Tech, Plumber**Work Zones in Preference Order:**

Fond du Lac Area (Orange), Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:A little. No specific trade experience, but I have general skills in construction or welding., A little.
No specific trade experience, but I have general skills in construction or welding**Years of Full-Time Work Experience:** 1-3, 1-3**Welding Experience:****Tell us about any jobs where you've learned pipetrades relevant skills:**

Mudjacking it's far fetched from pipe trades, but it was still construction., n/A

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I've worked a construction job before(Mudjacking), & I learned a lot about working with people- customers & co workers. I'm a very good people's person so I know how to get along & get work done. I'm familiar with power tools, hand tools, ladders, etc. AND I AM A SPONGE WITH INFORMATION. But as hobbies, I don't do it as much as I'd like, but building things is fun & seeing things come along is interesting., I like to put together whatever I can. I like brainstorming with a team and getting a task done.

Shift Availability:

Full-time, 1st Shift (Days), Overtime, Full-time, 1st Shift (Days), Overtime

Post HS Education:

Add'l Edu. Details:**What trades-related courses did you take in school?**

Math-Geometry, Math-Algebra, Metals, Welding, Automotive Technology

Why is an apprenticeship an attractive option to you?

Stability & growth!! Get paid to learn & this is the type of work & knowledge that I can take outside of work.

What construction software or technologies do you have training in?**What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?**

I am currently a correctional officer. The work is stressful as is the schedule & hours. I want something stable & a place I can make good money whilst working & enjoy my work. I come from a family that have been in trades & they were always so eager to get me to get into one. And I wish I would have sooner. I'm looking to build a career & skyrocket from there & the pipe trade, plumbers & steamfitters trade is where'd I'd do it., I need a career & I've always considered doing an apprenticeship.

Any Safety Certificates:**Add'l Details:****Contact Information:**To speak with candidate #2258958, access your Candidate Request Tool at <https://pipetradecareers.com/contractors/candidates/WI400>**Additional Information:**If you have questions on candidates or the Pipefolio process, please contact:

What construction software or technologies do you have training in?

CNC, CNC

Any Safety Certificates:

First Aid / CPR, First Aid / CPR

Add'l Details:**Why is an apprenticeship an attractive option to you?**

I'd like to get right into the work field and possibly go to college later on the further my career, The apprenticeship program is nice for me because, I like the idea that you can be enrolled in both school learning your skills for the job and also be actively working on a job site as well. I also like that you don't have to pay into school much more past books and supplies coming from a lower income family that would help a lot.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I graduated high school and got an insulation job and watched as all the other crews did their part of putting the house together and was always interested in the plumbers, What interests me the most is working with my hands and watching the project build day by day. I enjoy knowing that I am a part of a crew who can work together and become something big.

Years of Full-Time Work Experience: 4-6, 7-9**Welding Experience:**

Flux Core - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge, Flux Core - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I have very good problem solving skills from diagnosing fitness equipment. In some cases there will be broken frame pieces that I have to weld to repair., I've worked in a couple of machine shops where I delt with grinding to prep parts or deburring. I also often weld frames of fitness equipment

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I currently travel to multiple homes a day doing house calls to repair fitness equipment. I feel as though the diagnostic, parts ordering and repair would be very similar to the hvac repair process., I weld up damaged frames on fitness equipment and then sell them. I've helped multiple friends open gyms by doing all the renovations ourselves. Including drywall, flooring and paint.

Shift Availability:

Full-time, Part-time, Weekends, 1st Shift (Days), Overtime, Full-time, 1st Shift (Days), Overtime
