Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter)

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

0

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Independent Machine Company, is a fabrication shop in Escanaba Michigan I have worked here through my senior year of highschool part time and have been full time for five months. I have learned common skills such as handling a grinder and sander with skill. I have worked with break press, bandsaw, robotic welder, skill saw, and air hammer. While working with metal daily I haven't done any pipe fabrication I work with sheet metal.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Mig/stick welding, practice 1-4g pad welds. Wood working

Shift Availability:

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights), Weekends

Post HS Education:

No

Add'l Edu. Details:

Why is an apprenticeship an attractive option to you?

Having a apprenticeship would boost my career goal of having a house by 25.

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Pipe welding, money, and experience

What construction software or technologies do you have training in?

Any Safety Certificates:

OSHA 10

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

7-9

Welding Experience:

TIG - Some Knowledge, Stick - Some Knowledge, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

A job where I've had to learn skills similar to the pipe trades was when I did commercial roofing, both jobs require stamina, strength, and working in various weather conditions. Precision and attention to detail are very important in both trades as well, where a small mistake can lead to major issues down the road.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy playing team sports still outside of work, whether it's bar league softball or volleyball I find they have strengthened my communication and teamwork skills. Being able to work efficiently with others and stay on schedule is important in construction.

Full-time, Overtime, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

No

Add'l Edu. Details:**What trades-related courses did you take in school?**

Metals, Welding, Math-Geometry, Math-Algebra, Woodworking / Woodshop

What construction software or technologies do you have training in?**Any Safety Certificates:**

OSHA 30

Add'l Details:**Why is an apprenticeship an attractive option to you?**

The main reason an apprenticeship is an attractive option to me is an apprenticeship provides a clear path for career growth, certifications, and long-term job security. Knowing that I'll be gaining skills that are in high demand and can't easily be outsourced gives me confidence in my future. I'm also intrigued by the structured learning environment, where classroom instruction supports the hands-on work, helping me grow both technically and professionally in a way that's immediately applicable on the job site.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had done trade work prior to this, and it interests me because tradesmen are the true backbone of everything, without them there is quite literally nothing. Specifically, I was drawn to the pipe trades because of the precision, challenge, and importance of the work. Whether it's plumbing, steamfitting, or welding, the pipe trades require a high level of skill and attention to detail, which I find rewarding. I also appreciate the variety of work environments and the chance to be part of essential systems that keep buildings and infrastructure running safely and efficiently.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Pipe Fabricator, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

4-6

Welding Experience:
Tell us about any jobs where you've learned pipetrades relevant skills:

In my past jobs, I've developed skills that will help me succeed in the pipe trades. Working as a cashier taught me accuracy, attention to detail, and how to stay organized under pressure, while delivery work gave me experience with time management, problem-solving, and handling physically demanding tasks safely. Both roles also strengthened my communication skills, teamwork, and reliability.

Outside of work, I also practice tattooing, which requires patience, steady hands, attention to detail, and precision—all qualities that carry over into working with tools

Tell us about any hobbies that have boosted pipetrade-relevant skills:

One of my favorite hobbies includes tattooing, I believe this to be very helpful with my hand eye coordination and strength with a steady straight hand

Add'l Details:
Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it allows me to learn a skilled trade while earning a living at the same time. I like the idea of gaining hands-on experience under trained professionals instead of just sitting in a classroom. It provides a clear path to a steady career, opportunities for advancement, and the chance to build skills that will always be in demand. I also value the mentorship and union support that come with an apprenticeship, because it means I'll be guided, challenged, and set up for long-term

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in a career in the building trades because I value hard work, hands-on learning, and being part of projects that create something lasting and useful. The trades provide stability, good wages, and the opportunity to constantly grow my skills while contributing to work that supports communities.

Specifically, I'm drawn to the pipe trades because they combine problem-solving with physical skill, precision, and teamwork. Pipe systems are essential for safety, comfort, and efficiency in buildings, so I like the idea of playing a key role in work that people rely on every day. The trade also offers opportunities for steady employment, advancement, and eventually building a lifelong career I can take pride in

What construction software or technologies do you have training in?

AutoCAD, CNC

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship appeals to me because I'm starting fresh in a new trade, and am looking for a place that will be able to provide training and patience as I start a new path in my life. I believe on-the-job training can be more valuable than school, especially in the trades.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I took an interest in the trades young because of my dad, who is a diesel mechanic. This interest continued in highschool, where I took any and all shop classes available to me. I also was able to get a job as a diesel mechanic at the same shop as my dad. After almost two years and taking diesel courses at NWTC, I realized it wasn't for me, and started looking for other trades to work in.

My first job outside of diesel mechanics was at a metal fabrication shop, where I was hired and put as an assembler. I had originally joined to weld so this was initially disappointing. However, while assembling, I was introduced to pipe fitting, where I was given a plan and the parts, and told to figure it out from there. I found it incredibly satisfying when it all came together, and I quickly excelled at it.

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

To gain knowledge and experience from individuals who have mastered the skills and have the tricks of the trade to pass down, while performing the actual duties of the job. An apprenticeship is basically learning the book knowledge by hands on, real world experience. Which in my opinion is the most raw way of education and learning there is.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Growing up, my father was a carpenter. Naturally I picked up an interest in tools and manual labor, not the most experienced but I do have a desire to learn and achieve. Then my family relocated and dad got involved in the trades pipe fitting, I would see books he would have and flip through them to see what his new thing was (this was during a young age). He inspired me to become a welder and learn a thing or two about a thing or two! Teach, train, and guide me. I will pick up fast, become efficient and skilled in anything I put my mind to.

Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?**Any Safety Certificates:****Add'l Details:****Tell us about any hobbies that have boosted pipetrade-relevant skills:**

I love working on house projects, such as building shelves, painting, and installing trim, as well as working on my car and learning how to be self-sufficient.

Doing things with my hands and learning while I try is very motivating for me. I use every opportunity to "get my hands dirty" to learn as much about projects as I can.

Why is an apprenticeship an attractive option to you?

The ability to learn while I earn and be able to start obtaining skills from day one is the largest attractive option for me.

I am also very drawn to learning from a journeyman and having that expert there that I can watch and absorb knowledge from.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have heard a little about the pipe trades since my uncle is a pipe fitter. I also really enjoy the idea of working with my hands and being able to build something lasting that I can be proud of.

I originally went to college, but have found that I am drawn to be in a field where I can help people and work in a team to accomplish something tangible together.

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

The ability to get paid while learning a new trade. I have two kids and my wife is a stay at home mom so taking time off work to go to school is not an option

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The amount of options for work. Also the high pay scale. I have been in the laborers 330 for about 10 years and feel that I have plateaued in a way and am not getting anything from it besides a wage.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me because it offers the opportunity to earn while I learn, gaining valuable hands-on experience under the guidance of skilled professionals. Instead of going into debt for a traditional college education, I can develop real-world skills in a structured environment that prepares me for a stable career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in pursuing a career in the pipe trades because it offers a hands-on, rewarding profession that combines technical skill, problem-solving, and long-term career stability. My main goal in life right now is career stability and to be able to put food on the table for my wife and child. I've always been more inclined to working with my hands because I love seeing the results of my work, for example, I work for a traffic safety company in Fond Du Lac and it makes me proud to see my work on the roads and highways whether it be from road signs I built or the many drums and cones I load onto trucks. My main goal in my professional life is growth. You will never go anywhere without learning and I intend to put in the work become a successful pipefitter.

What trades-related courses did you take in school?

Math-Algebra, Math-Precalculus / Trigonometry

Why is an apprenticeship an attractive option to you?

I like that I get paid to go to school and better myself is probably the most attractive thing. I think that apprenticeships are just the best way to learn though. It's so cool to be able to work and learn about things that are specific to your career unlike college where you have to take so many credits that might not have anything to do with your career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am currently an electrician for michels power. I have only been an electrician for about a year and only with michels for a couple of months, but everyone that I have worked with have all said that if they were to go back and do it again they would become a pipe fitter. With this in mind I am learning from them and applying to become one. It also sounds like they get paid more which is very nice the work is good and they have benefits which are all things that I want. I have also heard that the trades need people and so I want to be where I am needed.

What construction software or technologies do you have training in?

What construction software or technologies do you have training in?

CNC, Solidworks

Any Safety Certificates:

OSHA 10

Add'l Details:**Why is an apprenticeship an attractive option to you?**

I want an apprenticeship because I want to start my career in welding. I want to be able to be paid to learn, to be in a union, to have job stability and a life long career that also allows me to work with my hands. I have a passion for welding and want to make a living doing it but I'm not going to have all the tools right away and feel like my career would get off to a great start in the 400 with what you all can teach me.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What interested me is welding but also seeing the job stability, the satisfaction of seeing the work being used and playing such a big role in society today.

Add'l Details:

Why is an apprenticeship an attractive option to you?

Im interested in being trained and taught by someone with experience. I always enjoyed learning, and that's what I'm hoping to get out of this. Then, to be able to obtain my journey card and teach the next generation.

I have a youth apprenticeship certificate. Yet havent been able to expand because of layoffs. I was talking to a 600 union welder the other day and he really talked me into it

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Im looking for a change of pace. Ive been a structural shop welder for the past 5 years. Being a union welder has always been something I was curious about.

Id like to do a little traveling, working from jobsite to jobsite. Being stuck in the same shop doing the same thing day in and day out is getting really old.

Why is an apprenticeship an attractive option to you?

it offers the chance to learn a skilled trade through real, hands-on experience while earning a paycheck. The fact that apprenticeships often lead to stable, long-term careers with good pay and benefits makes it even more appealing. It feels like an investment in my future that I can be proud of.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on work where I can see the direct results of my efforts, and the building trades offer exactly that. I also value the opportunity for lifelong learning and advancement within the trades, and the strong sense of pride and community that comes from being part of a union or skilled trade network.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), HVAC/R Service Tech, Plumber

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core- Skilled, MIG - Skilled, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked for my dad in his construction company and he did everything so I have learned basic plumbing skills like fixing leaks and installing toilets, I've been working as a structural seam welder for the past 2 years in this position, I have learned welding in many positions, gaps, and procedures, I have full understanding of weld symbols reading Blueprints, measuring in imperial and metric measurements, competent in many types of metals like stainless, copper nickel, steel and aluminum

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have many hobbies, like rock climbing, puzzles, and wood working. I feel rock climbing contributes control, ability to think and work in unsatisfactory conditions. I believe puzzles enhance your problem solving skills, and using critical thinking skills. Wood working can contribute measuring skills, and reading comprehension of blueprints if you were to copy something you found online. I also enjoy art welding this could easily contribute to construction skills as welding is something you would do on a daily basis.

Any Safety Certificates:

First Aid / CPR

Add'l Details:
Why is an apprenticeship an attractive option to you?

You get paid to learn and people are expecting you to not know much instead of going into a job and being expected to do everything a journeyman can. You will get a more hands on training than basic book skills and how much you can remember on paper and I'm a person who is a hands on learner I can retain more information as someone physically shows me how it's done instead of describing it. Another reason is you really get to know the ins and outs of a trade with 5 years of training

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I got interested in the trades at a young age when I started working construction around the age of 15 and when I turned 18, I became a structural welder and I've loved it ever since. I'm very interested in the pipe trades because my lifelong dream is to become a rig welder on the pipeline, so I was looking into possibilities to get my foot in the door and I came across the local 400. I have spoken to a few people in this local and they seem to love it and that what brings me here today interested in applying for the apprenticeship for the steamfitters.

Contractor Notes:

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter), Plumber

Work Zones in Preference Order:

Fond du Lac Area (Orange)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:
Tell us about any jobs where you've learned pipetradese relevant skills:

I can't say ive worked a job that holds valuable hands on skills for trades. However,In my past jobs, I've learned to swork hard and stay focused, skills that are essential in the pipe trades. I've worked in fast-paced environments where teamwork and communication were key to getting the job done right.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy playing chess, staying active through sports and running, and working on basic car maintenance. Chess helps me stay sharp and think critically, planning several steps ahead, which is useful for problem-solving on the job. Sports and running keep me physically fit and teach discipline and teamwork, which are important in construction environments. Working on cars has given me hands-on experience with tools, mechanics, and how systems work, which all happen to be skills related to construction trades.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

Some 4-year college

Add'l Edu. Details:

So upon my college career I've majored in Geograhpy then switched to a Math Education major. I'm more drawn to classes

What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry

What construction software or technologies do you have training in?
Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it lets me learn by doing. I prefer hands-on work over sitting in a classroom all day, and an apprenticeship gives me the chance to earn while I learn a valuable trade. I like that I can build real skills. It's a practical, rewarding path that fits the way I learn and work best.

What interested you in a career in the building trades in general, and specifically, a career in the pipetradese?

I'm interested in the pipe trades because I enjoy hands-on work, problem-solving, and using my math skills in real-world situations. I'm drawn to the stability, high earning potential, and the chance to learn a valuable skill that's always in demand.

Years of Full-Time Work Experience:

1-3

Welding Experience:

MIG - Skilled, Flux Core - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I'm currently working as a welder, and I've learned a lot that connects to the pipe trades. I'm used to working with different metals, reading blueprints, and making sure my welds are strong and clean.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

my free time I'm usually golfing, fishing, or snowboarding. I've noticed that these hobbies actually help with stuff that applies to the trades. Golf teaches me patience and how to stay focused when things get frustrating — kind of like when you're trying to get a weld just right. Fishing's helped me stay steady and pay attention to small details. Snowboarding keeps me active and has taught me to think on my feet and stay balanced, especially when things change fast, like on a job site. All in all, these things have helped me build good habits when working

Add'l Edu. Details:**What trades-related courses did you take in school?**

Welding

What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship sounds like a great fit for me because I'd rather learn by doing than sitting in a classroom all day. I like working with my hands and being active, so getting real on-the-job experience while learning the trade makes a lot of sense. It's also a solid way to build a career — you're earning while learning, and there's a clear path to move up.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in joining the pipefitter workforce because of my strong background in metal work and general welding. Over the years, I have gained hands-on experience with various welding techniques and working with different types of metals, which has given me a solid foundation in fabrication, precision work, and safety protocols. I believe these skills directly align with the demands of pipefitting, and I'm confident that my experience will allow me to contribute effectively while continuing to grow and learn within the trade.

I like the idea of learning by doing, not just sitting in a classroom. With an apprenticeship, I can build real experience on the job while also getting formal training from experienced professionals.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I first became interested in the pipe trades when a friend told me about steamfitting. I looked it up and thought it sounded like a great fit for me. Steamfitters work on important systems that keep buildings running, like heating and cooling. It's a job that takes skill, hard work, and teamwork, and I want to be part of something that makes a difference.

Why is an apprenticeship an attractive option to you?

Although I appreciate classroom learning, I learn best by doing. I think an apprenticeship will keep me excited about learning as I immediately use the skills I am learning. I also need to generate some income for myself as a new high school graduate, and this seems like a good way to both learn and earn!

Also, I have a cousin who is doing a diesel tech apprenticeship and he is enjoying it. They

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The reason why I am interested in the pipetrades is because I thought that I could learn how pipe systems work and how they are installed. I don't know a lot about how pipe systems work and I would like to learn and grow my knowledge in this trade.

I have taken a few welding classes (Fox Valley Technical College) so I know some things about welding, but I can still learn how it applies in the pipetrades. I am looking for work which will challenge me and that I do most of my life.

Learning a new trade, learning to become a leader, higher wages and benefits

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have worked construction as a carpenter for the past 4 years, not earning much for wages has caused me to want to look into the union, I have always been in hands on jobs and enjoy it. I have two friends that work as pipefitters and from what I have heard from them I think it would be a good fit for me.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

7-9

Welding Experience:**Tell us about any jobs where you've learned pipetrades relevant skills:**

The closest applicable position that I have is as a Cabinet Maker at Gulfstream Aerospace in Appleton, WI. Although, the plumbing was handled by dedicated individuals.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I play bass in an independent rock band, and have experience with cable management and soldering (not sure if that is applicable). I also am into collecting vinyl and vintage audio gear, and I have experience repairing equipment and low-voltage wiring.

Shift Availability:

Full-time, Overtime, Weekends, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Bachelor Degree

Add'l Edu. Details:

Bachelor of Arts in Digital Media (Valparaiso University 2016-2020)

What trades-related courses did you take in school?

Drafting and Design, Engineering, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Math-Calculus, Woodworking / Woodshop

What construction software or technologies do you have training in?

AutoCAD, Solidworks

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I've thought about going back to school for a career change, so the earn while you learn aspect is extremely enticing.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always enjoyed working with my hands, but was never really sure where to start. I found out about steamfitting through TikTok of all things. The earning potential is extremely exciting for someone like me who has goals of building a family.

Why is an apprenticeship an attractive option to you?

As I stated earlier, I'm looking to settle into a life long career and this is the option that appeals to me most.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am looking for a solid career path that doesn't involve sitting behind a desk. I have many family members in the trades, it pays well and it's hard, honest work. I talked to a lot of family members about a few different trades and think this would be the best fit for me.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience: 10+

Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

As an adult seeking a new career path, I am highly motivated to learn the field of pipefitting and committed to making a successful transition. I bring a strong work ethic, reliability, and the maturity that comes with life experience, all of which I believe are valuable assets in a hands-on, detail-oriented trade like pipefitting. I'm eager to develop the technical skills required, from reading blueprints to installing and maintaining piping systems, and I'm not afraid to start at the ground level to build a solid foundation.

Shift Availability:

Full-time, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Metals, Building Trades / Construction

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy working on hands-on projects like fixing things around the house, assembling furniture, and helping with basic plumbing repairs, which all relate directly to the skills needed in pipefitting. I've always had an interest in figuring out how things work and finding efficient ways to put things together, which has strengthened my attention to detail and mechanical thinking.

Why is an apprenticeship an attractive option to you?

An apprenticeship is important to me as an adult because it gives me the opportunity to learn a skilled trade through real-world experience while earning a paycheck. This practical, on-the-job learning approach is ideal for me because I'm ready to work hard, grow my skills, and move forward in a career that offers long-term stability and advancement.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I want to become a pipefitter because I enjoy working with my hands and solving problems in a way that produces real, visible results. The pipefitting trade offers a unique mix of physical labor, technical skill, and precision, all of which align with my strengths and interests. I'm drawn to the idea of building and installing systems that are essential to the function of buildings, factories, and infrastructure.

Another reason I want to pursue a career as a pipefitter is the opportunity for long-term growth and stability. The trade offers strong job security, excellent wages, and the chance to continue learning through on-the-job experience.

Add'l Details:

Why is an apprenticeship an attractive option to you?

The biggest thing is definitely not being in debt. That's a big worry for me and I would love to be able to do a job where I can get the education I need but without having to be in debt. Another reason that the apprenticeship option is my first option is because I just like the idea of being able to do hands on education other than sitting in a room with a bunch of other people learning and doing stuff on a computer. Other than being able to get my hands dirty and really learn.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had done the tweet garot summer program where I got to do all these different trades, and meet all these people that revolved around my area of work that I want to get into. I got to do a mixture of welding,electrical,HVAC, and also a little bit of plumbing. Overall the experience was great and I found that I really love welding and i I would like to do this as my future career.

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core- Skilled, MIG - Skilled, TIG - Skilled, Stick - Some Knowledge, Stick - Skilled

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked at Mechanical Technologies inc. for a year as a laborer and mostly worked with the sheetmetal workers. I helped build, install, and take down ductwork. I also drove materials to job sites including ductwork, pipe, and HVCA units. Currently, I work at Fox Valley Metal Tech as a welder. I do a little bit of everything there as far as steel, stainless, and aluminum. Most of my work experience there is flux core, Tig-steel, Tig-aluminum, and thin Tig-stainless. I also read the blueprints to build the parts.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

The time I spend outside of work is usually in the garage maintaining my personal, family, and pleasure vehicles. I have never gone to a mechanic because I believe that I am capable of doing I out my mind to and every time I finish a project my confidence keeps building. I also fish quite a lot in the summer which shows patience and perseverance no matter how bad the bad has been. For the most part I am self taught and learn for my mistakes throughout the projects I do or life.

Full-time, Overtime, Weekends, 1st Shift (Days)

Post HS Education:

Associate Degree

Add'l Edu. Details:

Welding Associate Degree - NWTC

What trades-related courses did you take in school?

Welding, Math-Precalculus / Trigonometry

Why is an apprenticeship an attractive option to you?

I want to learn for professional that are certified and all go by the same book. I also like the thought of schooling through work. Being able to do both and get paid is a huge benefit compared to going to school in the morning then working through the night. I also like that most of the apprenticeship is paid for, so there is less financial strain and can focus on my education.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always considered joining the local, but I ended up going to NWTC for the welding program and tried working in a fab shop (Fox Valley Metal Tech). I worked there throughout school and talked with Doug Tennen about the trades and it seems to aligned with my interests the most. There are a few things that have moved my decision to the trades. The big one is welding, I like welding it has been something I've enjoyed learning and still learn new things everyday. I have also like the idea of being in a union where there are more worker rights and better wages. The time I have spent in a fab shop, everyone is paid different and what seems to be the most frustrating is when new hires with less experience are paid more than you. I like the idea of a minimum wage as an apprentice or journeymen.

Automotive Technology, Metals, Welding, Woodworking / Woodshop, Math-Algebra

What construction software or technologies do you have training in?
Any Safety Certificates:

First Aid / CPR

Add'l Details:
Why is an apprenticeship an attractive option to you?

I've had a high school meeting with local 400 and the benefits sounds really good.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I started catching on more about welding during my high school years. I've always liked the idea of building or creating something tangible and lasting through hands-on work. I'm drawn to the physical nature of the work, the problem solving on the job site and doing it with a team.

Additionally, I feel as if the building trades offer a strong sense of purpose and stability. These careers are essential to every community, providing structure we depend on daily. Roads, homes, and lots more. Hands on work is something I've love doing because it shows personal pride in craftsmen, and the ability to make a meaningful contribution to society.

Why is an apprenticeship an attractive option to you?

I want to be able to learn the skills properly and efficiently to industry standards allowing me to become a better welder and to see true career growth opportunity and let's be honest who doesn't want to make more money while building up your skill?

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grow up in the trade world, my father is an electrician with Van Ert. I got more into the welding side because of my brother he showed me the ropes and turns out I've got some skill I'm mechanically inclined, I've had a wrench in my hand since the day I was born.

What construction software or technologies do you have training in?

Solidworks

Add'l Edu. Details:**What trades-related courses did you take in school?**

Welding, Metals, Math-Algebra, Woodworking / Woodshop

Why is an apprenticeship an attractive option to you?

Because for me, it's a chance of starting a career one that I can work in the rest of my life. while providing for my family. And getting the training needed to keep advancing and a great chance for improvement in a hard-working field. Growing up my father always told me to learn things so that we could help others so I've been trying to do that my whole life and now I want to excel at this so that I can always help.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My uncle has been in the trade for as long as I remember. He's been talking about for so many years and how it could be a good thing for me to help take care of my family and build my own family. I've always enjoyed hands on work and I know it time for me to start a career. This is the place for me.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me due to the fact that I've always thought about becoming a trades man. Throughout my whole life I've always wanted to be a welder/plumber but never met the requirements for it. I think I would have a great chance working as one climbing up the ranks throughout my career in the trades

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Honestly the design the well looked environment when it gets down to work. Since I was young I've always liked to work in general. I'm currently 17 and I am a early highschool graduate I would like to work in the trades for my future

I like to work with pipes also plumbing would like to know more about it as well. I believe I have a strong passion in me coming out for trades such as plumbing as well as welding. There's a lot of trades out there but in special these 2 are the ones that interest me the most

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Pipe Fabricator, Steamfitter (Pipefitter), Plumber

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:**Tell us about any jobs where you've learned pipetrades relevant skills:**

The closest job I had would be landscaping I had to work precisely to make sure things turned out perfect the first time around it also involved a lot of driving and hard working labor. Im also very comfortable with waking up early and having longer work days. I also worked in another landscape company but as more of a yard guy taking care of different projects putting things together and and helping out everyone on the yard .

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Well currently I work in a kitchen with knives I'm fast and steady having to butcher a lot needs a lot of precision and common sense to work good and efficiently. A lot also involves thinking fast and coming up with solutions for problems that may occur at anytime. I also have experience driving large work trucks used for landscaping and also operating skid steers and larger loaders.

Shift Availability:

Full-time, Part-time, Overtime, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:**What trades-related courses did you take in school?****What construction software or technologies do you have training in?****Any Safety Certificates:****Add'l Details:****Why is an apprenticeship an attractive option to you?**

The apprenticeship program at the local 400 was attractive to me for the opportunity to grow and learn more as the years go. I like to feel like I'm always improving my life as the years go. I don't like to feel like I'm wasting my life away and with this program I feel like it's a good career path that leads me to where I want to be in life. I can see there is an abundance of opportunity here. What really had me considering this as well was my brother who also works for the local 400. I can see how he is able to live a good life

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been a more hands on worker. I have also been looking for something where I can grow more so as soon as my brother told me about the local 400 and how it's a paid to learn program. It intrigued me a whole lot he brought over a folder with more information and from what I've read and seen I feel like the local 400 would be a good fit for me. Pipe trades is something completely new to me but I've always been a fast learner and I like to do things fast and the right way. I feel as long as there is someone willing to teach me the right way I will make a good part of any team. My managers and past foremen would also always say how I was a good worker and pick things up quick. I'm excited and ready to work and learn about the pipe trades.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

7-9

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Assembler at Pierce manufacturing for 7 years.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have good mechanical and hand tool knowledge and have Assembled fire trucks for the past 7 years. I am Restoring a vintage tractor from the 1930's which proves difficult because I'm having to fabricate some smaller parts.

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

Some 2-year college

Add'l Edu. Details:

Technical Diploma in Horticulture

What trades-related courses did you take in school?

Math-Algebra, Math-Geometry

Why is an apprenticeship an attractive option to you?

It allows me to work and learn and make a living. I learn better by doing things with my hands.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I want to learn something that I can "own" and be someone that people can come to because of my expertise.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

What construction software or technologies do you have training in?

CNC

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

It appeals to me since I've already gone through and apprenticeship during high school at Fox Valley Tool and Die and I learned a lot of skills and lessons from the let's say old timers at work that I can use anytime

And as an apprentice you can get the most experience working in every field getting skills in every process making yourself more valuable to your company until you get

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I got interested in the pipetrades because I like to work long hours and be able to travel to do work on site. I've always liked to do the work nobody else wants to do. My first job when I was 14 working on a farm also helped steer me in the direction of the trades. I have coworkers at my current apprenticeship that used to be pipefitters and I've heard a lot from them about the job that I said I'd love to do

One thing I like about working in the building trades is you get to learn a lot of skills and lessons from the veteran workers. The most important thing I've learned from being in the trades is to slow down, don't slow down the speed you're getting the work done but slow down your thinking. Make sure everything is done right before you do it so the company doesn't have to spend money that doesn't need to be spent redoing your mistake

What trades-related courses did you take in school?

Automotive Technology, Drafting and Design, Math-Precalculus / Trigonometry

What construction software or technologies do you have training in?

Inventor

Creo Parametric

Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

I enjoy the concept of learning and getting compensated for it. I enjoy proving to employers that I can perform for them.

I was a youth apprentice when in high school, and although I didn't enjoy what company I worked for, I realized the value of an apprenticeship. I knew at some point in the future I would explore other apprenticeship opportunities.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I began my trade career working for an independent contractor doing home remodeling. I found satisfaction in the finer details, and looking back to see a job well done.

I do car exhaust work as a hobby, and enjoy welding. I believe a career in the pipe trades would be something I find rewarding and enjoyable.

Tell us about any jobs where you've learned pipetrades relevant skills:

I have not had any jobs that were applicable to the pipe trades. I have only done it in college.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

At home, me and my dad do wood working. Whether it is bird houses to arbors, from raised garden beds to small green houses, I've been working with my hands since I was 5 years old. In high school, I did cabinet making, metal fabrication, and welding. In metal fabrication, we built toolboxes and different forms of shelves. In welding, I helped build fire pits and portable grills. Some of the grills were welded together, then some were not. In college, we also did blueprint reading. So, I have skills in reading different forms of blueprints including pipe blueprints.

Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

The reason why an apprenticeship is an attractive option to me is because I want to open my mind to learning more on the pipe trades and possibly get a job working in the pipe trades.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up working in a shop learning how to build things with wood. Later on, specifically in high school, I got into welding. I used to do some welding on my family's farm on the side but, got very into welding in high school. I started to do more with stick (SMAW), MIG (GMAW), and TIG (GTAW). As I got more into welding, I decided that I wanted to do it as a job. I started talking to people who came to the trades fair we held at school and came to the conclusion that welding was the way I wanted to go.

In college, I asked my instructor if I could try pipe after I got done with pipe to plate with TIG. He said yes so, I did it and thought, "This is something I could really do for a job." I started to practice more and more as time went on. I really got into it when we went to the Local 400 for a tour.

Why is an apprenticeship an attractive option to you?

I feel that it would help me learn more about the trade I wish to go into. You can read all the books you want to but it can't compare to learning from someone who has already made that mistake or has found a better way of going about solving a problem. Having an experienced mentor gives the student or apprentice a better understanding of that material, they are able to ask more questions with better answers than finding them in a book or online. Personally I see myself as someone who learns better hands on and

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I hadn't had a lot of experience in highschool just a couple of odd ends on the farm. However I went to the tech and took a welding class and had so much fun. I graduated the program and got my certificate. I am now looking forward to the next step in taking classes to get into the position that I feel I'd have the most fulfillment doing.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, HVAC/R Service Tech, Pipe Fabricator, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I was working insulation installing so I'm pretty familiar with the work environment

Tell us about any hobbies that have boosted pipetrade-relevant skills:

Shift Availability:

Full-time, 1st Shift (Days), Weekends, Overtime

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Woodworking / Woodshop, Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I'd want to learn more I'd feel more confident and think I could pick up a lot if I could be part of an apprenticeship program

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I was working construction installing insulation and I was always around that type of work environment just wanted to give something else a go and truly believe this is fitting to me

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core- Skilled, MIG - Skilled, TIG - Some Knowledge, Stick - Skilled

Tell us about any jobs where you've learned pipetrades relevant skills:

I learned a lot of skills from marinette marine shipyard that can be considered applicable to pipe trades. Specifically blueprint reading, metal fabrication, using grinders, hot work like welding, prepping and preparing the work-sight for hot work like taping off and using fir blankets.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have a lotta skills and hobbies that translate to pipe fitting and welding, like building custom go karts/buggies, mini bikes, and pit bikes all with high powered small engines. I do all the pipe notching by hand using an angle grinder, I use a pipe bender a lot for the frames I build. I recently just bought a tig welder and been using that more for the welding instead of mig.

Shift Availability:

Full-time, 2nd Shift (Nights), 1st Shift (Days), Weekends, Overtime

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Building Trades / Construction, Math-Algebra, Math-Geometry, Robotics, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?

Any Safety Certificates:

OSHA 10, OSHA 30, First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

I think the apprenticeship is a great opportunity for me to expand my skills and work towards a job that pays good and can go all across the country, instead of just being dedicated to one place that can slow down and lay people off.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What first interested in the building trades was my dad, as a child I would always help with his construction projects, and mechanical projects. Which lead me to finding a local contractor and helping out for my first job. What brought me to welding was at home I started building go karts, mini bikes, etc. I currently do have a job at marinette Marine as a welder. I would like to expand my skills on pipe, whether it's pipe fitting or welding I would prefer welding over the two but I like both. I've also done some fitting so I can read a blueprint pretty well. I think I would be a great addition to your crew.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter)

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core - Some Knowledge, MIG - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I am currently working at Marinette Marine I am a structural welder. I am using the Flux core process and just passed my seam test. They are going to be sending me to pipe school April 30th, but after pipe school I would like to take that knowledge and find a job through the 400. Before this I worked at a fab shop in Green Bay making trolley frames and that was mainly MIG and FLUX.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My main hobby I would say is riding horses. I think this helps me to be responsible. Also all of the hours I pour my heart and soul into making them perform at the level I desire. It makes me feel proud of the outcome of their training. I think this boosts my skills in the construction trade because you put so many hours into a project and feel accomplished and proud of all of the hard work you put into it.

Shift Availability:

Full-time

Post HS Education:

Other Relevant Courses & Certifications

Add'l Edu. Details:

Welding certifications through NWTTC

What trades-related courses did you take in school?

Welding, Math-Algebra, Metals

Why is an apprenticeship an attractive option to you?

I think this would be a great opportunity to advance my knowledge on the career I would like to further in. This gives me the chance to still be able to work and learn more. I am the type of person that loves to learn new things about the career I am in. I have a couple friends that are in the apprenticeship already and tell me that they love it. I would also love to gain more knowledge on TIG as that is the process of welding I would like to do.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy being being able to see the outcome of products that I put value and pride in. I decided to become a welder because I wanted a hands on job and something to do in the trades. I also love the wide variety of different things that I have the chance to build. For example I work at Marinette Marine currently and I think it is really unique on how everything works on building a navy vessel. I am just a structural welder and I would love to further a career in the pipe trades as I would love to become a great big welder. I would say I am definitely the type of person that loves to learn.

What construction software or technologies do you have training in?

Add'l Details:

Why is an apprenticeship an attractive option to you?

A welding apprenticeship is an attractive option because it offers hands-on experience while earning a paycheck, allowing me to learn the trade without taking on student debt. Apprentices work under the guidance of experienced professionals, gaining practical skills in real-world settings that go beyond what can be taught in a classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Welding is my dream job because it combines precision, creativity, and hands-on work in a way that few other careers can. I've always been drawn to working with my hands and building things from the ground up, and welding allows me to bring metal to life through heat, skill, and focus. It's a skill that's in demand across many industries, and I like the idea of having a trade that offers both stability and flexibility. Welding isn't just a job to me it's a craft I'm passionate about mastering, a career where I can keep learning, improving, and leaving a lasting mark through every weld I make.

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

7-9

Welding Experience:
Tell us about any jobs where you've learned pipetrades relevant skills:

The majority of my experience has been in healthcare. So the most applicable skills would be systems based thinking, problem solving, team leading and communication.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have functioned as a member of high pressure teams in the surgical world as an RN. This would translate to functioning with high standards and professional work ethic as a steamfitter. In my spare time I love working on guitar maintenance including soldering. The ability to read, follow and execute a schematic with the enjoyable result of a well functioning guitar or bass relates to the ability to read blueprints and then execute them when welding.

Shift Availability:

Full-time, Part-time, Weekends, 1st Shift (Days)

Post HS Education:

Bachelor Degree

Add'l Edu. Details:

I have a BSN from Milwaukee School of Engineering. I have a BS in research psychology from University of St. Andrews.

Why is an apprenticeship an attractive option to you?

I am a kinesthetic learner. For me I do not learn in abstraction but by observing and doing. An apprenticeship would be the ideal learning environment where I am immersed in the field and getting hands on experience.

What trades-related courses did you take in school?

Math-Algebra

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I would love to enter a field where I am working on projects that require competency and I can see the finished results of my labor. The level of skill required for steamfitting interests me because I like learning and bettering myself so a field that requires high standards would encourage me to be my best.

Some 2-year college, Other Relevant Courses & Certifications

Add'l Edu. Details:

OSHA 10, OSHA 30, and will have a certificate in Industrial Pipefitting from Lively Technical College in Tallahassee, FL on

Why is an apprenticeship an attractive option to you?

I would like to gain experience with my new skills, and learn to be the best. The UA apprenticeship puts out top tradesmen while maintaining a pro worker mentality. Those are both great reasons to pursue an apprenticeship.

What trades-related courses did you take in school?

Woodworking / Woodshop, Building Trades / Construction

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grew up in a blue collar household where working with your hands was a prerequisite for adulthood. I was raised to not shy away from, but to value a good days work.

I grew disillusioned with management, and looked for a new trade that I could enjoy while making a good wage. My cousin recommended that I look into Pipefitting or welding as he is out of the Augusta local as a traveler.

I signed up for the Industrial Pipefitting course at the local technical college, and was hooked.

This is a fascinating line of work with so much opportunity. I'm excited to learn more and to possibly be a part of the brotherhood.

What construction software or technologies do you have training in?

Why is an apprenticeship an attractive option to you?

Seems like a good opportunity to get hands on training, that's the best way I learn, showing me what to do is a lot easier than sitting me down and telling me what to do. If you show me how you want it done that's the way I'm going to do it.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I started welding in high school had intentions to go to college for it , but sadly I didn't I took an opportunity to work for a farmer because I needed the money at the time and never looked back at it, I worked there for 6 years before I came to realize that it wasn't a good life decision and they were not going to help me succeed and thrive. moved on and tried otr highway construction pouring concrete for a few months but got a sour taste put on my toung due to non consistent work and having to pay out of pocket for somewhere to sleep. I currently am employed as a media blast technician and I don't for see a good future with the amount of effort I put in , I feel not respected where I'm at. So I started looking at other options I'm looking at ether you or nwtc for a 2 year class.

Easy, an apprenticeship means im under qualified personel, makes for an easier and safer learning experience around hazerdous conditiouns, all around makes is more enjoyable too not just be cast too the wolfs

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Enjoy big industrial stuff so figgur goin and putin it together auta be interesting, already use too dangerous work so being next too even most dangerous stuff realy dosent phase me so could be a decent hand on a crew, have welded befor in the high school program but havent used a wand nore a torch in years may be a bit rusty but im sure once i getta turn n burn ill get the hand for it agein. Being honnest was interested in joining the union back in high school but ended up getin a job for CNC machining insted, rode with that for a wile, but want a change, hoping this change is what i need for a long fulfilling career

enjoy hobbies like woodworking, minimal maintenance work on my car and DIY home improvement projects, which have helped me develop problem-solving skills, attention to detail, and a strong sense of how to work with tools and materials—skills that are directly transferable to the construction trades. I'm a visual and hands on type of learner.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me because it offers the perfect balance of hands-on learning and practical experience. I appreciate the opportunity to learn directly from experienced professionals while earning a living. This approach allows me to build a strong foundation of skills and knowledge in a real-world setting, which is much more valuable than classroom-based learning alone. I'm excited about the chance to develop my expertise over time, learn from mentors, and work on actual projects that contribute

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in a career in the pipe trades because it's an industry that is essential to many sectors, from construction to energy, and it's one that is only going to keep growing. As the demand for infrastructure and new construction continues to rise, so do the opportunities within this field. It's a career where I can build valuable skills, contribute to critical projects, and enjoy long-term stability and growth.

Add'l Details:
Why is an apprenticeship an attractive option to you?

I've always been a hands on learner because I very much prefer to see the work being done in front of me in order to understand it better. Books only teach you so much when you can't visualize the way their information is applied. Not only is it the way I learn best but I also have a situation in which I need to keep making money as I go to survive. Without a steady income bills would fall through which I can't let happen when my baby girl is being born this March. Developing skills and career while being payed is the best

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had gone to NWTC after a year of college and joined the carpentry program. Through experience in that I realized I didn't really enjoy doing it for work but while there I was able to visit various other trade programs to get more insight about the work they do. Plumbing and Electrician programs seemed a much better fit to me and I was much more interested. I've been hesitant to start and looking for an apprenticeship in the past due to frequently moving around Wisconsin for the past 3-4 years. Now things have changed and I have a child on the way this March. I won't be traveling as frequently and would like to build my career in pursuit of supporting that family along with my own self interest in the trade. It would mean the world to secure a future in plumbing.

Why is an apprenticeship an attractive option to you?

Because I want to be able to learn and apply a new skill set to a specific task. I also believe this apprenticeship program is a good opportunity to learn about the company and grow along with it.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in learning a vast set of skills and techniques to improve on my knowledge of the trades. Also want to be able to grow within the company over time.

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am interested in pursuing and building a career in welding! My girlfriend suggested I look into an apprenticeship program because her grandfather, dad and brother all started their electrical careers through apprenticeship in the union! I want to build my skill and knowledge and be able to work well doing it!, I want to learn and gain experience.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I worked in Bay Shipping Marina in Sturgeon Bay doing basic welding. I am interested in Pursing a career in welding., I've worked for agency called PDS in Green Bay, WI that gave me work for Fincantieri Bay Shipbuilding (FBS). For the times I've worked for the shipyard I did some steel fitting work like torching and welding parts and I enjoyed. Only thing I didn't like about it was that it's a temporary job since it's through an agency. I'd like to take the next step and to try to make it a career.

I have my high school diploma from Preble High School in Green Bay, WI. If I can have a opportunity to get an apprenticeship I will make the most of it to make a good career as a steamfitter or pipe fabrication. Thank you.

Why is an apprenticeship an attractive option to you?

There is always a high demand in jobs. There is a lot of room to grow and learn. I like hands on work and being active aswell as problem solving to get the job done right., There is always room to grow and learn, There's always room to grow and learn new things aswell and traveling while working and I want to go back to school but don't have the funds for it

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always enjoyed welding and theirs always room for improvement in this field. Theirs a lot of room to grow in this career and become successful. I have been reffered to join the union by mutuals. I like how there is a high demand in this field and I like the thought of always having work., I went to school for welding have currently been working at a shipyard in sturgeon bay doing flux core. Local 400 is also up there working HMI pipe welders I have talked to a couple guys and I would like to learn more about this field., Currently working at bayship and was talking to a couple of the guys from HMI w local 400 and seem really interested in making the switch from mig to tig

Tell us about any hobbies that have boosted pipetrade-relevant skills:

One of my hobbies is fishing, when going fishing it helps with my patience. When you are out on the lake you can not rush and you have to stay calm and under control. With this hobbie I have transferred this to my daily life.

Another hobbies I have to weight lifting. With this hobby it works on my mental strength and physical strength. I have to have the mental power to do more and push my limits to get better. With pushing myself it helps me physically, I have been able to get stronger and be able to lift more than I thought I ever would., I enjoy doing small home projects

Why is an apprenticeship an attractive option to you?

I want a good way to jump start my career. This is a great way start and advance my opportunity. I have heard great things from people I know about this program. It is a great way to improve my skills and learn new things. I am willing to push my self to get better., An apprenticeship is a good choice for me because I can learn the trade while working and earning money. I like that I can get real hands-on experience instead of just learning in a classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

When I was in high school I took a welding class. I enjoyed the class and excelled in lots of the skills. After that class I always thought about it and how I would love to have a career in this industry. I have tried different jobs and I have always came back to this. I know this is something I would enjoy and stay with long term., I have always been drawn to hands-on work that combines problem-solving, technical skill, and tangible results. The building trades, in particular, offer the satisfaction of creating something lasting and essential for communities. I admire the teamwork, precision, and pride that go into every project, and I value the opportunity to develop specialized skills while contributing to infrastructure that people rely on every day.

Specifically, the pipetrades interest me because of their critical role in keeping buildings functional and safe. From installing complex systems to ensuring they operate efficiently, the work requires both technical knowledge and attention to detail. I'm motivated by the idea of working in a field where my efforts directly impact public health safety and

Stability & growth!! Get paid to learn & this is the type of work & knowledge that I can take outside of work.

What trades-related courses did you take in school?

Math-Geometry, Math-Algebra, Metals, Welding, Automotive Technology

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am currently a correctional officer. The work is stressful as is the schedule & hours. I want something stable & a place I can make good money whilst working & enjoy my work. I come from a family that have been in trades & they were always so eager to get me to get into one. And I wish I would have sooner. I'm looking to build a career & skyrocket from there & the pipe trade, plumbers & steamfitters trade is where'd I'd do it., I need a career & I've always considered doing an apprenticeship.

Why is an apprenticeship an attractive option to you?

I'd like to get right into the work field and possibly go to college later on the further my career, The apprenticeship program is nice for me because, I like the idea that you can be enrolled in both school learning your skills for the job and also be actively working on a job site as well. I also like that you don't have to pay into school much more past books and supplies coming from a lower income family that would help a lot., I like the idea of being able to work on the job while at the same time being able to go to school and learn

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I graduated high school and got an insulation job and watched as all the other crews did their part of putting the house together and was always interested in the plumbers, What interests me the most is working with my hands and watching the project build day by day. I enjoy knowing that I am a part of a crew who can work together and become something big., What interests me the most is working with my hands, and being a part of a group where we can all work together and be efficient. A career in the pipe trades has always been my thing ever since high school!

I haven't really done much I've watched a lot of videos so I have some what of a understanding but the only experience I have is fixing my toilet at home and underneath the sink, Wisconsin builders supply I did lots of framing there it was mostly trusses. I read a lot of blueprints there and did a lot of measuring. I also am currently with holtger bros inc where I do fiber optic cable. I work underneath the power lines so we hang fiber on strand and then lash them both together so it sits tight on the pole .

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I exercise a lot and I lift weights about 5 times a week I also like to hangout with friends and relax and watch football and UFC and other sporting events., One of my hobby's I like to build tables and signs for my buddy's or even to keep for myself. I can relate that to construction because I use a tape measure and using a level to make sure everything fits well and looks good.

Shift Availability:

Full-time, Full-time

Post HS Education:

No, No

Add'l Edu. Details:

What trades-related courses did you take in school?

Woodworking / Woodshop, Math-Algebra, Math-Geometry, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?

CNC, CNC

OSHA 10, OSHA 10

Add'l Details:

Why is an apprenticeship an attractive option to you?

I work really hard and I love to learn and I'm always eager to learn more, Because I get too learn hands on and have someone teaching me something I'm actually very interested in and wanting to get good at. And not only it's something that's hands on it's a good way to make good money and be able to support my family and create a life.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have family that are in the trades and as a kid I've always had a big interest in plumbing and I'm really eager to learn this trade, I'm very interested in welding I like to read blueprints and I did a lot of research on pipe fitting and I wanna get started as soon as possible.
