Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

4-6

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

I was a carpenter in remodeling and I feel like measuring and finding correct angles for my cuts would be something towards the pipe trades.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I'm always tinkering on my vehicles or with my motorcycle when I get the chance too. I also do carpentry on the side, always building little projects/ remodeling

Shift Availability:

Full-time, 1st Shift (Days)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

OSHA 10

Add'l Details:

Why is an apprenticeship an attractive option to you?

I see an apprenticeship as a building block for my future and great way to learn a lot of experience head on.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have worked construction since ive been out of highschool. I have worked on cars/ motorcycles since I've been 16. My experience Ranges from construction material testing, carpentry, soil drilling and being a blaster. I have an interest in this path because it seems like a good career to be hands on in and a lot I can learn.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Pipe Fabricator, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

10+

Welding Experience:

MIG - Some Knowledge, Flux Core - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

At my current employer there is need to understand drawings and schematics for electrical assemblies. I am also certified to operate a forklift.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My main hobby would be a small hobby farm. Some of skills I have that would transfer over would be accountability, chores need to be done everyday. Problem solving is another transferrable skill, everything isn't going to go exactly to plan and you need to be able to solve problems and figure things out. I also do some light welding on equipment when it breaks. These would be some of the skills I feel a future employer would find transferrable to construction trades.

Shift Availability:

Full-time, 1st Shift (Days), Overtime

Post HS Education:

No

Add'l Edu. Details:**What trades-related courses did you take in school?**

Welding, Metals

What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

The apprenticeship is attractive to me for the fact that it is on the job training as well as in the classroom. I feel I am better able to learn by having hands on experience as well as in the classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have been in manufacturing for the past 14 years. I am looking to learn a skill. I took welding classes in high school but didn't pursue it after graduation. I am looking to join a trade where I can learn new skills and abilities. Welding and Fabrication is a skill that I would like to learn to proficiently.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

None. Nothing even close-but I'm a hard worker and willing to learn!

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Working alongside my handyman father, he has worked residential plumbing jobs in which i have watched and helped him problem solve and complete these jobs

Tell us about any hobbies that have boosted pipetrade-relevant skills:

My dad is a self employed handyman in the area. Growing up I have always tagged along on different types of jobs he was tasked with. This has helped me get a basic understanding of construction trades.

Shift Availability:

Full-time, 1st Shift (Days), Overtime, Weekends

Post HS Education:

Some 4-year college

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra

Why is an apprenticeship an attractive option to you?

As I previously mentioned, being that my father is a handyman I have always been in work environments where I don't know exactly what to do but i'm open and eager to learn. An apprenticeship requires you to do the same and I find that to be a good option for me.

The work while learning aspect of an apprenticeship is also an attractive reason for me. Being able to help my family out financially while also expanding my knowledge off and on the job site is honestly very important to me.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always had a passion for learning and physical work

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow), Appleton Area (Green)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

0

Welding Experience:

Flux Core - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge, MIG - Skilled, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

Worked in a sign shop as a metal fabricator for 9 months and improved my proficiency in MIG welding, fabrication, and blueprint reading.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I enjoy working out which will help me with heavy lifting which is sure to be encountered in the trades. I make small MIG and stick welding projects on the side as a hobby which could boost my skills in fabrication and welding

Shift Availability:

Part-time, Full-time

Post HS Education:

Other Relevant Courses & Certifications

Add'l Edu. Details:

Currently enrolled in welding program at NWTC

What trades-related courses did you take in school?

Welding

What construction software or technologies do you have training in?

Solidworks

Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

Hands on training is 100% my style and the fact that most of the apprenticeship is on the job training was really enticing. Being paid to learn also helps and is more motivating to me than paying for classes.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in a career in the building trades because I enjoy working with my hands and making quality work that I can be proud of. I also like the benefits the trades offer.

AutoCAD

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

Being able to learn while working is what I look forward to the most

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Being able to work with my hands and brain is something I've always tried to find. Love being able to drive by an old site and know that I helped build that. Always trying to continue learning and gaining skills that are universal. My father was in the trades and I always looked up to him as a role model (iron worker) hopefully one day I can be someone's role model.

I currently work at WE Energies as a Gas Inspector. Some job responsibilities include helping and overseeing contractors who install new underground gas piping and service piping to customers' homes. Through this job, I've gained knowledge of customers' gas piping and other facilities piped into and out of their homes. I believe these skills will transfer to the pipe trades, providing me with prior knowledge and enabling me to jump-start my learning.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I assist my dad with various construction projects around the house and help with miscellaneous farm work. These projects have helped me gain a basic understanding of various trades and develop problem-solving skills. As well as gaining a strong work ethic, learning to never give up, and asking for help when needed. I believe these skills will transfer to the construction trades and help me excel in the field.

Shift Availability:

Full-time, Overtime, Weekends, 2nd Shift (Nights), 1st Shift (Days)

Post HS Education:

Other Relevant Courses & Certifications

Add'l Edu. Details:

I have a Technical Diploma from Moraine Park Technical College in Gas Utility Construction and Service.

What trades-related courses did you take in school?

Math-Algebra, Welding, Metals, Automotive Technology, Math-Geometry

What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship attracts me because I want to learn a trade and earn money while doing so. An apprenticeship offers me the opportunity to learn both in the field and in school while getting paid, without incurring a large amount of expenses. An apprenticeship also offers a bright future, being able to gain a Journeyman's card, Union benefits, and job security.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in the pipe trades because I want a strong career with a positive future ahead of it, and a job I enjoy going to every day. I enjoy working with my hands and being able to travel for work. I believe the pipe trades can offer me everything I am looking for.

I want to get into the union and that's one way to get in. You got to work hard to achieve what you like. I believe I've always been a hard worker through everything I've done in life

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always wanted to be in the trades. I could never sit down at a computer for hours on end. I feel like I was made to work outside or in a trade my whole life

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange), Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Tell us about any jobs where you've learned pipetrades relevant skills:

Missouri Department of Transportation where I did maintenance, I had some projects where we re routed piping from our salt tanks to get to our trucks easier.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I currently don't have specific hobbies that relate directly to pipe-work, but I've always been a go-getter and someone who loves adventures, as well as learning. Some of my hobbies include riding motorcycles, snowboarding, doing yard work, and being out in nature in general.

Shift Availability:

Full-time, Weekends, Overtime, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

Bachelor Degree

Add'l Edu. Details:

What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry, Metals

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

Because it gives me a chance to learn, which is my number 1 thing that keeps me going in life; I crave constant growth.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I love the hands-on work, as well as the comfort in a stable career.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), Pipe Fabricator, HVAC/R Service Tech

Work Zones in Preference Order:

Appleton Area (Green), Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core - Some Knowledge, MIG - Skilled, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

Auto body repair and refinishing technician- i learned how to precisely measure, cut and fit body panels like quarter panels and bed sides and repair frame damage. To do this I learned how to accurately use tram gauges, tape measures, and calipers. I prepped and welded panels onto vehicles and welded structural supports. Used estimates, repair procedures, wiring diagrams, frame measurement diagrams, and technical data sheets to properly repair vehicles. I also gained proficient use of hand tools and power tools.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

One hobby is show water skiing, for the last 9 years I've skied on a team. This includes solo and team acts. Skiing is very physical and requires a lot of attention to detail and patience both on water and off. It also gives me a high safety awareness due to the equipment and sites that need to be maintained and checked over every time I go out on the water.

I also enjoy working on my cars, using tools, knowing what I need. It also helps me troubleshoot problems and understand how things fit together and work with or without

Shift Availability:

Full-time, 1st Shift (Days), Overtime

Post HS Education:

Some 2-year college, Other Relevant Courses & Certifications

Add'l Edu. Details:

Technical diploma for Auto collision repair and refinishing technician - Fox Valley Technical College I-car MIG welding

What trades-related courses did you take in school?

Automotive Technology, Building Trades / Construction, Electrical Trades / Electronics, Drafting and Design, Construction Technology, Math-Algebra, Math-Geometry, Math-Precalculus / Trigonometry, Metals, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?

AutoCAD, CNC, Inventor

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship program is a good option for me because I am a very hands on learner and it allows me to gradually improve my skills. My previous job allowed me to start as a youth apprentice and also work through a 2 year degree with a co-op. This worked well for me to be able to understand the skills I was learning while being able to use them which is a way that I personally am able to progress very easily.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Since High School I've known that I want to be able to work with my hands, being able to see the results of my work when I'm done. I have a background in auto body collision repair which gave me a lot of experience with welding, using hand and power tools and working with precision measuring to make panels fit. I really enjoyed the hands on and detailed side of the work. With the building trades I get the opportunity to use the same skills I have but in a different scenario. Joining the pipe trades rather than sticking with auto body would allow me to keep the aspect of craftsmanship that I love but using it for something bigger.

Being able to make a living while learning my trade., Being able to make a living, while learning my trade.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I took welding classes in high school and it was the most fun I've ever had. I finished all of the courses that my school had to offer and then moved onto college level welding classes at Fox Valley Technical College, while still in high school.

Since I graduated high school, I've been working as a Department Manager at McDonald's, but I know that I'm meant to be a welder or steamfitter, I'm just not entirely sure where to start. One of my friends is in the 400 and recommended this opportunity to me., I took welding classes in high school and they were the most fun, informative classes I've ever taken. I completed all of the courses that my school had to offer, before moving onto college-level courses at Fox Valley Technical College, while still in high school.

Since I graduated, I've been working as a Department Manager at McDonald's, but I always knew that I was meant for more. I'm not the best welder but I know it's what I'm

What construction software or technologies do you have training in?**Any Safety Certificates:**

OSHA 30

Add'l Details:**Why is an apprenticeship an attractive option to you?**

It's the starting position I'm looking for after my associates of welding from Northern Michigan University, my friend also started his apprenticeship through the 400 and has enjoyed it so far.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I see the practical use in welding in being able to fix and build a lot of cool and purposeful stuff. I went through NMU's welding program and really enjoy all aspects of tig welding, the satisfaction is building a pipe spool or piping system correctly is like no other and is the kind of job I'm looking for.

Why is an apprenticeship an attractive option to you?

I am looking for a career and I enjoy learning new things. I also want to challenge myself to be the best that I can be and have the opportunity to provide for myself and my future family.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I really enjoy working in the trades because I like to see the work that I've completed at the end of the day and I take a great sense of pride in visibly accomplishing something. Specifically in the pipe trades I have enjoyed my time working as a plumber helper for a non union company but am looking for a different challenge and I have found welding to be intriguing since taking a class in high school but now I'd like to pursue it as a career.

Tell us about any jobs where you've learned pipetrades relevant skills:

I've worked two different fence company's doing both residential and commercial work from building backyard fences to cell towers. I know how to work with most basic tools and want to learn to operate bigger and better ones.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I know what it's like to work under pressure and I've learned how to adapt quickly to new environments

Shift Availability:

Full-time, Overtime

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Building Trades / Construction, Electrical Trades / Electronics, Math-Algebra, Woodworking / Woodshop

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Why is an apprenticeship an attractive option to you?

I am very eager to learn a trade that's going to help me and support me for a long time. An apprenticeship would let me learn skills from the best and get actual training hands on and not just in a classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had gotten a job building fences right out of highschool and that's what got me interested in the trades and I've had family members that have been in the trades. I don't have much knowledge about the pipe trades or about welding but I'm always looking for a new challenge and something new to learn.

Math-Algebra

Why is an apprenticeship an attractive option to you?

I like to learn new skills and feel comfortable while doing them. I recently became a home owner which has come with plenty of challenges around the house. I have leaned on my dad to show me how to do some minor plumbing fixes and electrical issues around the house. I learn best by being shown what to do and practicing at it. I feel an apprenticeship is right for me because it offers me the ability to learn with someone with experience and allow me to be hands on with the skills I am looking to learn.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

For years, I have worked jobs that trained me to problem solve, work with others, and handle day to day operations. Although I appreciate the experience they gave me, I am looking to move into a career. I am looking for the opportunity to develop a skill that I can use in and out of the workplace. As well as starting a career, my fiancé and I recently purchased a home together, and having the ability to better provide for my family is a very important aspect to me looking into this position

Add'l Details:

Why is an apprenticeship an attractive option to you?

The apprenticeship attracted me as I have grown an enjoyment towards welding and working on jobs that have me doing hands on work. After talking with family members and teachers, the apprenticeship seems like a great fit as it would be something I would find enjoyable.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in becoming a steamfitter because I have always had people in my life that inspired hands on activities and work. My grandpa was a machinist for many years, along with my cousin who steam fits for the local 400. They have impacted me to enjoy hands on jobs like working on cars and welding.

Another reason why I want to become a steamfitter is because I went to Neenah Highschool and they offered welding class at the school. I took as many of the welding classes as I could because I enjoyed the classes themselves but also it the fact that I grew a liking towards welding. It opened my eyes that even though something can be hard, it can also be fun to work around problem and difficulties you might face.

Tell us about any jobs where you've learned pipetrades relevant skills:

I haven't had a formal job yet, but I gained hands-on experience through welding classes in high school. I learned how to work safely, use tools properly, and follow instructions—skills that apply directly to the pipe trades.

I've also done small projects at home, which helped me build problem-solving skills and a strong work ethic. I'm confident I can apply these experiences to succeed in an apprenticeship.

Shift Availability:

Add'l Edu. Details:

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I've been interested in welding since high school, where I learned patience, attention to detail, and safety—all important skills for the trades. I also enjoy DIY projects, which have helped me get comfortable with tools and reading technical instructions.

Outside of that, I stay active through sports, which build my stamina and teamwork skills. These hobbies give me a strong foundation for the physical and collaborative nature of construction work.

Why is an apprenticeship an attractive option to you?

An apprenticeship appeals to me because it combines hands-on work with classroom learning, allowing me to earn while I learn. I appreciate gaining real-world skills from experienced professionals without the burden of student debt.

It also offers a clear path for career growth and stability in the trades. Being part of a union apprenticeship means quality training, benefits, and a strong support network.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in a career in the building trades because I enjoy working with my hands and being part of creating something lasting. In high school, I took welding classes, which gave me a solid foundation and sparked my passion for working with metal and tools. I appreciate that the trades offer stable, well-paying careers with opportunities for growth, continual learning, and craftsmanship.

Specifically, I am drawn to a career in the pipe trades because of the challenge and skill involved in working with complex piping systems that are vital to heating, cooling, and industrial processes. My welding experience in high school has made me excited to develop stronger pipe welding and fitting skills, and I look forward to hands-on work that combines technical knowledge with teamwork and problem-solving.

Add'l Edu. Details:**What trades-related courses did you take in school?**

Metals, Welding, Math-Geometry, Math-Algebra, Woodworking / Woodshop

What construction software or technologies do you have training in?**Any Safety Certificates:**

OSHA 30

Add'l Details:**Why is an apprenticeship an attractive option to you?**

The main reason an apprenticeship is an attractive option to me is an apprenticeship provides a clear path for career growth, certifications, and long-term job security. Knowing that I'll be gaining skills that are in high demand and can't easily be outsourced gives me confidence in my future. I'm also intrigued by the structured learning environment, where classroom instruction supports the hands-on work, helping me grow both technically and professionally in a way that's immediately applicable on the job site.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had done trade work prior to this, and it interests me because tradesmen are the true backbone of everything, without them there is quite literally nothing. Specifically, I was drawn to the pipe trades because of the precision, challenge, and importance of the work. Whether it's plumbing, steamfitting, or welding, the pipe trades require a high level of skill and attention to detail, which I find rewarding. I also appreciate the variety of work environments and the chance to be part of essential systems that keep buildings and infrastructure running safely and efficiently.

Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it allows me to learn a skilled trade while earning a living at the same time. I like the idea of gaining hands-on experience under trained professionals instead of just sitting in a classroom. It provides a clear path to a steady career, opportunities for advancement, and the chance to build skills that will always be in demand. I also value the mentorship and union support that come with an apprenticeship, because it means I'll be guided, challenged, and set up for long-term

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I'm interested in a career in the building trades because I value hard work, hands-on learning, and being part of projects that create something lasting and useful. The trades provide stability, good wages, and the opportunity to constantly grow my skills while contributing to work that supports communities.

Specifically, I'm drawn to the pipe trades because they combine problem-solving with physical skill, precision, and teamwork. Pipe systems are essential for safety, comfort, and efficiency in buildings, so I like the idea of playing a key role in work that people rely on every day. The trade also offers opportunities for steady employment, advancement, and eventually building a lifelong career I can take pride in

Add'l Details:

Why is an apprenticeship an attractive option to you?

An apprenticeship appeals to me because I'm starting fresh in a new trade, and am looking for a place that will be able to provide training and patience as I start a new path in my life. I believe on-the-job training can be more valuable than school, especially in the trades.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I took an interest in the trades young because of my dad, who is a diesel mechanic. This interest continued in highschool, where I took any and all shop classes available to me. I also was able to get a job as a diesel mechanic at the same shop as my dad. After almost two years and taking diesel courses at NWTC, I realized it wasn't for me, and started looking for other trades to work in.

My first job outside of diesel mechanics was at a metal fabrication shop, where I was hired and put as an assembler. I had originally joined to weld so this was initially disappointing. However, while assembling, I was introduced to pipe fitting, where I was given a plan and the parts, and told to figure it out from there. I found it incredibly satisfying when it all came together, and I quickly excelled at it.

Add'l Details:
Why is an apprenticeship an attractive option to you?

To gain knowledge and experience from individuals who have mastered the skills and have the tricks of the trade to pass down, while performing the actual duties of the job. An apprenticeship is basically learning the book knowledge by hands on, real world experience. Which in my opinion is the most raw way of education and learning there is.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Growing up, my father was a carpenter. Naturally I picked up an interest in tools and manual labor, not the most experienced but I do have a desire to learn and achieve. Then my family relocated and dad got involved in the trades pipe fitting, I would see books he would have and flip through them to see what his new thing was (this was during a young age). He inspired me to become a welder and learn a thing or two about a thing or two! Teach, train, and guide me. I will pick up fast, become efficient and skilled in anything I put my mind to.

I love working on house projects, such as building shelves, painting, and installing trim, as well as working on my car and learning how to be self-sufficient.

Doing things with my hands and learning while I try is very motivating for me. I use every opportunity to "get my hands dirty" to learn as much about projects as I can.

Why is an apprenticeship an attractive option to you?

The ability to learn while I earn and be able to start obtaining skills from day one is the largest attractive option for me.

I am also very drawn to learning from a journeyman and having that expert there that I can watch and absorb knowledge from.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have heard a little about the pipe trades since my uncle is a pipe fitter. I also really enjoy the idea of working with my hands and being able to build something lasting that I can be proud of.

I originally went to college, but have found that I am drawn to be in a field where I can help people and work in a team to accomplish something tangible together.

Add'l Edu. Details:

Why is an apprenticeship an attractive option to you?

I'm a very inquisitive person. I'm also very hard-working constantly wanting to learn things when I worked for Propell. I have the opportunity of learning how to do pipefitting and I really enjoyed it and I would like to further my education.

What trades-related courses did you take in school?

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always been the type of person that likes to see how things move , tick , and are put together. Mechanic work as well. Turning wrenches to something I've always been interested in.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

The ability to get paid while learning a new trade. I have two kids and my wife is a stay at home mom so taking time off work to go to school is not an option

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The amount of options for work. Also the high pay scale. I have been in the laborers 330 for about 10 years and feel that I have plateaued in a way and am not getting anything from it besides a wage.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me because it offers the opportunity to earn while I learn, gaining valuable hands-on experience under the guidance of skilled professionals. Instead of going into debt for a traditional college education, I can develop real-world skills in a structured environment that prepares me for a stable career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in pursuing a career in the pipe trades because it offers a hands-on, rewarding profession that combines technical skill, problem-solving, and long-term career stability. My main goal in life right now is career stability and to be able to put food on the table for my wife and child. I've always been more inclined to working with my hands because I love seeing the results of my work, for example, I work for a traffic safety company in Fond Du Lac and it makes me proud to see my work on the roads and highways whether it be from road signs I built or the many drums and cones I load onto trucks. My main goal in my professional life is growth. You will never go anywhere without learning and I intend to put in the work become a successful pipefitter.

Some 2-year college

Add'l Edu. Details:

N/A

What trades-related courses did you take in school?

Math-Algebra, Math-Precalculus / Trigonometry

Why is an apprenticeship an attractive option to you?

I like that I get paid to go to school and better myself is probably the most attractive thing. I think that apprenticeships are just the best way to learn though. It's so cool to be able to work and learn about things that are specific to your career unlike college where you have to take so many credits that might not have anything to do with your career.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am currently an electrician for michels power. I have only been an electrician for about a year and only with michels for a couple of months, but everyone that I have worked with have all said that if they were to go back and do it again they would become a pipe fitter. With this in mind I am learning from them and applying to become one. It also sounds like they get paid more which is very nice the work is good and they have benefits which are all things that I want. I have also heard that the trades need people and so I want to be where I am needed.

What construction software or technologies do you have training in?

Any Safety Certificates:

First Aid / CPR

Add'l Edu. Details:

GTAW, GMAW, SMAW, and robotics welding certification through MPTC in fond du lac

What trades-related courses did you take in school?

Metals, Welding, Robotics, Math-Algebra, Math-Geometry

What construction software or technologies do you have training in?

CNC, Solidworks

Any Safety Certificates:

OSHA 10

Add'l Details:
Why is an apprenticeship an attractive option to you?

I want an apprenticeship because I want to start my career in welding. I want to be able to be paid to learn, to be in a union, to have job stability and a life long career that also allows me to work with my hands. I have a passion for welding and want to make a living doing it but I'm not going to have all the tools right away and feel like my career would get off to a great start in the 400 with what you all can teach me.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

What interested me is welding but also seeing the job stability, the satisfaction of seeing the work being used and playing such a big role in society today.

Add'l Details:

Why is an apprenticeship an attractive option to you?

Im interested in being trained and taught by someone with experience. I always enjoyed learning, and that's what I'm hoping to get out of this. Then, to be able to obtain my journey card and teach the next generation.

I have a youth apprenticeship certificate. Yet havent been able to expand because of layoffs. I was talking to a 600 union welder the other day and he really talked me into it

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Im looking for a change of pace. Ive been a structural shop welder for the past 5 years. Being a union welder has always been something I was curious about.

Id like to do a little traveling, working from jobsite to jobsite. Being stuck in the same shop doing the same thing day in and day out is getting really old.

Why is an apprenticeship an attractive option to you?

it offers the chance to learn a skilled trade through real, hands-on experience while earning a paycheck. The fact that apprenticeships often lead to stable, long-term careers with good pay and benefits makes it even more appealing. It feels like an investment in my future that I can be proud of.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've always been drawn to hands-on work where I can see the direct results of my efforts, and the building trades offer exactly that. I also value the opportunity for lifelong learning and advancement within the trades, and the strong sense of pride and community that comes from being part of a union or skilled trade network.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter), HVAC/R Service Tech, Plumber

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

1-3

Welding Experience:

Flux Core- Skilled, MIG - Skilled, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked for my dad in his construction company and he did everything so I have learned basic plumbing skills like fixing leaks and installing toilets, I've been working as a structural seam welder for the past 2 years in this position, I have learned welding in many positions, gaps, and procedures, I have full understanding of weld symbols reading Blueprints, measuring in imperial and metric measurements, competent in many types of metals like stainless, copper nickel, steel and aluminum

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I have many hobbies, like rock climbing, puzzles, and wood working. I feel rock climbing contributes control, ability to think and work in unsatisfactory conditions. I believe puzzles enhance your problem solving skills, and using critical thinking skills. Wood working can contribute measuring skills, and reading comprehension of blueprints if you were to copy something you found online. I also enjoy art welding this could easily contribute to construction skills as welding is something you would do on a daily basis.

What construction software or technologies do you have training in?

Word

Any Safety Certificates:

First Aid / CPR

Add'l Details:

Why is an apprenticeship an attractive option to you?

You get paid to learn and people are expecting you to not know much instead of going into a job and being expected to do everything a journeyman can. You will get a more hands on training than basic book skills and how much you can remember on paper and I'm a person who is a hands on learner I can retain more information as someone physically shows me how it's done instead of describing it. Another reason is you really get to know the ins and outs of a trade with 5 years of training

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I got interested in the trades at a young age when I started working construction around the age of 15 and when I turned 18, I became a structural welder and I've loved it ever since. I'm very interested in the pipe trades because my lifelong dream is to become a rig welder on the pipeline, so I was looking into possibilities to get my foot in the door and I came across the local 400. I have spoken to a few people in this local and they seem to love it and that what brings me here today interested in applying for the apprenticeship for the steamfitters.

Years of Full-Time Work Experience:

1-3

Welding Experience:
Tell us about any jobs where you've learned pipetradese relevant skills:

I can't say ive worked a job that holds valuable hands on skills for trades. However,In my past jobs, I've learned to swork hard and stay focused, skills that are essential in the pipe trades. I've worked in fast-paced environments where teamwork and communication were key to getting the job done right.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy playing chess, staying active through sports and running, and working on basic car maintenance. Chess helps me stay sharp and think critically, planning several steps ahead, which is useful for problem-solving on the job. Sports and running keep me physically fit and teach discipline and teamwork, which are important in construction environments. Working on cars has given me hands-on experience with tools, mechanics, and how systems work, which all happen to be skills related to construction trades.

Add'l Edu. Details:

So upon my college career I've majored in Geograhpy then switched to a Math Education major. I'm more drawn to classes

What trades-related courses did you take in school?

Math-Algebra, Math-Calculus, Math-Geometry, Math-Precalculus / Trigonometry

What construction software or technologies do you have training in?
Any Safety Certificates:
Add'l Details:
Why is an apprenticeship an attractive option to you?

An apprenticeship is attractive to me because it lets me learn by doing. I prefer hands-on work over sitting in a classroom all day, and an apprenticeship gives me the chance to earn while I learn a valuable trade. I like that I can build real skills. It's a practical, rewarding path that fits the way I learn and work best.

What interested you in a career in the building trades in general, and specifically, a career in the pipetradese?

I'm interested in the pipe trades because I enjoy hands-on work, problem-solving, and using my math skills in real-world situations. I'm drawn to the stability, high earning potential, and the chance to learn a valuable skill that's always in demand.

Years of Full-Time Work Experience:

1-3

Welding Experience:

MIG - Skilled, Flux Core - Some Knowledge, TIG - Some Knowledge, Stick - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I'm currently working as a welder, and I've learned a lot that connects to the pipe trades. I'm used to working with different metals, reading blueprints, and making sure my welds are strong and clean.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

my free time I'm usually golfing, fishing, or snowboarding. I've noticed that these hobbies actually help with stuff that applies to the trades. Golf teaches me patience and how to stay focused when things get frustrating — kind of like when you're trying to get a weld just right. Fishing's helped me stay steady and pay attention to small details. Snowboarding keeps me active and has taught me to think on my feet and stay balanced, especially when things change fast, like on a job site. All in all, these things have helped me build good habits when working

Add'l Edu. Details:**What trades-related courses did you take in school?**

Welding

What construction software or technologies do you have training in?

AutoCAD

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

An apprenticeship sounds like a great fit for me because I'd rather learn by doing than sitting in a classroom all day. I like working with my hands and being active, so getting real on-the-job experience while learning the trade makes a lot of sense. It's also a solid way to build a career — you're earning while learning, and there's a clear path to move up.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I am interested in joining the pipefitter workforce because of my strong background in metal work and general welding. Over the years, I have gained hands-on experience with various welding techniques and working with different types of metals, which has given me a solid foundation in fabrication, precision work, and safety protocols. I believe these skills directly align with the demands of pipefitting, and I'm confident that my experience will allow me to contribute effectively while continuing to grow and learn within the trade.

I like the idea of learning by doing, not just sitting in a classroom. With an apprenticeship, I can build real experience on the job while also getting formal training from experienced professionals.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I first became interested in the pipe trades when a friend told me about steamfitting. I looked it up and thought it sounded like a great fit for me. Steamfitters work on important systems that keep buildings running, like heating and cooling. It's a job that takes skill, hard work, and teamwork, and I want to be part of something that makes a difference.

Although I appreciate classroom learning, I learn best by doing. I think an apprenticeship will keep me excited about learning as I immediately use the skills I am learning. I also need to generate some income for myself as a new high school graduate, and this seems like a good way to both learn and earn!

Also, I have a cousin who is doing a diesel tech apprenticeship and he is enjoying it. They

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

The reason why I am interested in the pipetrades is because I thought that I could learn how pipe systems work and how they are installed. I don't know a lot about how pipe systems work and I would like to learn and grow my knowledge in this trade.

I have taken a few welding classes (Fox Valley Technical College) so I know some things about welding, but I can still learn how it applies in the pipetrades. I am looking for work which will challenge me and that I do most of my life.

AutoCAD, Solidworks

Any Safety Certificates:**Add'l Details:****Why is an apprenticeship an attractive option to you?**

I love to learn and am a lifetime learner I love to experience many things and work situations they are the best way to learn and make some meaningful connections with people you enjoy being with and learning from and that's why I feel that an apprenticeship is an attractive option for me because I get to work with the best to make me the best.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I enjoy welding my father did it and he said it was a great job and I love to learn whatever I am doing I try to be the best at it

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Steamfitter (Pipefitter)

Work Zones in Preference Order:

Appleton Area (Green), Fond du Lac Area (Orange)

Relevant Experience Level:

A little. No specific trade experience, but I have general skills in construction or welding.

Years of Full-Time Work Experience:

7-9

Welding Experience:

MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked full time at a cranberry marsh for 3 years, I welded on machinery and fabricated equipment to help improve operations at the marsh, I also installed piping at the marsh and suction lines to the reservoirs. The past 4 years I have worked construction, that has helped me to become independent when needed to get a job done.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

For hobbies I hunt and I fish. The only thing transferrable to the trades is working on side projects in my free time like building and remodeling stuff for people.

Shift Availability:

Full-time

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Veteran

Why is an apprenticeship an attractive option to you?

Learning a new trade, learning to become a leader, higher wages and benefits

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have worked construction as a carpenter for the past 4 years, not earning much for wages has caused me to want to look into the union, I have always been in hands on jobs and enjoy it. I have two friends that work as pipefitters and from what I have heard from them I think it would be a good fit for me.

Pre-Apprentice Candidate Pipefolio

Disciplines of Interest:

Plumber, Steamfitter (Pipefitter), HVAC/R Service Tech, Pipe Fabricator

Work Zones in Preference Order:

Green Bay Area (Yellow)

Relevant Experience Level:

Some. I have worked for a plumber, steamfitter or HVAC/R contractor.

Years of Full-Time Work Experience: 10+

Welding Experience:

Stick - Some Knowledge, TIG - Some Knowledge, MIG - Some Knowledge

Tell us about any jobs where you've learned pipetrades relevant skills:

As an adult seeking a new career path, I am highly motivated to learn the field of pipefitting and committed to making a successful transition. I bring a strong work ethic, reliability, and the maturity that comes with life experience, all of which I believe are valuable assets in a hands-on, detail-oriented trade like pipefitting. I'm eager to develop the technical skills required, from reading blueprints to installing and maintaining piping systems, and I'm not afraid to start at the ground level to build a solid foundation.

Shift Availability:

Full-time, 1st Shift (Days), 2nd Shift (Nights)

Post HS Education:

No

Add'l Edu. Details:

What trades-related courses did you take in school?

Welding, Woodworking / Woodshop, Metals, Building Trades / Construction

What construction software or technologies do you have training in?

Any Safety Certificates:

Add'l Details:

Tell us about any hobbies that have boosted pipetrade-relevant skills:

In my free time, I enjoy working on hands-on projects like fixing things around the house, assembling furniture, and helping with basic plumbing repairs, which all relate directly to the skills needed in pipefitting. I've always had an interest in figuring out how things work and finding efficient ways to put things together, which has strengthened my attention to detail and mechanical thinking.

Why is an apprenticeship an attractive option to you?

An apprenticeship is important to me as an adult because it gives me the opportunity to learn a skilled trade through real-world experience while earning a paycheck. This practical, on-the-job learning approach is ideal for me because I'm ready to work hard, grow my skills, and move forward in a career that offers long-term stability and advancement.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I want to become a pipefitter because I enjoy working with my hands and solving problems in a way that produces real, visible results. The pipefitting trade offers a unique mix of physical labor, technical skill, and precision, all of which align with my strengths and interests. I'm drawn to the idea of building and installing systems that are essential to the function of buildings, factories, and infrastructure.

Another reason I want to pursue a career as a pipefitter is the opportunity for long-term growth and stability. The trade offers strong job security, excellent wages, and the chance to continue learning through on-the-job experience.

Add'l Details:

Why is an apprenticeship an attractive option to you?

The biggest thing is definitely not being in debt. That's a big worry for me and I would love to be able to do a job where I can get the education I need but without having to be in debt. Another reason that the apprenticeship option is my first option is because I just like the idea of being able to do hands on education other than sitting in a room with a bunch of other people learning and doing stuff on a computer. Other than being able to get my hands dirty and really learn.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I had done the tweet garot summer program where I got to do all these different trades, and meet all these people that revolved around my area of work that I want to get into. I got to do a mixture of welding,electrical,HVAC, and also a little bit of plumbing. Overall the experience was great and I found that I really love welding and i I would like to do this as my future career.

Flux Core- Skilled, MIG - Skilled, TIG - Skilled, Stick - Some Knowledge, Stick - Skilled

Tell us about any jobs where you've learned pipetrades relevant skills:

I worked at Mechanical Technologies inc. for a year as a laborer and mostly worked with the sheetmetal workers. I helped build, install, and take down ductwork. I also drove materials to job sites including ductwork, pipe, and HVCA units. Currently, I work at Fox Valley Metal Tech as a welder. I do a little bit of everything there as far as steel, stainless, and aluminum. Most of my work experience there is flux core, Tig-steel, Tig-aluminum, and thin Tig-stainless. I also read the blueprints to build the parts.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

The time I spend outside of work is usually in the garage maintaining my personal, family, and pleasure vehicles. I have never gone to a mechanic because I believe that I am capable of doing I out my mind to and every time I finish a project my confidence keeps building. I also fish quite a lot in the summer which shows patience and perseverance no matter how bad the bad has been. For the most part I am self taught and learn for my mistakes throughout the projects I do or life.

Welding Associate Degree - NWTC

What trades-related courses did you take in school?

Welding, Math-Precalculus / Trigonometry

Why is an apprenticeship an attractive option to you?

I want to learn for professional that are certified and all go by the same book. I also like the thought of schooling through work. Being able to do both and get paid is a huge benefit compared to going to school in the morning then working through the night. I also like that most of the apprenticeship is paid for, so there is less financial strain and can focus on my education.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have always considered joining the local, but I ended up going to NWTC for the welding program and tried working in a fab shop (Fox Valley Metal Tech). I worked there throughout school and talked with Doug Tennen about the trades and it seems to aligned with my interests the most. There are a few things that have moved my decision to the trades. The big one is welding, I like welding it has been something I've enjoyed learning and still learn new things everyday. I have also like the idea of being in a union where there are more worker rights and better wages. The time I have spent in a fab shop, everyone is paid different and what seems to be the most frustrating is when new hires with less experience are paid more than you. I like the idea of a minimum wage as an apprentice or journeymen.

I've had a high school meeting with local 400 and the benefits sounds really good.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I started catching on more about welding during my high school years. I've always liked the idea of building or creating something tangible and lasting through hands-on work. I'm drawn to the physical nature of the work, the problem solving on the job site and doing it with a team.

Additionally, I feel as if the building trades offer a strong sense of purpose and stability. These careers are essential to every community, providing structure we depend on daily. Roads, homes, and lots more. Hands on work is something I've love doing because it shows personal pride in craftsmen, and the ability to make a meaningful contribution to society.

Why is an apprenticeship an attractive option to you?

I want to be able to learn the skills properly and efficiently to industry standards allowing me to become a better welder and to see true career growth opportunity and let's be honest who doesn't want to make more money while building up your skill?

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I grow up in the trade world, my father is an electrician with Van Ert. I got more into the welding side because of my brother he showed me the ropes and turns out I've got some skill I'm mechanically inclined, I've had a wrench in my hand since the day I was born.

Add'l Edu. Details:**What trades-related courses did you take in school?**

Welding, Metals, Math-Algebra, Woodworking / Woodshop

Why is an apprenticeship an attractive option to you?

Because for me, it's a chance of starting a career one that I can work in the rest of my life. while providing for my family. And getting the training needed to keep advancing and a great chance for improvement in a hard-working field. Growing up my father always told me to learn things so that we could help others so I've been trying to do that my whole life and now I want to excel at this so that I can always help.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

My uncle has been in the trade for as long as I remember. He's been talking about for so many years and how it could be a good thing for me to help take care of my family and build my own family. I've always enjoyed hands on work and I know it time for me to start a career. This is the place for me.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option to me due to the fact that I've always thought about becoming a trades man. Throughout my whole life I've always wanted to be a welder/plumber but never met the requirements for it. I think I would have a great chance working as one climbing up the ranks throughout my career in the trades

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Honestly the design the well looked environment when it gets down to work. Since I was young I've always liked to work in general. I'm currently 17 and I am a early highschool graduate I would like to work in the trades for my future

I like to work with pipes also plumbing would like to know more about it as well. I believe I have a strong passion in me coming out for trades such as plumbing as well as welding. There's a lot of trades out there but in special these 2 are the ones that interest me the most

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I like to work on vehicles and create my own furniture in my free time. I also enjoy helping out my father when he buys a new house to fix up and sell. I help him out by doing carpentry tasks such as pulling carpet/flooring, gutting rooms, faucet installations, appliance installations, etc. This shows the problem solving, creativity, mechanical knowledge and work ethic skills transferrable to the construction trades.

What trades-related courses did you take in school?

Why is an apprenticeship an attractive option to you?

I would like to get an apprenticeship because the union treats its employees outstanding, and it is the start of something I would like to be a part of indefinitely. This apprenticeship to me is just the starting point. Also, it would help me learn and grow in my desired field, so one day I can be the best in my field.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I come from a long line of carpenters, electricians, builders, etc. But no one in my family has any knowledge or experience in the plumbing industry. I want to be the first in my family to have the skills necessary to complete projects related to plumbing and be endowed with the level of mastery I will accomplish throughout my plumbing career.

What construction software or technologies do you have training in?

Inventor

Why is an apprenticeship an attractive option to you?

The apprenticeship interest me because I'm looking for something more I want a career . I wasn't sure for awhile exactly what I wanted to do but I knew I was good with my hands. After talking with the guys from veterans plumbing and working alongside them, I realized this trade could be something that I would be interested in. So after looking more into it I realized i could see myself doing this. I don't mind working inside outside. I don't mind getting dirty. And im looking for something I can do for a while were I'm

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Been working alongside some of the guys from veterans plumbing. I find it very interesting and really easy to pick up on things. They suggest to me that i should try getting an apprenticeship though the union., I'm looking to a career as a plumber I have worked alongside many in the past two years. I've been at my current job, many of the guys from veterans, plumbing and maritime plumbing. It's a trade that seems to come very easily to me and a trade that sparks my interest. Im looking for something long term and something I see myself for the long run, I'm looking to have a career and something that I truly have a passion in and something that I see myself doing long-term I've worked a long time for a while and I've worked alongside HVAC technicians for a while and it is truly something that interest me

Add'l Details:

Why is an apprenticeship an attractive option to you?

On the job training would be perfect for learning a hands-on trade for me. Working with skilled journeymen in the same trade would also be a very important step in learning the trade., An apprenticeship would give me a chance to learn this trade directly from those who have the most experience in it. I have always learned the best when I can see and feel the solution to whichever problem I am tasked with.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Currently in the Welding Technology program at Kishwaukee College, Through my time studying at the local college's welding program, I began becoming interested in the pipe trades and my instructors suggested a career as a pipefitter/steamfitter.

Why is an apprenticeship an attractive option to you?

An apprenticeship is an attractive option for me because, it gives me the opportunity to grow, learn and expand my education, while I get paid on the job.

It also gives job security and an amazing pension. As I look towards the future, job security and a great pension is truly the goal and desire, along with furthering my career., Get paid to learn and grow in a skill

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I've been welding for 13 years in the shipyards and want to expand into pipe and get into a union I like, I've been welding for 14 years but I've never gotten into pipe

Add'l Details:
Why is an apprenticeship an attractive option to you?

Because I can continue to learn for the best on the job and in the class work while also being able to afford my everyday life., Because I get to learn from people who have been doing it , being hands on and getting tips and tricks in the field where it counts most., Because I get to learn on the job which I find better suits me than just being in a classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I love the welding aspect of the pipe trades. Definitely what I envision as my career., I love welding and did some tech schooling on welding., I want to weld , it's my passion. I went to school for welding at FVTC.

Add'l Details:**Tell us about any hobbies that have boosted pipetrade-relevant skills:**

One of my hobbies is fishing, when going fishing it helps with my patience. When you are out on the lake you can not rush and you have to stay calm and under control. With this hobby I have transferred this to my daily life.

Another hobbies I have to weight lifting. With this hobby it works on my mental strength and physical strength. I have to have the mental power to do more and push my limits to get better. With pushing myself it helps me physically, I have been able to get stronger and be able to lift more than I thought I ever would., I enjoy doing small home projects

Why is an apprenticeship an attractive option to you?

I want a good way to jump start my career. This is a great way start and advance my opportunity. I have heard great things from people I know about this program. It is a great way to improve my skills and learn new things. I am willing to push my self to get better., An apprenticeship is a good choice for me because I can learn the trade while working and earning money. I like that I can get real hands-on experience instead of just learning in a classroom.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

When I was in high school I took a welding class. I enjoyed the class and excelled in lots of the skills. After that class I always thought about it and how I would love to have a career in this industry. I have tried different jobs and I have always came back to this. I know this is something I would enjoy and stay with long term., I have always been drawn to hands-on work that combines problem-solving, technical skill, and tangible results. The building trades, in particular, offer the satisfaction of creating something lasting and essential for communities. I admire the teamwork, precision, and pride that go into every project, and I value the opportunity to develop specialized skills while contributing to infrastructure that people rely on every day.

Specifically, the pipetrades interest me because of their critical role in keeping buildings functional and safe. From installing complex systems to ensuring they operate efficiently, the work requires both technical knowledge and attention to detail. I'm motivated by the idea of working in a field where my efforts directly impact public health safety and

I would like to learn and make money at the same time given the fact I live on my own.

I also have a friend who is an apprentice through you guys and likes it., I'm a hands on learner, never did like learning everything straight from a textbook or online, so learning hands on and making money while doing so is the right thing for me, I like to work hands on, and make money while doing so. I think an apprentice ship is perfect for me because

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

Have been a painter, and did masonry since high school, and have seen many trades online that I would like to learn/ work, and wanted to find a career that I enjoy and can work in for many years to come.

I have a friend that has gone through this company and has an apprenticeship and talked highly of it as well., I've done, masonry, painting, worked in paper mills, always been interested in finding a career that I can rely on and find stability in with always having work., Have a buddy my age, that has gone through this same apprenticeship and he said that it's a good place to start a career and I've been interested in finding myself a career for awhile now.

Add'l Details:**Why is an apprenticeship an attractive option to you?**

I'd like to get right into the work field and possibly go to college later on the further my career, The apprenticeship program is nice for me because, I like the idea that you can be enrolled in both school learning your skills for the job and also be actively working on a job site as well. I also like that you don't have to pay into school much more past books and supplies coming from a lower income family that would help a lot., I like the idea of being able to work on the job while at the same time being able to go to school and learn

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I graduated high school and got an insulation job and watched as all the other crews did their part of putting the house together and was always interested in the plumbers, What interests me the most is working with my hands and watching the project build day by day. I enjoy knowing that I am a part of a crew who can work together and become something big., What interests me the most is working with my hands, and being a part of a group where we can all work together and be efficient. A career in the pipe trades has always been my thing ever since high school!

Tell us about any jobs where you've learned pipetrades relevant skills:

When it comes to jobs. Nothing. I haven't worked a job that dealt with pipe trades., I've been in manufacturing for as long as I can remember. I have done sandblasting, worked with sand cores and plastics. I don't think those would be applicable to the pipe trades. And then on the side I've worked vehicles. So for skills, the main big one would have to be attention to detail.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I'll help my father weld once in a while we're not the best but it's definitely a learning experience. Same goes for when he needs help building or adding additions to the house or yard., One of my main hobbies is working on cars. I've spent a lot of time doing my own repairs, upgrades, and modifications — everything from installing intakes and exhaust systems to troubleshooting mechanical issues. Working on vehicles has helped me build skills that transfer directly into the construction trades.

Why is an apprenticeship an attractive option to you?

I GET PAID TO TRAIN!!! And work towards having a stable career. I'll also be learning new skills that'll help me advance in whatever career I decide to go in., An apprenticeship is attractive to me because I learn best through hands-on experience, and the apprenticeship model gives me the chance to build real skills while earning a wage. Instead of going into debt for school, I can learn directly from experienced tradespeople and apply those skills on the job every day. With my background working on cars and

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I would like to build my skills and learn new things. I like to be challenged. I work hard and I'm willing to learn. Trades are great paying jobs and there will always be work needed., I want a career where I'm not stuck behind a desk — something hands-on, skilled, and reliable. That's why the building trades appeal to me. The pipe trades specifically interest me because I enjoy mechanical work, problem-solving, and the precision involved with piping systems. It's a career where I can continue growing, learn from experienced tradespeople, and build a solid future.

Tell us about any jobs where you've learned pipetrades relevant skills:

I haven't really done much I've watched a lot of videos so I have some what of a understanding but the only experience I have is fixing my toilet at home and underneath the sink, Wisconsin builders supply I did lots of framing there it was mostly trusses. I read a lot of blueprints there and did a lot of measuring. I also am currently with holtger bros inc where I do fiber optic cable. I work underneath the power lines so we hang fiber on strand and then lash them both together so it sits tight on the pole.

Tell us about any hobbies that have boosted pipetrade-relevant skills:

I exercise a lot and I lift weights about 5 times a week I also like to hangout with friends and relax and watch football and UFC and other sporting events., One of my hobby's I like to build tables and signs for my buddy's or even to keep for myself. I can relate that to construction because I use a tape measure and using a level to make sure everything fits well and looks good.

Add'l Edu. Details:**What trades-related courses did you take in school?**

Woodworking / Woodshop, Math-Algebra, Math-Geometry, Welding, Woodworking / Woodshop

What construction software or technologies do you have training in?

CNC, CNC

Any Safety Certificates:

OSHA 10, OSHA 10

Add'l Details:**Why is an apprenticeship an attractive option to you?**

I work really hard and I love to learn and I'm always eager to learn more, Because I get too learn hands on and have someone teaching me something I'm actually very interested in and wanting to get good at. And not only it's something that's hands on it's a good way to make good money and be able to support my family and create a life.

What interested you in a career in the building trades in general, and specifically, a career in the pipetrades?

I have family that are in the trades and as a kid I've always had a big interest in plumbing and I'm really eager to learn this trade, I'm very interested in welding I like to read blueprints and I did a lot of research on pipe fitting and I wanna get started as soon as possible.
